Q8 From your perspective, what challenges will Lakota face over the next five years that could impact educational programs for students?

Answered: 2,039 Skipped: 0

#	RESPONSES	DATE
1	Needs to steer the district to set all kids up for success and not let a vocal minority undermine students chances	4/28/2023 11:50 AM
2	Political agendas (from far right AND far left). Keep politics out of schools.	4/28/2023 11:43 AM
3	Diversity Mental health	4/28/2023 11:41 AM
4	A great education starts with teachers. How can they best be supported? They need to feel supported by parents, administrators, & legislators. My concern is a teacher shortage, which leads to hiring those lacking in credentials & passion. Another concern are those teachers who are burned out. Career guidance to prevent & address burnout is a must. As far as pay, are there opportunities for teachers & students during the summer? I.e. increased summer school offerings? Now, maybe most want the summer off - at least off from teaching. However, when I was in HS, I knew teachers who had to find a summer job each year - some liked the break from teaching; some were stressed about it. The other issue that keeps popping up is that there seems to be disparity between East & West. Examples: 1. Theater. West Theater has a FB page; East does not. Is that teacher preference? Is that why Lakota Schools page promoted West theater & not East theater this spring? West theater took kids around the schools to advertise; East did not. West seemed to have a much bigger budget for props than East. Is that due to parent involvement or a school budget? If it is school budget, I have heard from a staff member that administration has the power & authority to move funds between schools. I was also told one example where money that East had was given to West. So, does West share money with East? 2. Jazz Band: Jazz & Cakes at West seems to be on another level than East's spring Jazz fest. Once again, is that due to parent involvement or school budget? I have been given the impression from a staff member that long standing administrators have the stance that when West wants to do something, East better be on board; but when East wants to do something, they have to wait to see if West is on board. If that is true, those administrators need fired. When we moved to Ohio, I wanted to move to West Chester; my husband wanted to move to Mason. We settled on Liberty Township because Lakota seemed to be a great school system. I am not sure we dug into looking for stats to compare West to East; not even sure they exist. I will try to research that this summer. I would like to compare: graduation rates, diversity, elective offerings, after-school club offerings, teacher bios. If this does not exist, please create a place on the website for it.	4/28/2023 11:08 AM
5	Discipline at the school building level is atrocious. Belligerent students do not face consequences and distract from the learning environment. The concerted push towards EVERYTHING "diversity" works against becoming a community when students keep being told how different they are.	4/28/2023 11:05 AM
6	Pushback on Diversity, Equity, and Inclusion, and student mental health.	4/28/2023 10:29 AM
7	Adversarial and or distracting board members, fiscal responsibility, trying to pass a levy for facilities updates, curriculum and student services impacts based on board opinions, whole child impacts based on board opinions. Negative, naive, misinformed or uninformed board members who make poor or misinformed choices. Too many outside negative influences with ill intent. Teacher shortage. Sub, staff, bus driver shortage. Covid long term impacts on learning and emotional loss. ESL students, lack of support for teachers of ESL students, lack of support for ESL students, lack of support in classrooms with ESL students (other students don't know how to react to ESL students), extracurriculars, extra anything to support the whole student, lack of community support	4/28/2023 9:46 AM
8	None.	4/28/2023 9:35 AM
9	We will continue to face issues if board members are continued to berate staff and kids due to a difference of opinions. Lakota needs to remember how to be respectful with each other,	4/28/2023 9:23 AM

forget hidden agendas, and return to making this about the kids. Kids and their needs have been put on a back burner of late. We need to focus to be back to enriching our kids and allow them to learn.

10	Currently I see a big sense of embarrassment and uncertainty. With the current climate and with someone particular board members that are trying to push and say whatever they feel. It is embarrassing to our community along with the leaving of the previous superintendent under the way they left has put a certain stain on our community. I know a lot of us parents are feeling a lot of uncertainty with how the years to come will look. We are scared for our children and their learning.	4/28/2023 9:12 AM
11	I'm critically worried that a loud minority is extremely uninformed about education in general and Lakota specifically. A strong superintendent and exceptional community communication is critical! I'm worried!	4/28/2023 8:57 AM
12	Finding a leader that willing to stand up for ALL kids and tolerate the hostile environment. Not sure you can pay anyone enough to sit through the board meetings. This will trickle down to our kids. We will loose good people.	4/28/2023 8:55 AM
13	More federal money with strings attached, illegal immigrants, taxpayers rebelling against property tax hikes, need a conservative board, gender issue- need to take a stand against shared bathrooms. More AI infiltrating the schools, student use. Dangerous 5 and 6G for students, faculty.	4/28/2023 8:48 AM
14	1. Unruly board who does not support Lakota teachers, programs or it's diverse student population. 2. Rising ESL population 3. Antl-public ed legislation and loss of funding from the state, due to new voucher laws.	4/28/2023 8:45 AM
15	Changes in school funding. Lack of support for increased school levies. Larger community divide. Real world technology changes.	4/28/2023 8:44 AM
16	Finances especially with Master Facility Plan, ability to stay strong and firm in your abilities when faced with angry community members and fellow Board members with an agenda,	4/28/2023 8:31 AM
17	People that are pushing private education over public education. As well as an unqualified board member	4/28/2023 7:52 AM
18	Hiring and retaining employees will continue to be a challenge.	4/28/2023 7:26 AM
19	Mental health! We need more equity with buildings that have high numbers and only one school counsleor, AP etc.	4/28/2023 7:25 AM
20	Not subscribe to WOKE idiocy, leftist ideology. Stop current emphasis on DEI.	4/28/2023 6:47 AM
21	A school system (superintendent, board etc) should be free from the political agendas. That has not been the case in Lakota the past 16 months. We need to return to focusing on ALL of our students and their academic as well as social/emotional needs in order to be effective. Mental health issues will most likely continue to plague our students and their families. These issues can and do impact student achievement, but they can be mitigated by professional and caring staff. I'm deeply concerned that high quality administrators, educators and support staff will not want to work in Lakota because of the constant turmoil being propagated by Darbi Boddy, and current staff members are leaving because of the toxic culture created by her. It's an embarrassment within the greater Cincinnati and across the state. A school system is only as good as its staff, and if we continue this path it will take years to repair the damage to our students. We will NOT be able to have effective, innovative programs without the high quality, non-political staff to implement them. I have been a member of this community for over 30 years. The education that my children obtained at Lakota has been a huge factor in them becoming productive, life long learning adults. I implore you to return to the mission of focusing on ALL students as our public education system was designed to do.	4/28/2023 6:38 AM
22	Too much emphasis on technology will not provide students the background support on strong study skills or help the Lakota demographic as a whole. If students do not have options for textbooks and hard copies to bring home, the gap will get wider in students that excel and students that fall behind. Also, too much focus on SEL and not on academic rigor will cause students to fall behind when that becomes the priority as opposed to educational learning.	4/28/2023 6:00 AM
23	Over crowded. Security and safety. Lack of teachers	4/28/2023 5:55 AM
24	Board Members Safety in our schools	4/28/2023 1:19 AM

