RE: TEM Air Sample Results

Lehigh Area School District  
Mr. Jonathan J. Cleaver  
1000 Union Street  
Lehigh, PA 18235

Mr. Cleaver:

Attached you will find the laboratory report relative to the clearance TEM asbestos air samples which were collected from numerous areas of the Middle School C Wing 2<sup>nd</sup> Floor as well as Main Lobby Area following the asbestos abatement project which was conducted during the winter break.

The laboratory analysis revealed that all 14 samples were found to be none detected for airborne asbestos structures. At this time Sargent Enterprises will remove the containment and all equipment, your staff can now begin to return the area to its original condition.

Please feel free to contact me with any questions or concerns regarding this information.

Sincerely:

  
Jeff J. Miller
