New Middle School.

Renovate Elementary Schools.

Option

Well, this was my first time attending. I have to say that I am shocked about how little parent involvement there is, or should I say, ~~not~~ is. There are more senior citizens than anything. Very upsetting as I am sure you would agree.

Anyway, as a parent of 4 children, I guess I would have to say build new ~~and~~ (ns) and quickly do something to the Elementary Schools. East Penn can use so much more space as well as all of the other schools too.

Hopefully, I will be able to rally more parents for March 22nd.

Thanks,
Danelle Trixell

I have attended all mtg's regarding the middle school proposals. I cannot believe what our children are subjected to in the building regarding asbestos exposure. It's a big concern for the health of the kids. I do feel that a new M.S. is absolutely necessary although at the same time I believe our elementary schools are over crowded & need to be looked at for the education of our children. S.D. is overcrowded by 50 kids & that is upsetting to me as a parent & community member. I believe there is not going to be an answer that pleases all but anything to improve our buildings is a huge benefit to our kids.

OPT 5

Matt Fisher

Option 3

or

Option 4

No Option 2

* If you do really think that the buildings are
very important in attracting upper/middle class families,
then please remember that includes keeping teachers
~~a lot~~ best interests in mind as well, thank you!

Apr 3
New Middle School
Save Our
Neighborhood
Elementary
Schools

Option 3 or 4

Concerns are: economy

• growth of Lehighston that hasn't improved with families that contribute to tax base.

overall, let's face it — teachers teach students, not buildings.

Before the final decision is made

- giving our young people the first priority in our thoughts
 - do our homework. no shortcuts or cutting corners
 - shot for the greatest efficiency possible
- And

Most of all

- do the job "RIGHT"
 - give our children the best we can... not a second-rate effort or finished project.

Build A Quality School District
with all the Quality ingredients!

I think what's best for our students is to build a new middle school that is energy efficient and conducive to learning. I also believe that the 4 neighborhood schools need to be kept and improved upon. I do not think there is adequate space near the high school to build, so I do like part of option 5.

Our students need & deserve the best we can possibly give them, & putting band-aids on our schools will not do it!

build new MS

consolidate elementary
bldgs.

Preference for -

Option 3 w/ elements of
Option 5 (building on current MS land, addressing
athletic field concerns, land available to benefit larger
community), Not Option 2.

Disclaimer (Just so you know) -

I do not live in or pay taxes to LASD.

Option #4

- definitely a new middle School w/ energy savings.
- Keep local elementary schools.
This is a great benefit to the Students.

Note: I am unsure where the building can or should go at this time.

Build a new school

We need to have outside athletic fields for students at the middle school to use along with a track. We can not be expected to share fields and the track with high school students.

We also have to take into consideration that we would need an auditorium in a new middle school.

Fitness of our students needs to be thought about →

Option #3

We need estimates though on what cost would be to renovate elementary schools.

Also total rough break down of all cost for all phases for each.

Bring up total millage for entire project to show community.

DO MAINTENANCE PROJECTS

1. GO AFTER FEDERAL ENERGY MONEY

2. GET A CONCEPTUAL BIO FOR ASBESTOS ABATEMENT THAT YOU NEED, IDENTIFY THE REAL AREAS THAT NEED TO BE ABATED J.C.

3. MIDDLE SCHOOL REPAIR

4. CRITICAL PATH WORK DUE DURING SUMMER RECESS

5. CRITICAL PATH WORK DURING SCHOOL YEAR DO AT NIGHT BETWEEN 5⁰⁰ PM AND 4⁰⁰ AM
