

Maroon and White Day is a day of fun field events and with the TEAM concept at the middle school, the maroon team competes against the white team in approximately 12 events. This is the first time that our middle school students are able to enjoy this traditional event (our current 8th graders were in 6th during the pandemic shut down) as it was not allowed during COVID. Mr. Sharrow, Mrs. Quinn and Miss Scherer do a phenomenal job of organizing this event for the students.
