Administration can set pass limits for certain students or restrict certain students from being in the hallway or location together. Students can create a pass using an app on their phones or through their chromebooks.
2. Congratulations to Eli Swartz from Ms. Firmstone's class who is the winner of the PTO t-shirt design contest! His idea of Rocketman on the moon will be used as the graphic on the "class of" t-shirts the PTO will be selling in March and the graphic of the water bottle they pass out at carnival. In addition his class will get a special Valentines Day party.

COMMITTEE REPORTS:

1. None

OLD BUSINESS:

1. Weapon Detectors- Follow up discussion regarding the continuation of rental vs. purchasing the units

Mrs. Sawicki reported out on the questions asked at the last meeting:

- Is there a warranty on the units? Yes, there is a two (2) year warranty on the parts and labor. They will come and fix the unit if anything breaks. CEIA stated that if anything goes wrong it will most likely be a chip. On average, the units are expected to run for about 80,000 hours or nine (9) years without a manufacturing failure.
- Do you have to buy a maintenance plan? No, there is not a service or maintenance plan that needs to be purchased. All support is free for the life of the product.
- Do you have to pay for upgrades that may be pushed out to ensure the units stay up to date? No, all upgrades are free and pushed out electronically to the units.
- If a newer or better unit is released would there be an opportunity to receive a trade in value for the units we currently have? Yes. CEIA is not sure what the exact dollar amount would be for a trade in credit but they did state that the NFL just traded in a \$6,000 unit and received \$1,000 trade-in value per unit.

Based on the information provided the Board agreed to move forward with purchasing the units rather than continuing to rent them. The total pay off cost to own both units is \$23,480. The safety grant money will be used to pay off the units.
