# Independent Auditors' Report

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Lehighton Area School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Lehighton Area School District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

# **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Lehighton Area School District as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 15, budgetary comparison schedule on page 60, schedule of the school district's proportionate share of the net pension liability on page 62, schedule of the school district's contributions on page 63 and schedule of funding progress on page 64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lehighton Area School District's basic financial statements. The supplementary information listed in the table of contents and the schedule of expenditures of federal awards, as required by the U.S. Office of Management and Budget Uniform Guidance, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

# Other Reporting Required By Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2017, on our consideration of Lehighton Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lehighton Area School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2017

The discussion and analysis of the Lehighton Area School District's (District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should review the basic financial statements as well as the notes to the financial statements to enhance their understanding of the District's financial performance.

# Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of five components 1) government-wide financial statements, 2) fund financial statements and 3) Proprietary Funds, 4) Fiduciary Funds, 5) notes to the financial statements.

#### Government-Wide Financial Statements

The government-wide financial statements are designed to provide a broad overview of the District's finances. These statements are prepared using the accrual basis of accounting. The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference stated as net position. Increases or decreases in net position may be an indicator of whether the financial position of the District is improving or declining. In assessing the overall performance of the School District, consideration must be given to the overall cash position, the ability to meet its debt obligations and the current property tax rates. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

#### Governmental Activities

#### Revenue

The revenue of the School District during 2016-2017 of \$40,627,215 came from four major sources. These sources included charges for services (\$285,586), grants and contributions (\$20,163,688), local tax revenue (\$19,699,424), and other revenue (\$478,517). Included in other revenue are investment earnings (\$231,483) and miscellaneous revenue (\$247,034). The increase of revenue of 8.9% (\$3,325,499) from the prior year was due to an increase of grant funding, mainly from the ACE reimbursements received from the Commonwealth of PA financing authority for reimbursement of costs related to construction projects.

#### **Expenses**

The 2016-2017 expenses totaled \$41,345,018, a 5.31% increase from the prior year. The increase (\$2,085,644) was due wage increases and increased interest payments on long-term debt.

The District contracted with Nutrition Group Inc., for the operation of food service for the District. The District's food service personnel have remained as District employees except for the Food Service Director who is a Nutrition Group' employee. This change became effective on January 1, 2007. Effective August 20, 2010 all new food service personnel will be Nutrition Group employees, all District employees as of that date will remain District employees until they resign, retire or are terminated.

#### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities. The District uses fund accounting to ensure compliance with legal requirements. Fund financial statements are prepared using the modified accrual basis of accounting. The District uses several types of funds, but the two most significant types are the governmental and proprietary fund types.

#### Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship between the governmental activities (reported in the Statement of Net Position and Statement of Activities) and governmental funds is reconciled in the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) YEAR ENDED JUNE 30, 2017

# General Fund Budget Comparison.

The Budgeted Expenditures for the year were \$39,170,228. The actual expenditures were \$41,368,221. The 5.61% increase, was due to the District paying down on its long-term debt.

# **Proprietary Funds**

These funds are to account for the District Activities that are similar to business operations in the private sector, or where the reporting is on determining net income, financial position, changes in financial position and a significant portion of funding through user charges. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provides more detail and additional information, such as cash flows.

# Fiduciary Funds

The District is the trustee, or fiduciary for some scholarship funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations.

# **Capital Assets**

At June 30, 2017 the District had \$64,516,485 invested in capital assets which included land, buildings, equipment, vehicles and furniture. This amount represents a net increase (including additions, deletions and depreciation) of \$27,936,748 or 76.37% from last year. The increase is due to the stadium, high school, middle school, and elementary center construction projects.

# Economic Factors and Next Year's Budgets and Rates

The District and its Professional Staff (Lehighton Area Educational Association) are currently working under a three (4) year Collective Bargaining Agreement effective from September 1, 2016 to August 31, 2020.

The District and its Support Staff (Lehighton Area Educational Support Personnel Association) are currently working under a five (5) year Collective Bargaining Agreement effective from July 1, 2016 to June 30, 2021.

The District and its Act 93 Administration are currently working under a 3 year contract expiring June 30, 2017. The District has negotiated a new (5) year contract effective July 1, 2017.

