Founded in 1866 by Free Will Baptists, Maine Central Institute was a "feeder" school for students bound for Bates College in Lewiston, Maine, which at the time was a seminary school. While keeping its private school charter, MCI has, over the years, also served as the local high school for the communities of Pittsfield, Detroit, and Burnham.

MCI's Mission

The historic and continuing mission of Maine Central Institute is to help students realize their maximum potential and full self-worth as active citizens. The closeness of the school community will aid in the development of individual moral and social consciousness. Within a learning environment that stresses active caring and academic integrity, students learn scholastic responsibility, the value of personal achievement, and the need for honesty and integrity in their personal and academic affairs. This awareness of self and others is expected to link the many units of the school together, and to prepare the students for life beyond MCI.

Donna Shorey Young, MCI '64, U/Maine, BS 1984, U/Maine, M Ed. 1986, Science

Message from the Headmaster . . .

Members of the MCI family:

Having the opportunity to serve as the MCI Headmaster at this time in our school's history is the most rewarding professional experience that anyone could have.

We are in the process of making some of the most exciting educational changes that this century has seen. Our vision of interdisciplinary teaching will soon become a reality in many academic areas. Our teachers are totally committed to their own professional growth. Our excellence will reach higher levels as we move on to the future. It is great to have the opportunity to lead such outstanding educators!

Our physical plant has improved by leaps and bounds during the past decade. Weymouth Hall was revitalized in 1982; it is now one of the best equipped educational buildings in New England. Wright Gymnasium was completed in the fall of 1987, thanks to the generosity of so many alumni and friends. During 1988 and 1989, our three dormitories and Parks Gym were revitalized. Today they look brand new, due to the work of our maintenance and custodial staffs. I'm certain that in the near future we will successfully renovate and restore Founders Hall. It is so important for me to tell every one of our alumni and friends that our Trustees have a definite vision for MCI. Their commitment to this vision includes not only excellence in educational programs but also continuing improvement of our campus and facilities.

Our endowment portfolio is managed by David Wendell Associates of Bath, Maine, a financial management firm with a proven track record. Under the watchful eye of the Trustee Finance Committee, Wendell Associates has done an outstanding job relative to the growth of our endowment program. Our continuing commitment to endowment and financial investment is vital to MCI's financial stability. A strong development program dedicated to increasing our endowment will secure the future of our school.

I hope you will find the following pages informative; I want to thank you for all your support during the past years through the Annual Fund, endowment gifts, special gifts, and contributions in kind. All are truly appreciated and are of great benefit to MCI and the students it serves.

Sincerely,

A handwritten signature in dark ink, which appears to read "Douglas C. Cummings". The signature is fluid and cursive, with a large, stylized "D" and "C".

DOUGLAS C. CUMMINGS
Headmaster

Message from the Director of Development . . .

I would like to take this opportunity to introduce myself as the new Director of Development and tell you how pleased I am to be back at MCI. As was the case when I graduated in 1967, MCI remains a dynamic and progressive school very much focused on the future. I was eager to join the MCI family, because MCI is a special place.

The historic and continuing mission of MCI is to educate the students who will shape our world in the 21st century. As I reacquaint myself with MCI, I am coming to know a wonderful and dedicated group of people who make the school what it is. The faculty and staff believe in their institution and the leadership provided by Headmaster Doug Cummings. The contributions of these people make the MCI experience an enriching and positive one.

While our school continues to be a high-quality institution, making special contributions to its students, I firmly believe that MCI's greatest contribution to the region, the state, and the nation, is its alumni — 6,500 living graduates who have made and continue to make a special impact on our world. As alumni we must become strong advocates for MCI. If MCI is to have the vision and the flexibility to anticipate rather than merely adapt to change, it needs the support of those who value it most, its alumni. For MCI to continue as a high-quality institution it needs your participation — not just financially, but with new ideas and the power of persuasion.

