This institution is an equal opportunity provider.

A: If you eat like most Americans, you consume over 20 teaspoons of added sugar every single day, or 115 pounds a year. That's just what we get from processed food and drinks, without ever actually dipping a spoon in the sugar bowl. Current guidelines recommend no more than 6-9 teaspoons of added sugar a day. Want the same sweetness without the side effects? Get your sugar the natural way – from fresh fruit.