The District has contractual relationships with the Carbon Lehigh Intermediate Unit 21 (CLIU 21), the Carbon County Technical Institute (Vo-Tech) and Lehigh Carbon County College. The CLIU provides Special Education Services to the District. The Carbon County Technical Institute provides full time vocational and academic subjects for Lehighton area students. At this time, the Lehighton Area School District allows students in grades 9 through 12 to participate in these programs. The Lehigh Carbon Community College is supported by contracts with various School Districts in Lehigh and Carbon Counties. This support results in subsidized tuition for the residents of the member Districts.

RECONCILIATION OF TOTAL GOVERNMENTAL FUNDS BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES JUNE 30, 2017

TOTAL GOVERNMENTAL FUNDS BALANCES	\$	32,496,626
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not current financial resources and therefore are not reported as assets in Governmental Funds. The cost of the assets is \$84,599,856 and the accumulated depreciation is		
\$20,248,757.		64,351,099
Deferred inflows and outflows of resources related to pension activities are not financial resources and therefore not reported in the governmental funds.		10,300,000
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.		905,887
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:		
Bonds payable		(61,995,422)
Accrued interest		(905,571)
Compensated absences		(2,159,308)
Net pension liability		(56,601,000)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2017

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$	(22,401,750)
Amounts reported for governmental activities in the statement of activities are different because:	Ť	( , - , - ,
Capital outlays are reported in Governmental Funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$28,895,604) exceeds depreciation (\$947,876) in the current period.		27,947,728
Because some property taxes will not be collected for several months after the School District's fiscal year ends, they are not considered as "available" revenues in the Governmental Funds. Deferred inflows of resources decreased by this amount this year.		(768,109)
The net change in the liability for the net OPEB obligation is reported in the government-wide statements but not in the Governmental Funds statements.		(49,086)
In the statement of activities, certain operating expensescompensated absences (vacation and sick leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.		(154,212)
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in Governmental Funds:		
Accrued interest Pension plan expense		(149,836) (1,554,000)
The issuance of long-term debt provides current financial resources to Governmental Funds, while the repayment of the principal of long-term debt consumes the current financial resources of Governmental Funds. Neither transaction, however, has any effect on net position. Also, Governmental Funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Issuance of Qualified Zone Academy Bonds Repayment of bond principal Amortization of bond discounts and premiums	_	(6,800,000) 3,105,000 106,462

### NOTE A - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

#### **School District**

The Lehighton Area School District (the "School District") is located in Northeastern Pennsylvania in Carbon County. The School District is comprised of the Boroughs of Lehighton, Parryville and Weissport, and the Townships of East Penn, Mahoning and Franklin.

The School District is a unit established, organized and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other School Districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

# **Board of School Directors**

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish and maintain a sufficient number of elementary, secondary and other schools necessary to educate every person, residing in such District, between the ages of 6 and 21 years, who may attend.

In order to establish, enlarge, equip, furnish, operate and maintain any schools herein provided, or to pay any school indebtedness which the School District is required to pay, or to pay any indebtedness that may at any time hereafter be created by the School District, the Board of School Directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

# NOTE A - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY (Continued)

#### Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision and operation of the School District.

The Business Administrator recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the School District. The Business Administrator is directly responsible to the Superintendent.

# Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service and student related activities of the School District.

The School District is a municipal corporation governed by an elected nine-member board. As required by accounting principles, generally accepted in the United States of America, these financial statements are to present the School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The School District does not have any component units.

#### Joint Ventures

Carbon Career & Technical Institute - The School District is a participating member of the Carbon Career & Technical Institute (CCTI). The CCTI is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the CCTI's annual operating budget. Each participating district pays a pro-rata share of the CCTI's operating costs based on the number of students attending the CCTI's from their district. The School District's share of the CCTI's operating costs for 2016-2017 was \$1,669,420.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

# NOTE A - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY (Continued)

On dissolution of the Carbon Career & Technical Institute, the net position of CCTI will be shared, on a pro-rata basis of each participating district's current market value of taxable real property, as certified by the Pennsylvania State Tax Equalization Board. However, the School District does not have an equity interest in CCTI as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the CCTI can be obtained from the CCTI's administrative office.

Lehigh-Carbon Community College - The District is a participating member of the Lehigh-Carbon Community College (LCCC). The LCCC is run by a Board of Trustees elected by the participating member Districts' boards of directors. No participating district appoints a majority of the Board of Trustees. A vote of two-thirds of all member districts shall be required for approval of the LCCC's annual operating budget. The amount of the annual operating costs of the LCCC shall be apportioned among the member districts on the basis of the number of full-time equivalent students enrolled in LCCC and residing in the respective geographical areas of each of the member districts. The School District's share of LCCC's operating costs for 2016-2017 was \$230,979.

