3. Principal's Report -Craig Smith

- a. Year End Awards – concerns that there are many kids that walk away without awards even though they have all A's, are kind or strive to go out of their way to help others, etc. How can we improve this?
- b. Craig Smith – We are NOT going to standards-based grading; but we are going to set proficiency standards in all grades over the next several years, this will remove some subjectivity in grading. These proficiency standards will still be converted to letter grades. This will likely change how we do some of these end of year awards. Nine weeks celebration will be something administration discusses this next week or two as we end the first nine weeks.
- c. Morning drop off concerns by parents addressed
- d. Textbooks not being used? Concern about this, why are we doing this? – they are used as a resource here at school but students can request to bring home if additional review is necessary.
