

Leighton Area School District

Currently Monday, January 17, is scheduled as a snow-make up day. If inclement weather forces us to close our schools, the school day will be held virtually.

The Flexible Instructional Day (FID) counts as an instructional day for students, and the District may utilize up to five (5) Flexible Instructional Days (FID) in a single school year.

Teachers will post assignments to their Canvas Classroom and or SeeSaw pages for elementary students to access on these days. Students will receive thorough instructions and a description of expectations for what they are to complete during the virtual snow day from their classroom teacher.

High School and Middle School teachers will post assignments by 7:30 a.m., and elementary teachers will post assignments by 9:00 a.m.

Students are expected to submit completed assignments by the end of the school day: High School and Middle School (2:45 p.m.) and Elementary School (3:25 p.m). Student attendance will be based on the submission of assignments.

Teachers will schedule two office hours during which they will be available via Zoom to students for questions and/or instruction — one hour in the morning and one hour in the afternoon within the school day.

The District lunch break will be scheduled from 12:00 p.m. to 12:30 p.m., all office hours will be scheduled around this time.