On dissolution of the Lehigh-Carbon Community College, the net position of LCCC will be shared on a pro-rata basis of each member district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCCC as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCCC can be obtained from the LCCC's administrative office at 2300 Main Street, Schnecksville, Pennsylvania.

### Jointly Governed Organizations

Carbon-Lehigh Intermediate Unit - The School District is a participating member of the Carbon-Lehigh Intermediate Unit (CLIU). The CLIU is run by a joint committee consisting of members from each participating District. No participating District appoints a majority of the joint committee. The Board of Directors of each participating District must approve the CLIU's annual operating budget. The CLIU is a self-sustaining organization that provides services for fees to participating Districts. As such, the District has no on-going financial interest or financial responsibility in the CLIU. The CLIU contracts with participating Districts to supply special education and computer services and acts as a conduit for certain federal programs.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced. GASB Statement No. 62 was issued to include all prior Financial Accounting Standards Board's statements and interpretations, along with predecessors' statements and interpretations pertaining to governments into the hierarchy of the Governmental Accounting Standards Board's jurisdiction.

#### Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities and fund financial statements which provide a more detailed level of financial information.

**Government-Wide Financial Statements** - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grant and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

**Fund Financial Statements** - During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of Governmental and Enterprise Fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The Fiduciary Funds are reported by type.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

# NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Fund Accounting**

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: Governmental, Proprietary and Fiduciary.

Governmental Funds - Governmental Funds are those through which most governmental functions typically are financed. Expendable assets are assigned to the various Governmental Funds according to the purposes for which they may or must be used. Deferred outflows of resources is recorded in a particular Governmental Fund where costs are spent for a future period. Current liabilities are assigned to the Governmental Fund from which they will be paid. Deferred inflows of resources is recorded in a particular Governmental Fund that has received resources for a future period. The difference between the sum of assets and deferred outflows of resources minus the sum of liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major Governmental Funds:

**General Fund** - The General Fund should be used to account for and report all financial resources not accounted for and reported in another fund.

**Capital Project Fund** - The Capital Project Fund accounts for financial resources related to general fixed asset acquisitions, construction and improvements.

**Special Revenue Fund** - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establish that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund. Other resources also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund.

Under this definition, the School District does not have any Special Revenue Funds.

**Proprietary Fund** - The Proprietary Fund focuses on the determination of changes in net position, financial position and cash flows and are classified as an Enterprise Fund.

**Enterprise Fund** - The Enterprise Fund may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major Enterprise Fund is:

**Food Service Fund** - This fund accounts for the financial transactions related to the food service operations of the School District.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### **NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Fiduciary Funds** - Fiduciary Funds reporting focuses on net position and changes in net position. The Fiduciary Fund category is split into four classifications: Pension Trust Funds, Investment Trust Funds, Private-Purpose Trust Funds and Agency Funds. Trust Funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a Private-Purpose Trust. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

#### Measurement Focus

**Government-Wide Financial Statements** - The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position.

**Fund Financial Statements** - All Governmental Funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet, along with deferred outflows of resources or deferred inflows of resources required to be reported. The statement of revenues, expenditures and changes in fund balances reports on the sources i.e., revenues and other financing sources) and uses i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental Funds financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for Governmental Funds.

Like the government-wide statements, all Enterprise Funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities, including required deferred outflows of resources or required deferred inflows of resources, associated with the operation of these funds are included on the statement of fund net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

#### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental Funds use the modified accrual basis of accounting. Proprietary and Fiduciary Funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### **NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Revenues - Exchange and Non-Exchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

#### **Budgetary Process**

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

**Accelerated Budget Process Option** - Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least ten days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### **NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Board Resolution Option** - Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget, the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least ten days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2016-2017 budget transfers.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Cash and Cash Equivalents** - For purposes of the statement of cash flows, the Proprietary Fund Type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

**Investments** - Statutes authorize the District to invest in: 1) obligations, participations and other instruments of any Federal agency, 2) repurchase agreements with respect to U.S. Treasury bills or obligations, 3) negotiable certificates of deposit, 4) bankers' acceptances, 5) commercial paper, 6) shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933, and 7) savings or demand deposits. The specific conditions under which the District may invest in these categories are detailed in Pennsylvania Act No. 53 of 1973, as amended by Pennsylvania Act No. 10 of 2016. Investments are stated at fair value.

