

Lehigh Area School District

Johnson & Johnson Vaccinations

We are pleased to announce that our Round One Johnson & Johnson vaccine clinic closed on Wednesday this week, servicing 28 of Pennsylvania's Intermediate Units. Close to 100,000 educators, support staff, and contractors received the Johnson & Johnson COVID-19 Vaccine. This included 130 staff members from the Lehigh Area School District, that registered for and received the vaccine at our local CLIU #21 Schnecksville location.

Overall, we believe the process was smooth and we are now preparing for Round Two of the vaccines, which will branch out to substitutes, coaches, volunteers, and additional contracted services. We would like to thank Dr. Elaine Eib, Ms. Kim Talipan and everyone at the CLIU for all of their support and efforts in spearheading this vaccine clinic administration.
