

We would like to thank our parents and guardians for your support and patience as we work together through this 2020-2021 School Year. We know this has been an adjustment for everyone. We are very proud of our students, parents and staff for all of their hard work as we work together toward success.

If your child is having difficulties with assignments, activities or technology please contact your child's teacher.

When Students are Virtual:

- Children should be prepared with a fully-charged device.
- Classroom virtual sessions are for students only. (Not for parents, pets or younger siblings)
- Students should log in a few minutes early, with everything they need to be ready to learn when the session begins, and plan to remain for their entire session.
- Students should have a designated quiet place in the home, free from distraction, for their virtual sessions.

When Students are In-Person:

- Please screen your students for possible illness before they leave for school each morning, and do not send your child to school if they have a fever.
- Please be sure your student wears a face covering/face mask to school each day. We recommend bringing an extra one, as a back-up, and also a personal hand sanitizer as well.
- Your child should bring their school-issued device to school, fully-charged, each day.

Thank you for your assistance in making a successful 2020-2021 School Year.