Pennsylvania Local Government Investment Trust Funds are invested in accordance with Section 440.1 of the School Code. Each school district owns a pro rata share of each investment or deposit which is held in the name of the fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Under Act No. 72, enacted by the General Assembly of the Commonwealth of Pennsylvania, the funds deposited with the various banks are permitted to be secured on a pooled basis with all other public funds which the banking institution has on deposit. These may be bonds of the United States, any state of the United States, or bonds of any political subdivision of Pennsylvania or the general state authority or their authorities created by the General Assembly of the Commonwealth of Pennsylvania, or insured with the Federal Deposit Insurance Corporation. The market value of such bonds pledged must equal 120% of the funds deposited. The security pledged by the various depositories utilized during the year and at June 30, 2017, was in excess of the minimum requirements just described.

The District has adopted GASB Statements No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, No. 72, Fair Value Measurement and Application and No. 79 Certain External Investment Pools and Pool Participants. In accordance with these Statements, investments in marketable securities with readily determinable fair value and all investments in debt securities are reported at their fair values. Investments in qualifying external investment pools are reported at amortized cost basis.

**Receivables and Payables** - Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

**Property Tax Levy** - Property taxes, which were levied during the fiscal year ended June 30, 2017, are recognized as revenue in the fund financial statements when received by the School District during the fiscal year and also estimated to be received by the School District within 60 days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within 60 days after the fiscal year-end, are recorded as receivable and deferred inflows of resources in the fund financial statements.

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount

**Inventories** - On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. As of June 30, 2017, the inventory shown in the governmental activities column of the government-wide statement of net position is \$4,445, and \$25,676 is shown as inventory in the business-type activities column of the government-wide statement of net position.

Inventory type items in Governmental Funds utilize the consumption method, that is, they are charged to expenditures when used. A physical inventory was taken as of June 30, 2017; therefore, there is a nonspendable fund balance of \$4,445 in the General Fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the School District is the Food Service Fund. Inventory within this fund consists of donated commodities, which are valued at U.S.D.A.'s approximate costs, and purchased food.

Inventories on hand at June 30, 2017, consist of:

Purchased food	\$	10,285
Donated commodities	_	15,391
	_	
	\$_	25,676

**Prepaid Expenses** - In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific Governmental Fund in which future benefits will be derived.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the Proprietary Funds. These assets generally result from expenditures in the Governmental Funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the Enterprise Fund are reported both in the business-type activities column of the government-wide statement of net position and in the respective fund. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$2,500. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not. Interest incurred during the construction of capital assets utilized by the Enterprise Fund is also capitalized.

All reported capital assets except land, certain land improvements and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Estimated Lives (In Years)					
	Governmental	Business-Type				
Description	Activities	Activities				
Puildings and improvements	20.50	20 50				
Buildings and improvements	20-50	20-50				
Furniture and equipment	5-20	5-20				
Vehicles	8	N/A				

**Compensated Absences** - The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. Vacation benefits are accrued as a liability since the employees are allowed to carryover vacation days and are compensated for unused vacation days upon retirement.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For Governmental Funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In the Enterprise Fund, the entire amount of compensated absences is reported as a fund liability.

**Deferred Outflows/Inflows of Resources** - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has only one item that qualifies for reporting in this category. The deferred outflow related to pension activity, reported in the government-wide statement of net position and the Proprietary Fund statement of net position. The deferred outflow related to pension activity is the result of changes in the School District's proportionate share of the total plan from year to year, the difference between actual employer contributions and the School District's proportionate share of total contributions, and actual contributions subsequent to the measurement date.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has two items that qualify for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. The second item, deferred inflows related to pension activity, are reported in the government-wide statement of net position and the Proprietary Fund statement of net position. The deferred inflow related to pension activity is the result of differences between projected and actual investment earnings. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

**Long-Term Obligations** - In the government-wide financial statements and Proprietary Fund Types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or Proprietary Fund Type statement of net position. Bond premiums and discounts, and deferred amounts on refundings are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Any deferred amount on refundings are reported as deferred outflows of resources and amortized over the life of the bond issue. Bond issuance costs are expensed in the year they are incurred.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, Governmental Fund Types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses and other financing sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures.