Your Board of Trustees have made a strong commitment to the development effort. Born of economic uncertainty and State cuts in funding to education, the development effort will succeed only if we work with each other toward the common good. Accordingly, our fund-raising efforts have become critical in helping to meet the needs of the campus. As we expand our charitable giving program, we must build a foundation of awareness, then involvement and finally commitment. As we move forward, we will continue to look to those of you who currently participate, as well as to those who have yet to commit. Convincing you of the impact that your participation and contributions have on the students at MCI will be our major goal.

I would certainly be remiss not to mention the outstanding success that Maria Connors, our Director of Alumni Affairs and Communications, has had over the years with the Annual Fund. Through Maria's efforts, annual giving contributions from our alumni and friends have increased to record levels. Maria will be devoting full time effort to alumni matters and publications, but she has left her mark on the Annual Fund ledger. You're a tough act to follow, Maria, and I am confident that everyone associated with MCI joins me in extending a sincere thank-you.

There has never been a more important time for all of us to stand up and be counted as a part of the MCI family. I would recommend that you remember MCI with pride. As you make your 1992-'93 Annual Fund gift, keep in mind that the past has not and will not be extinguished, but rather will be distinguished. I would suggest you consider MCI a priority in your future giving plans; your participation, not the size of your gift, holds the key to MCI's future.

In advance, I thank you for your valuable support.

Dominick F. Susi II

A Message from the Director of Alumni Affairs and Communications . . .

MARIA CONNORS

Articles in the last *Alumnus* explained some of the exciting changes which have taken place this school year in the Alumni and Development Office. With the addition of new staff member Nick Susi '67, the Alumni Office is a lively place these days. Nick's responsibilities as Director of Development encompass the school's major fund-raising efforts in the areas of annual giving, planned giving, and capital advancement.

The re-alignment of responsibility for the Annual Fund from the Alumni Director to the Development Director has created a new avenue for institutional advancement in my area. I will continue to work with MCI's alumni, in particular, with our class agents, who put forth a tremendous volunteer effort. I will also work to manage the school's many publication projects. In addition, there will be an ongoing effort to inform our alumni and school community about the current events at MCI.

In March of 1992, we introduced *MCI Highlights*, a monthly newsletter for the parents of present-day MCI students. The newsletter contains information about academic and extracurricular activities of the school. In October, 1992, we expanded the four-page format of *Highlights* to include a two-page insert called *Focus on Learning*. Articles in *Focus on Learning* cover academic topics and are supplied by faculty and students under the direction of Mrs. Rosalie Williams.

The summer issue of the *Alumnus* is planned for production in May and will be mailed to all alumni and friends in mid-June. This summer *Alumnus* will contain information about the Alumni Association's annual summer reunion on the weekend of August 7-8.

Alumni Association President Ralph Damren '64 sends his regards to all alumni. Ralph and the members of the Alumni Association Executive Committee have been meeting on a monthly basis since last August, and have taken part in several projects for the Alumni Association. Among the projects were the Punt, Pass & Kick Contest on Homecoming Day; the annual Christmas Tree Lighting; and the Husky Challenge, a fund raiser during the winter sports season. The group held a Casino Night in April and plans to host a gathering of alumni in the Portland, Maine area in May.

In preparation for the summer alumni reunion on campus, we've made contact with most of our anniversary class agents and we're off and running! In the meantime, please let me know if there's any way that the Alumni Office can be of help to you. I'm happy and proud to continue to represent our alumni as part of the MCI team!

A Report from the Director of Admissions . . .

GORDON WEEKS

The Admissions picture looks good! While many independent schools are showing a decline in enrollment, MCI has shown continued growth in the last two years. In September of 1992, the school year opened with ninety-eight boarding and three day tuition students, a 20% increase over the last two years.

Through the end of January, 1993, inquiries to MCI from students showing an interest in boarding or private education were up more than 30% over last year. There is a marked increase in the number of undergraduates and day students interested in attending MCI.

The admissions process involves all components of the school: teachers, coaches, administrators, trustees, alumni, and friends. Continue to spread the word about the MCI experience. Your help is necessary and appreciated.

