

Lehigh Area School District

Reminder of Vaccinations

Pennsylvania has an immunization requirement which must be met before a child may enter 12th grade. All students are required to have a second dose of meningococcal conjugate vaccine (Menactra, MCV, or Menomune).

Due to the current pandemic, the state issued a 2-month grace period for obtaining immunizations. These requirements must be met by November 6, 2020. If your child does not meet the requirements by this date, he/she will not be permitted to attend, in-person or online, school until proof of this immunization is provided. Please bring written proof from your healthcare provider to:

School Nurse
Lehigh Area High School
1 Indian Lane
Lehigh PA 18235

If you have any questions, please contact your school nurse. If your child does not have health insurance, please contact the Pennsylvania Department of Health for information about obtaining this immunization. The number is 570-325-6106.