**Reclassification** - Certain amounts have been reclassified to conform to the June 30, 2017, presentation of government-wide financial statements on the accrual basis of accounting versus the Governmental Funds financial statements reported on the modified accrual basis of accounting.

**Net Position Flow Assumption** - Sometimes the School District will fund outlays for a particular purpose for both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and Proprietary Fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

**Net Position** - Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The net investment in capital assets component of net position is comprised of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. In addition, any deferred outflows of resources and/or deferred inflows of resources related to such capital assets or liabilities associated with the capital assets should also be added to or deducted from the overall net investment in capital assets. The restricted component of net position is used when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, granters, or laws or regulations of other governments. The remaining component of net position is unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both the restricted and unrestricted components of net position are available.

**Fund Balance Categories** - Fund balance for Governmental Funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Below are the potential categories of fund balance the government may use with their definitions, the actual categories used is explained in Note E to the financial statements:

 Nonspendable Fund Balance - This category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### **NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

- Restricted Fund Balance Fund balance should be reported as restricted
  when constraints placed on the use of resources are externally imposed by
  creditors, granters, contributors, or other government laws or regulations, or
  the constraint is imposed by enabling legislation or constitutional provisions.
- Committed Fund Balance This category pertains to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action. The School District's governing body is the School Board and the formal action taken to commit resources is done by resolution.
- Assigned Fund Balance This category includes all remaining amounts that are reported in Governmental Funds, except the General Fund, that are not classified in one of the above-mentioned categories. In the General Fund, this category represents the School District's intent to use resources for a specific purpose, which does not require formal action by the governing body. The School District's policy dictates the Superintendent and Business Administrator are responsible to make these assignments.
- Unassigned Fund Balance This category of fund balance represents the
  residual classification for the General Fund after segregating resources used
  in the other categories listed above. Unassigned fund balance will only be
  shown in other Governmental Funds if those Governmental Funds have a
  negative net fund balance.

The School District's policy on fund balance does not dictate which category of unrestricted fund balance is spent first, when resources are available to be spent in various categories. As such, committed amounts will be reduced first, followed by assigned amounts, and then unassigned amounts. The School District's policy also does not dictate whether restricted (nonspendable or restricted) or unrestricted (committed, assigned and unassigned) is spent first when resources are available in both categories. As such, in these circumstances, restricted will be assumed to have been spent first followed by the unrestricted categories.

**Contributions of Capital** - Contributions of capital in Proprietary Fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The Proprietary Fund received no capital contributions during this fiscal year.

#### NOTE C - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

#### **Assets**

**Custodial Credit Risk - Deposits** - Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a policy for custodial credit risk. As of June 30, 2017, \$10,335,654 of the School District's bank balance of \$36,064,934 is uninsured and collateralized with securities held by the pledging bank's trust department not in the School District's name, \$259,960 was insured by the FDIC and \$25,469,320 is held in state investment pools and is uninsured and uncollateralized.

A portion of the School District's deposits is in the PLGIT program, of which are funds similar to mutual funds. GASB Statement No. 3, Paragraph 69, provides that certain types of cash and investments, such as cash investments in a State Treasurer's investment pool or mutual fund, cannot be assigned a credit risk category because the government does not own specific securities. Therefore, the PLGIT cash investments included in these statements will not be assigned a credit risk category. The carrying amount of these investments at June 30, 2017, is \$25,469,320. These assets maintain a stable net asset value of \$1 per share. All PLGIT investments are monitored weekly by Standard & Poor's and are subject to an independent audit on an annual basis.

#### Fair Value Measurement

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are those that lack significant observable inputs. The School District did not have any recurring fair value measurements as of June 30, 2017.

#### **Property Taxes**

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the School District. Assessed values are established by the County Board of Assessments.

All taxable real property was assessed at \$366,628,034 which includes a property tax reduction in accordance with Act 1 of 2006. The tax rate for the year was \$4.788 per \$100 of assessed valuation or 47.88 mills.

The property tax calendar is as follows:

July 1 Full year tax assessed for current year.

July 1 to August 31 Discount period during which 2% discount is allowed.

September 1 to October 31 Face amount of tax is due.

November 1 to December 31 A 10% penalty is added to all payments.

January 15 All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for collection.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the fund financial statements.