*MCI is attracting outstanding young people to the school community,
and the admissions office needs your help to continue this trend.*

In this issue you will find a postage free card to return if you know of someone who would benefit from the MCI experience. If you would like to help in other ways such as calling prospects or hosting a reception, call Director of Admissions Gordon Weeks.

During the past three years, MCI has been one of nine Maine schools involved in a state-wide program aimed at supporting educational assessment and change. Each of the nine schools will determine what skills, values, and knowledge are needed to prepare its students for life in the Twenty-First Century and what strategies are likely to produce the desired results. To support this work, the State Department of Education, through its Innovative Grant Program, has awarded MCI two annual grants of \$10,000 each. These grants have allowed MCI to expand its programs of professional development, acquire a library of professional publications, and continue educational initiatives such as the LIFE Skills Program, which was instituted more than two years ago for MCI's freshman classes. My classroom responsibility has been reduced so that I may coordinate and support such program initiatives.

In addition to LIFE Skills, MCI's Humanities Department has restructured the curriculum in order to offer all MCI students a Humanities

course. Each Humanities course, although materials and methods may vary, offers an interdisciplinary study of English, history, and fine arts. The expanded Humanities Department is headed by Ronald Bessey.

Recognizing the central role of technology in world today, MCI has now made two fully equipped writing labs available to all students. Usage increases weekly.

Eisenhower funds, Chapter II monies, and a recent Tech-Prep grant for \$5,000, as well as the Annual Fund, have lent financial support to restructuring efforts. The Tech-Prep grant will help to fund an interdisciplinary applied math and science course which will be implemented for juniors and seniors in the fall of '93.

Preparing MCI for the future demands the participation of all constituencies of the school. We must assess our needs, reflect on our options for meeting those needs, be willing to change when necessary, and maintain a moral and financial commitment to educational excellence.

A Report from the Director of Guidance . . .

DOUGLAS FERGUSON

During this busy school year, the Guidance Department has responded to the varied needs of our students. The Department has worked closely with students to provide career information and college placement advice. Our staff has also dealt with many social issues, including teen promiscuity and pregnancy, alcohol and drug abuse, AIDS education, teen suicide, and self-esteem.

With the addition of Guidance Counselor Jane McMorrow to our staff, all members of MCI's Guidance Department have taken on different duties. School Registrar Debra Billings has assumed the responsibility of advising our postgraduate students about colleges. Mrs. Billings also advises all students about financial aid and scholarships. Sarah Ramgren has moved to a full-time position as the Guidance Secretary. Mrs. McMorrow and I serve as counselors, working with the same classes throughout their MCI years.

The Guidance Department offers several programs designed to help students cope with the myriad of problems they face. At present, several teen peer groups meet each week with the objective of achieving individual goals through group counseling. The Peer Helpers are MCI students who are trained in communication skills and teen problems. These students listen to their peers and make appropriate referrals for counseling services. Another teen program, one that offers academic support, is peer tutoring. Students who do well in academic coursework help those who are having difficulties. Mrs. McMorrow and I provide individual counseling services for students who cannot receive counseling outside of school. Students who are affected by substance abuse are referred to Linda Hale, a Registered Substance Abuse Counselor employed by Eastern Maine Counseling and Testing.

One of the new programs initiated this year was AIDS Awareness Day. Students and the public were invited to an assembly presented by the Eastern Maine AIDS Network. The students viewed informational films and met in small groups with guest speakers. Another new program this year was Career Day, a day-long fair featuring representatives of businesses who shared information with students about various career options.

Seniors and Postgraduates have been busy applying to colleges; many have been accepted to schools such as Marlboro College, Plymouth State College, various campuses of the University of Maine and the University of Massachusetts, Houghton College, Norwich University, Massachusetts Maritime Academy, Eastern Maine Technical College, Kennebec Valley Technical College, Lafayette College, Fayetteville State University, Iowa State University, and Villanova University. Parents and students are welcome to visit the Guidance Department at any time of the year. The office is open during school vacations; staff members are available to talk with anyone with questions about college placement.

Academic planning for classes in the 1993-1994 school year is underway. As our students meet with counselors to plan their schedules, the staff in the Guidance Department looks forward to another productive school year.

