# Asbestos Awareness Website

**Asbestos Hazard Emergency Response Act**

The rules adopted under the Asbestos Hazard Emergency Response Act (AHERA) (15 U.S.C. 2641-2656) require a district to identify asbestos-containing material (ACM) in schools by visually inspecting school buildings for such materials, sampling such materials if they are not assumed to be ACM, and having samples analyzed by appropriate techniques, submit management plans, and implement the plans in a timely fashion. Districts are required to use persons who have been accredited to conduct inspections, reinspections, develop management plans, or perform response actions. The rule includes recordkeeping requirements.

**Delegation**

Districts may contractually delegate their duties, but they remain responsible for the proper performance of those duties.  
40 C.F.R. 763.80(a)

**Duties**

A district shall:

1. Ensure that the activities of any persons who perform inspections, reinspections, and periodic surveillance, develop and update management plans, and develop and implement response actions, including operations and maintenance, are carried out in accordance with 40 C.F.R. 763.80-99 and appendices (Subpart E).
2. Ensure that all custodial and maintenance employees are properly trained as required by Subpart E and other applicable Federal and/or state regulations (e.g., the Occupational Safety and Health Administration asbestos standard for construction, the Environmental Protection Agency (EPA) worker protection rule, or applicable state regulations).
3. Ensure that workers and building occupants, or their legal guardians, are informed at least once each school year about inspections, response actions, and post-response action activities, including periodic reinspection and surveillance activities that are planned or in progress.
4. Ensure that short-term workers (e.g., telephone repair workers, utility workers, or exterminators) who may come in contact with asbestos in a school are informed of the locations of asbestos-containing building material (ACBM) and suspected ACBM assumed to be ACM.
5. Ensure that warning labels are posted in accordance with 40 C.F.R. 763.95 (see Warning Labels, below).
6. Ensure that management plans are available for inspection, and notification of such availability has been provided as specified in the management plan under 40 C.F.R. 763.93(g).
7. Designate a person to ensure that requirements under 40 C.F.R. 763.84 are properly implemented and ensure that the designated person receives adequate training to perform duties assigned.
8. Consider whether any conflict of interest may arise from the interrelationship among accredited asbestos personnel and whether that should influence the selection of accredited personnel to perform activities under Subpart E.

40 C.F.R. 763.84

**Management Plan**

Each district shall develop an asbestos management plan for each school, including all buildings that they lease, own, or otherwise use as school buildings, and submit the plan to the Texas Department of State Health Services (TDSHS). Each district shall maintain and update its management plan to keep it current with ongoing operations and maintenance, periodic surveillance, inspection, reinspection and response action activities. All provisions required to be included in the management plan shall be retained as part of the management plan, as well as any information that has been revised to bring the plan up-to-date. 40 C.F.R. 763.93(b), (d)

The management plan shall be developed by an accredited management planner and shall include:

1. A list of the name and address of each school building and whether it contains friable ACBM, nonfriable ACBM, and friable and nonfriable suspected ACBM assumed to be ACM.
2. Specific information for each inspection conducted before December 14, 1987.
3. Specific information for each inspection and reinspection conducted under 40 C.F.R. 763.85.
4. The name, address, and telephone number of the person designated under 40 C.F.R. 763.84 to ensure that the duties of the district are carried out, and the course name, and dates and hours of training taken by that person to carry out