#### Receivables

Receivables, as of year-end, for the School District's individual major funds and nonmajor and Fiduciary Funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	_	General Fund	. ,	Food Service Fund	 Nonmajor Funds	 Fiduciary Funds	. <u>-</u>	Totals

#### **Commitments**

**Encumbrances** - Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the School District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the School District's legally adopted budget.

**Construction Commitments** - The School District has \$28,594,713 in construction commitments at June 30, 2017, related to the athletic stadium, middle school, high school and elementary center projects.

#### **PENSION PLAN**

#### Summary of Significant Accounting Policies

**Pensions** - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **General Information About the Pension Plan**

**Plan Description** - PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the PSERS include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided - PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%. depending on membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE C - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

#### **Contributions**

#### **Members Contributions**

- Active members who joined the PSERS prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the PSERS on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the PSERS after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with services rendered on or after January 1, 2002.
- Members who joined the PSERS after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and the Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

#### **Employer Contributions**

The School District's contractually required contribution rate for the fiscal year ended June 30, 2017, was 29.20% of covered payroll, actuarially determined as an amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the plan from the School District were \$4,544,000 for the year ended June 30, 2017.

# <u>Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2017, the School District reported a liability of \$57,585,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by rolling forward the PSERS' total pension liability as of June 30, 2015 to June 30, 2016. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2016, the School District's proportion was .1162%, which was an increase of .0019% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the School District recognized pension expense of \$6,128,000. At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**Actuarial Assumptions** - The total pension liability as of June 30, 2016, was determined by rolling forward the System's total pension liability as of the June 30, 2015 actuarial valuation to June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in the measurement of the Total Pension Liability beginning June 30, 2016:

- The Investment Rate of Return was adjusted from 7.5% to 7.25%
- The inflation assumption was decreased from 3.0% to 2.75%
- Salary growth changed from an effective average of 5.50%, which was comprised of inflation of 3.00%, real wage growth and for merit or seniority increases of 2.50%, to an effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2000 Combined Healthy Annuitant Table (male and female) with age set back three years for both males and females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. For disabled annuitants, the RP-2000 Combined Disabled Tables (male and female) with age set back seven years for males and three years for females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2016 valuation were based on the experience study that was performed for the five-year period ended June 30, 2015. The recommended assumption changes based on this experience study were adopted by the Board at its June 10, 2016 Board meeting and were effective beginning with the June 30, 2016 actuarial valuation.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE C - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

The long-term expected rate of return on plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target _Allocation_	Long-Term Expected Real Rate of Return
Global public equity	22.5%	5.3%
Fixed income	28.5%	2.1%
Commodities	8.0%	2.5%
Absolute return	10.0%	3.3%
Risk parity	10.0%	3.9%
MLPs/Infrastructure	5.0%	4.8%
Real estate	12.0%	4.0%
Alternative investments	15.0%	6.6%
Cash	3.0%	0.2%
Financing (LIBOR)	-14.0%	0.5%
	100.0%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2016.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### NOTE C - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

				Current	
		1%		Discount	1%
		Decrease		Rate	Increase
		6.25%		7.25%	8.25%
School District's proportionate share of the net pension liability	\$ <u></u>	70,442,000	\$_	57,585,000	\$ 46,781,000

**Pension Plan Fiduciary Net Position** - Detailed information about PSERS's fiduciary net position is available in the PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.pa.us.

#### Other Postemployment Benefits

**Plan Description**: Lehighton Area School District had one single-employer defined benefit plan.

In accordance with the Pennsylvania School Code of 1949, as amended, medical coverage is provided to eligible retirees and spouses with the retiree paying the full active premium rate for coverage until age 65. This benefit has an implicit rate subsidy based upon GASB Statement No. 45, since the retiree pays the premium at the insurance carrier's global rate charged to the School District versus an age-adjusted rate, as defined in the GASB Statement.

Act 110/43 Coverage and Premium Sharing: Retired employees are allowed to continue coverage for themselves and their dependents in the employer's group health plan until the retired employee reaches Medicare age. In order to obtain coverage, retired employees must provide payment equal to the premium determined for the purpose of COBRA.