The summary/preview of the year in MCI athletics begins with the highlight of the fall season, our golf team's State Championship in Class B. The team, coached by Kyle Ladd, came in with a lower team score than the State Class A winner, Morse High School of Bath.

The girls' soccer team made the Eastern Maine play-offs, won its quarterfinal match, then lost to Camden/Rockport in the semifinals by one goal. Senior forward Mandy King received an outstanding honor by being chosen to the All American Team sponsored by the National Soccer Coaches Association and Umbro.

Despite posting the first losing season in five years with a 5-7 record, the postgraduate football team made athletic history of sorts by playing three weekend double-headers as part of its 12-game schedule. The double-headers were necessitated by increased squad size. An easy win of 42-24 over arch-rival Bridgton Academy was some consolation for the team's season record.

The end of the winter sports season saw MCI's cheering squad place fourth in the Eastern Maine Class B tournament. With this placement, the squad was chosen for the State tournament.

The ski team completed a successful season with junior Caroline Wright winning both Class B slalom and giant slalom events. With this achievement and a strong finish in cross country competition, Caroline earned the State Skimeister Trophy.

In rifle team meets, MCI won the State Championship in the prone division. Peter Logidice was named the State Prone Champion.

Wrestlers Jason Watrous and Rutledge King won State Championships in their weight classes in Class C competition. They both took part in an open state tournament on February 20th in which King placed third and Watrous, fourth.

Girls' basketball finished fifth in Eastern Maine and was eliminated by Ellsworth in the first round of the Eastern Maine Tournament. Coach Julie Treadwell's team accomplished this without the services of Senior Mandy King and with only one other senior in the starting combination.

Coach Max Good's postgraduate basketball team won the New England Prep School Tournament this winter for the third time in four years. The team's remarkable record over the four-year time span is 100-4. The tournament, which was held at the University of Southern Maine's Hill Gymnasium, saw MCI's team defeat Cheshire Academy, 100-74 and St. Thomas Moore School, 83-57.

A preview of spring sports finds boys' tennis the projected big winner. Last spring, the team made it to the semifinals in Eastern Maine Class B; most of that squad will return to the team this year. Track and baseball will have re-building seasons after being hard hit by graduation in 1992. The softball team should be competitive again after winning the Eastern Maine Championship in 1992. Senior pitcher Becky Vaughan will return to lead the '93 Huskies.

A Report from the Business Manager . . .

Dear Alumni & Friends:

We are excited about our first Annual Report! After you have read this report, please let us know if there is other information you would like to have in future publications.

FINANCIAL REPORTS

MCI is a non profit corporation that operates under specific Financial Accounting Standards. Independent auditors review all financial documentation annually and report on the condition of the school through the annual Auditors' Report.

Non profit schools report financial information on a Fund basis. There are three funds that are used to report financial information: Operating or General Fund, Plant Fund and Endowment Fund.

The **Operating** Fund consists of Unrestricted and Restricted Funds. The Unrestricted Fund is where all of the day-to-day financial transactions of the school occur, such as purchasing books, paying employees, or buying fuel to heat the buildings. The Restricted Fund includes the student club accounts (French Club, Drama Club, etc.), unrestricted scholarship principal and restricted scholarship earnings to be awarded during this fiscal year as scholarships, and grant awards used in this fiscal year.

Operating Fund Revenues and Expenses for the fiscal year ending June 30, 1992, follow. Nearly 90% of MCI's revenues come from tuition and fees from S.A.D. #53 and our dormitory students. The Annual Giving Fund currently generates 2.53% of our revenues. Continued growth of the Fund is essential in order for MCI to maintain its current educational programs.

