

# Lehigh Area High School

Registration for dual enrollment classes through Lehigh Carbon Community College is now open for any student interested in taking a fall course. LCCC was able to secure scholarship money to off-set the cost of tuition and books. Monies will be allocated on a first come first serve basis.

LCCC classes offered at Lehigh Area High School are as follows:

- *Research and Composition*
- *College Algebra*
- *Western Civilization*
- *Fundamentals of Biology*

A complete list of courses offered through LCCC can be located on their website [www.lccc.edu](http://www.lccc.edu). At the middle of the page, click the big green button labeled "course search," change the field to fall.

A registration form must be completed and returned to the guidance office in order to register for LCCC courses. Again, this is only for classes offered in the fall/Semester one. [Click here for a registration form.](#)
