

Mrs. Pagotto's eighth grade social studies students investigated the continuity and change of cultural expectations of women and men throughout the United States. Students compared and contrasted digital archives of William A. Alcott's books, "The Young Woman's Guide to Excellence" from 1840 and "The Young Man's Guide" from 1849. Students also viewed the plaque in the middle school foyer from 2017 which shows two women in leadership roles, one being the school board president.