Operating Revenues for the Year Ending June 30, 1992

SAD 53 Revenues	2,065,123	61.11%
Annual Giving	85,391	2.53%
Endowment & Trust Unrestricted Revenues	45,264	1.34%
Bookstore, Game Receipts & Other	40,827	1.21%
Summer Program	18,109	0.54%
Dormitory Tuition & Fees	964,959	28.56%
Food Services Revenues, Lunch & USDA	54,823	1.62%
Golf Course	104,695	3.10%
TOTAL REVENUES	3,379,192	100.00%

Operating Expenses for the Year Ending June 30, 1992

Administrative Expenses	717,146	21.74%
Instructional & Infirmary Expenses	1,362,328	41.31%
Golf Course Expenses	101,083	3.06%
Operations Expenses	360,707	10.94%
Student Activities & Athletics	112,790	3.42%
Fixed Expenses	88,414	2.68%
Cafeteria Expenses	306,555	9.29%
Debt Service	41,911	1.27%
Capital Additions	207,220	6.28%
TOTAL EXPENSES	3,298,155	100.00%

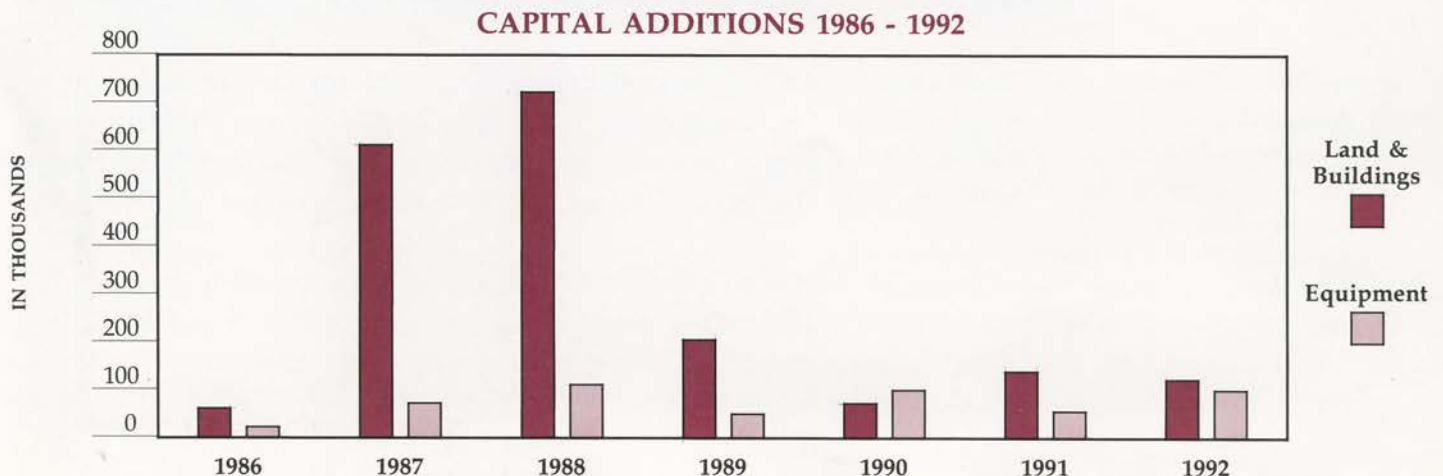

The **Plant** Fund consists of all of the material assets of the school — land, buildings and equipment; and all long-term debt owed by the school.

The **Endowment** Fund consists of monies given to MCI, where the principal portion of the gift is restricted. Any monies earned during the current fiscal year are directed to the appropriate fund. For example, interest earned from a \$50,000 endowed scholarship will be transferred to the Restricted Fund for use as a scholarship award. The \$50,000 gift remains intact, in the Endowment Fund, and earning more money for future scholarships.

COMMITMENT TO PHYSICAL PLANT

MCI understands the importance of maintaining its land, buildings and equipment. Renovations, repair, and replacement are critical to the long-term success of any institution. We view these capital additions and expenditures as investing in the future of our students and our school.

In the past five years, MCI has replaced, repaired and renovated more than \$1.7 million of equipment and buildings. Many of these renovations were long overdue. From 1987 through 1989, MCI built Wright Gymnasium and renovated its dormitories. The projects done each year since then range from building two computer labs for the students, to removing asbestos in all buildings. The following graph depicts the dollars invested in our plant over the last 5 years. We are proud of these accomplishments. With your help we will be able to continue these worthwhile projects.

