“Partnering with students, families, and community to provide opportunities for life-long success through academic excellence and individual growth in a safe and supportive environment.”

February 10, 2021

Good afternoon,

We wanted to update the Lehigh Educational Community on our school calendar and the plan for moving forward with Virtual Days in the event of any additional weather or other related school closures.

The District, to-date, has had four snow-related closures. The first three have been assigned virtual make-up days within the school calendar. The first virtual make-up day was completed on Monday, January 18, 2021. The two remaining dates for Virtual Instruction are Friday, February 12, 2021 and Thursday, April 1, 2021 (Half-day). With the use of fourth snow day (Tuesday, February 9, 2021), we will now have the last student day on Monday, June 14, 2021.

With a large part of the winter weather still in front of us, the District will begin utilizing our Virtual Learning Platform for instruction when the District is unable to open, due to weather or other related conditions. The announcement will be made via News and Social Media Outlets as it has in the past. A notification will also be sent by phone.

We will work to give parents and guardians as much advanced notice when the District is moving to the Virtual Educational Platform, to allow for arrangements to be made. The staff and administration will continue to work diligently to have all our students prepared for the Virtual Days and to continue the strong educational process.

Thank you in advance for your understanding and cooperation with the educational adjustments.

Sincerely,

Jonathan J. Cleaver
Superintendent
