

# Lehigh Area School District

We are happy to welcome our students back to in-person learning this week! Our main goal and focus will be to continue to provide quality in-person instruction in a safe environment. It will take the involvement of everyone and we must stay consistent with the recommended health and safety procedures.

We would like to remind you to please remember to:

*Follow health and safety guidelines.*

*Take your child's temperature daily.*

*Keep your child home if they are sick or exhibiting symptoms.*

*Communicate with the school nurse about illness or exposure.*

PDE has recommended that we monitor our District COVID-19 numbers for each building. As part of this monitoring process, the District has provided the Lehigh Educational Community with an updated COVID-19 tracker with positive case numbers per building. [This LASD Positive COVID-19 Data Tracker can be found here on the District website under Community > COVID 19 Updates.](#) The data found on this COVID-19 tracker will be used to make recommendations on the continuation of in-person instruction for the Lehigh Area School District.

We can mitigate the spread of the virus in our schools and community by wearing a face covering, social distancing, practicing good hygiene and adhering to the guidance regarding travel and gatherings with persons not habitually together. These measures remain critical in order for our Lehigh Area School District students to continue to have the option of in-person instruction moving forward. Thank you.
