

Lehighton Area Middle School

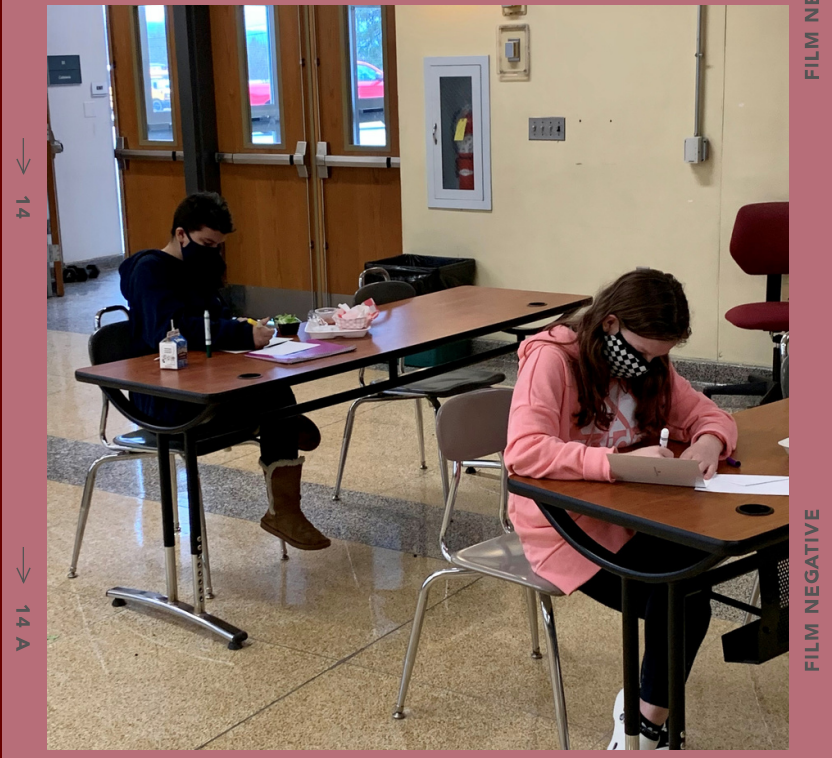

A small group of 7th grade students who were involved in the middle school's Aavidum club last school year, volunteered their time this week to write out holiday cards for residents of a local nursing and rehabilitation center. The word ***Aavidum*** comes from Latin roots meaning **"I've got your back"**. This nationally recognized organization provides a platform for students, staff, schools, and communities to create change and to raise awareness about issues facing today's youth.
