

Welcome Statisticians,

Use the link below to join the **AP Statistics - 2023-2024 - Lee County High School** course. If the link doesn't work, then use the class code **BXFAMBJG** to join. I have already assigned the first three units for you to do during summer break (or before). Most of this content should be a review for you. Watching the videos is not mandatory, so watch them if needed. If you feel like progressing past the first three units, please do. Khan Academy is one of the resources we will use during the course and an excellent way to start the AP Statistics course. This summer learning should be done by August 9th, 2023 at 8:00 AM. Email me if you have any questions.

<https://www.khanacademy.org/join/BXFAMBJG>

Sincerely,

Mr. Houston
