

Lehigh Area Middle School

Marking Period 3 began on Monday 1/20/2023. Middle school staff and students are settling into their new quarterly and second semester classes.

This week the homeroom teachers are meeting with their assigned students to review the latest reading and math CDT results. We are focusing on showing students their improvement to build their confidence and have students take ownership of their efforts. We are also using this time to identify any areas that may need improvement so students can continue to show growth.
