

On Friday, May 21 the current 5th grade classes were invited to the Middle School to prepare them for the 2021-2022 upcoming school year. They were welcomed to the Middle School by Dr. McGalla and Mr. Ebbert .

The students were then given a presentation by current Middle School Band members, under the direction of Mrs. Beth Kutzner, to promote our Middle School music program and how to join the band. Students were introduced to different instruments and enjoyed several musical selections from the current band students.

After the band presentation, Mr. Ebbert gave explanations about the Middle School schedules and what Creative Arts classes are available. The Middle School club programs was also discussed as well as the School Wide Positive Behavior program and rewards for ensuring a positive environment at the school.

The 5th graders, accompanied by their teachers, were then given a tour of the 6th grade classrooms by Mr. Ebbert and the students were able to meet the current 6th grade teachers. Mr. Ebbert also explained the Middle School Team concept and how the students will be assigned to either the Maroon Team or White Team for their CORE instruction classes such as Math, ELA, Social Studies and Science.

Following the tour of that area of the Middle School, students were then given the opportunity to tour the Creative Arts classrooms and the Middle School's outdoor Environmental Center before returning to the Elementary Center.

The Middle School is looking forward to welcoming these students to the Middle School at the start of the next school year.