#### **PSERS** Retirement

- 1. For individuals who were members of PSERS prior to July 1, 2011, an employee is eligible for PSERS retirement if he (or she) is eligible for either: (1) PSERS early retirement while under 62 with five years of PSERS service, or (2) PSERS superannuation retirement upon reaching age 60 with 30 years of PSERS service, age 62 with one year of PSERS service or 35 years of PSERS service regardless of age.
- 2. For individuals who became members of PSERS on or after July 1, 2011, an employee is eligible for PSERS retirement If he (or she) is eligible for either: (1) PSERS early retirement while under 65 with ten years of PSERS service, or (2) PSERS superannuation retirement upon reaching age 65 with three years of PSERS service or upon attainment of a total combination of age plus service equal to or greater than 92 with a minimum of 35 years of PSERS service.
- 3. All individuals are eligible for a special early retirement upon reaching age 55 with 25 years of PSERS service.

Coordination with Medicare: Medicare pays primary to the group plans.

Benefits not included in valuation: Contributions to the 403(b) plan and cash paid to retirees are not accounted for under GASB Statement No. 45 and are excluded herein.

#### NOTE C - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

Funding Policy and Annual OPEB Cost - The School District's annual other postemployment benefit (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost, each year, and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The School District's annual OPEB cost for the current year and the related information is as follows:

The School District's annual OPEB cost, the percentage of annual OPEB cost contribute to the plan and the net OPEB obligation of the five fiscal years ended June 30 for the benefits are as follows:

	Annual	Percentage of		Net
Year Ended	OPEB	OPEB Cost		OPEB

**Funding Status and Funding Process** - The funded status of the benefits as of June 30, 2017, is as follows:

		OPEB Healthcare Benefit					
		Governmental	<u>E</u>	Business-Type			
Actuarial accrued liability (a)	\$ <u></u>	779,242	\$ <u></u>	3,528

Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll	=	5.57%	=	1.86%			

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision, actual results are compared to past expectations, and new estimates are made about the future. The required schedule of funding progress, presented as required supplementary information, provides multi-year trend information that shows whether the actuarial value of plan net position is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**Actuarial Methods and Assumptions** - Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

#### **NOTE D - RISK MANAGEMENT**

The School District is subject to risk of loss from employee acts, property damage, personal injury, automobile accidents, theft, etc. The School District covers those risks through the purchase of commercial insurance. The School District's Workmen's Compensation Policy is a retrospectively rated policy; the final total premium is based on the actual payroll for the policy year and is determined by the insurance company. Any settlements received by the School District or its employees did not exceed insurance coverage in any of the last three years.

#### **NOTE E - FUND BALANCE ALLOCATIONS**

#### Nonspendable Fund Balance

The General Fund and Capital Projects Fun had \$860,570 and \$98,062 respectively, in nonspendable fund balance at June 30, 2017, comprised of inventories on hand and prepaid expenses at year-end.

#### Restricted Fund Balance

The Capital Projects Fund had a restricted fund balance of \$25,877,854 at June 30, 2017. The funds are restricted because of enabling legislation under the Municipal Code in Pennsylvania. Section 1432 of this Code restricts the use of resources for limited purposes.

#### Assigned Fund Balance

The General Fund has \$978,968 assigned for balancing the 2017-2018 budget and \$2,000,000 for increased pension costs.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2017

#### NOTE F - RESTRICTED NET POSITION

#### Net Investment in Capital Assets

The components of this restriction are total capital assets of \$64,351,099 with related debt of \$61,995,422, which includes unamortized bond premiums and discounts. In addition, the governmental activities restricted \$25,877,854 for capital projects. The business-type activities column reflects \$165,386 invested in capital assets net of related debt.