REVENUES

Our commitment to maintaining and improving our entire campus has been possible as a result of Operating Fund Revenues during the years 1988 through 1992. These revenues came as a result of an increased number of boarding students and boarding tuition increases, as well as increases in the allowable tuition rate in the local district.

Boarding student revenues have begun to reach their peak, and are expected to flatten out in years to come. Admissions efforts will be geared more toward maintaining our current number of boarding students rather than substantially increasing tuition fees to our boarding students. Simply, this means that dollars from our boarding program will remain fairly constant over the next few years.

Revenues from local day students have increased dramatically for three reasons. First, MCI's contract with the local district allowed us to charge a "per pupil" rate on an increasing rate structure, beginning at 89% of the State Allowable Rate in 1983/1984, to 100% of the State Allowable Rate in 1990/1991. Second, during that same time period, due to increased expenditures in Maine's public schools and due to inflation, the State Allowable Rate increased by double digit percentages. Third, the average number of students during that time period rose each year. The net effect was a substantial increase in revenues during the past five year period.

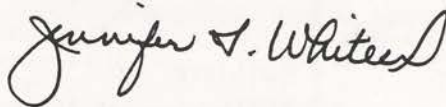

THE RECESSION

Unfortunately, the recession, combined with a larger amount of students statewide, has had a substantial negative effect on the State Allowable Tuition Rate this year. The rate dropped by 1.4% with an overall effect on revenues of -\$110,000 for 1992/1993. This trend is expected to continue for at least the next three years, and will negatively effect revenues by as much as -\$150,000 in 1993/1994.

The reduction in State Allowable Tuition Rates, combined with the smaller increases in boarding revenues, emphasize the need for our Annual Giving program, and how important it will be in helping maintain our programs in years to come.

We are so excited about your willingness to help us in the years to come.

Sincerely,

JENNIFER S. WHITESEL
Business Manager

Alumni Giving

Alumni contribute to MCI in numerous ways. The efforts of each class are vital to the Annual Giving Fund. Special acknowledgement goes to all of our Class Agents for their work on behalf of MCI.

The Parents and Friends of Maine Central Institute

Special recognition is given to the parents of students and alumni, present and former trustees, faculty, staff, and other friends, whose contributions to the 1991-'92 Annual Giving Fund have helped MCI greatly. Also acknowledged in this list are the organizations which have made contributions to the Annual Fund, through employee matching gift programs.

Mr. & Mrs. Carl Wright '43

Contributors of Special Gifts and Gifts In Kind

MCI acknowledges the generosity of numerous other alumni and friends who have made monetary contributions or gifts in kind during the 1991-'92 fiscal year, for the betterment of the campus and its facilities.

Deep appreciation is extended to Mr. Harold T. Clark '62 for his most generous monetary gift which enabled MCI to purchase a tract of land on the southwest border of the campus.

Listed below are the names of individuals and business which have contributed to the improvement of MCI's facilities in various ways.

For the beautification of the MCI campus and Parks Golf Course:

William Ball '62
Willard Lehr '42
Frank Woodworth '74
Cianbro
Michael Fendler '70

For plant operation and maintenance:

Webber Oil Company

MCI's Annual Giving Fund: A Five-Year Comparison

The following is a five-year comparison of the number of donors and number of dollars given to MCI for the Annual Giving Fund. We thank all the individuals responsible for these contributions.

All alumni in MCI's current address file will soon be receiving an important alumni directory questionnaire in the mail.

The questionnaire is being sent to give every alum the opportunity to be accurately listed in the upcoming new

Maine Central Institute Alumni Directory

*PLEASE BE SURE TO COMPLETE AND RETURN YOUR
DIRECTORY QUESTIONNAIRE AS SOON AS POSSIBLE!*

Once received, your information will be edited and processed by our publisher, Harris Publishing Co., Inc. Nearly 7,000 of our alumni will be included in this impressive new Directory.

If you don't return your questionnaire there is a possibility you may be inadvertently omitted. Don't take a chance . . . watch for your questionnaire and remember to return it promptly.
