

This week was the beginning of the LAMS Winter Olympics. Homerooms and band students each had their own country they represented as they competed in the Scooter Hockey, Curling, Lego Bobsled, Short Track, Biathlon, Ping Pong Ball Ski Jump, and Skeleton events. Each "country" also had their own display board in the main hallway so they can showcase all the fun facts about their country. Our "Lehighton Olympic" display at the concession stand was created by 7th grade student Aiden Wowk. Our students have been putting a lot of time and effort into these Olympics. To see all the research they have done about their country for their showcase displays, all the time spent in creating their bobsleds and taking advantage of the trial runs prior to competition so they can make adjustments to their bobsled, and most importantly to team work and laughter amongst all, it's been a joyous week. Competitions will continue into the beginning of next week. In the meantime, more photos and videos of our competitions can be found on our [Twitter page @LAMSLehighton.](#)