#### **NOTE G - CONTINGENCIES**

#### <u>Grants</u>

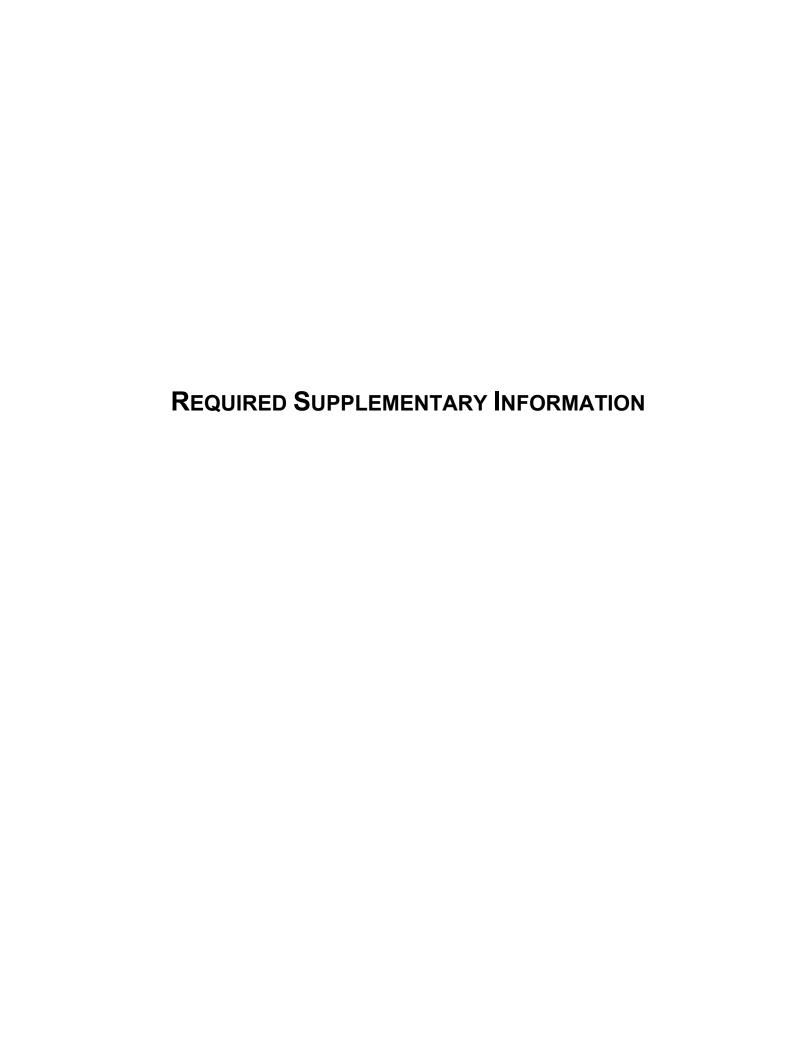

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund, or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2017.

#### Litigation

In accordance with legal counsel, there are no legal matters that could materially affect the financial position of the School District as of June 30, 2017.

#### **NOTE H - SUBSEQUENT EVENTS**

On November 1, 2017, the School District sold properties located at 2466 Mahoning Drive East, Lehighton, PA known as the Mahoning Elementary School and 496 W. Lizard Creek Road, Lehighton, PA known as East Penn Elementary School for \$350,000 each.

NOTE TO THE BUDGETARY COMPARISON SCHEDULE JUNE 30, 2017

#### **NOTE A - BUDGETARY INFORMATION**

An operating budget is adopted prior to the beginning of each year for the General Fund on a basis consistent with generally accepted accounting principles. The General Fund is the only fund for which a budget is legally required.

The Pennsylvania School Code dictates specific procedures relative to adoption of the District's budget and reporting for its financial statements, specifically:

- The District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.
- The District is required to publish notice by advertisement, at least once in two newspapers of general circulation in the municipality in which it is located and within 15 days of final action that the proposed budget has been prepared and is available for public inspection at the administrative office of the District.
- Notice that public hearings will be held on the proposed operating budget must be included in the advertisement; such hearings are required to be scheduled at least ten days prior to when final action on adoption is taken by the Board

Legal budgetary control is maintained at the sub-function/major object level. The Pennsylvania School Code allows the Board to make budgetary transfers between major function and major object code only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the Pennsylvania Department of Education's 2028 Report when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2016-2017 budget transfers.

#### NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2017, expenditures exceeded appropriations in the following object levels. Excess expenditures were funded by available fund balances.

Vocational programs	\$ 24,186

# Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Lehighton Area School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Lehighton Area School District's basic financial statements, and have issued our report thereon dated December 18, 2017.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Lehighton Area School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Lehighton Area School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Lehighton Area School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lehighton Area School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards in Accordance With the Uniform Guidance

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

#### Report on Compliance for Each Major Federal Program

We have audited the Lehighton Area School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the Lehighton Area School District's major federal programs for the year ended June 30, 2017. Lehighton Area School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Lehighton Area School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Lehighton Area School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Lehighton Area School District's compliance.

#### Opinion of Each Major Federal Program

In our opinion, the Lehighton Area School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

#### Report on Internal Control Over Compliance

Management of the Lehighton Area School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Lehighton Area School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Lehighton Area School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Report on Schedule of Expenditures of Federal Awards Required By the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Lehighton Area School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Lehighton Area School District's basic financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance) and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole.

To the Board of School Directors Lehighton Area School District Lehighton, Pennsylvania

#### Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
