

## High School Study Pod Tutoring

---

We will be having study pods for Chemistry, Biology and Geometry for the remainder of the semester. Study pods give students who are struggling academically to get additional student facilitated tutoring during enrichment.

Biology study pod will be occurring during enrichment in the guidance office on Tuesdays and Thursdays. Chemistry study pods will be occurring during enrichment in the guidance office on Mondays and Wednesdays. Geometry study pods will be occurring during enrichment in Mr. Haupt's room on days 2 and days 3. We are at the half way point in marking period 2. Finish strong.