Superintendent Search: April 2023 Community Survey

25	Too many students in the classroom Not having text books Having teachers that don't want to teach	4/28/2023 12:23 AM
26	Board members not taking the diversity of the student population into account. They should support all students and help build a safe learning environment for all students.	4/27/2023 11:49 PM
27	Increased population, meeting needs of ALL students, inclusion, diversity, providing personal education need assistance	4/27/2023 11:11 PM
28	Lakota is bloated and will suffer when levies come up unless you get back to basics. Forget this "innovative" junk, and file is on time tested, scientifically proven methods. Simplicity simplicity simplicity. And don't worry about diversity because our area is diverse. You don't have to force it. Just reinforce tolerance and respect. That's all. Anything else is overkill.	4/27/2023 10:28 PM
29	Biggest concern is vocal minority efforts to curb inclusion efforts and programs for all students including LGBTQ+, efforts to remove books from the library, and efforts to sensor sex education. Superintendent must be able to transparently keep public education on the path to improvement that it's been on over the past decade.	4/27/2023 10:20 PM
30	Too much focus on tests and test scores that have no real world value	4/27/2023 9:51 PM
31	Tension in the school board	4/27/2023 9:41 PM
32	After the new schools are built, where will the money come to operate? Levy after levy, or do the new school's sit dormant like Springboro did?	4/27/2023 9:29 PM
33	Dealing with educators that are increasingly disenchanted with their careers and apathetic toward students.	4/27/2023 9:27 PM
34	It seems as if one of the largest challenges facing the district right now is that those in the community, including some board members who cause disruptions and push conspiracy theories. They seem to have a goal of undermining public education.	4/27/2023 9:18 PM
35	I feel that mental health will become increasingly crucial as far too many students suffer from depression and anxiety due to overwhelming stress throughout almost all grade levels.	4/27/2023 9:15 PM
36	Mental Health Politics	4/27/2023 9:06 PM
37	Woke ideologies are a real challenge. These are meant to divide. There is too much emphasis on innovation and not enough focus on proven educational methodology. There is too much emphasis in our schools and in society on diversity. The focus needs to pivot to a more amicable message that recognizes sameness and membership of the school community.	4/27/2023 9:04 PM
38	Darbi Boddy will be a challenge in trying to exclude people and subjects in schools that are important in education. Students in Lakota are very diverse and she will have a negative impact on education for Lakota students.	4/27/2023 8:53 PM
39	The team collaboration within the School Board members, the economic environment and overall state directives and standards including, the legislative initiatives or lack of future lawmaking.	4/27/2023 8:31 PM
40	The economy and effects it may have on the district's budget. Some of the cureent school board's members continuing to cause issues for a new superintendent.	4/27/2023 7:30 PM
41	People like Darby Boddy who want to ruin public education Retaining high quality educators with all the "crap" about the district in the news and the which hunt to get rid of good teachers Overstressed diversity of training and focus	4/27/2023 7:30 PM
42	The presence of Darbi Boddy is the biggest hurdle anyone in this position will face. It is clear that she is intentionally trying to tear apart this district. As someone with no kids in the schools, she has no merit telling other parents what their children should be doing or telling teachers how to teach them. A distant second issue would be any funding gaps that may persist - passing a levy may be difficult in this climate.	4/27/2023 7:15 PM
43	Darbi Boddy	4/27/2023 7:05 PM
44	Safety	4/27/2023 6:52 PM

district! Far right ideology will destroy Lakota! Diversity and inclusion of all students needs regardless of sex, intellect, race, and sexual orientation must be a priority! I have always been proud to be a resident of Lakota Local Schools. My two sons had an exceptional educational experience at all levels of Lakota Schools. Every child within this district is entitled to the same now and in the future. The Board needs to continue to stand strong against forces attempting to destroy the integrity of the Lakota educational experience.

46	Attracting skilled educators to the field of education and to the district specifically. Competing with area districts and alternate career fields to retain and attract the best, the brightest, the most creative, and most proven educational staff. Retirements and attrition are outpacing the development of young staff.	4/27/2023 6:18 PM
47	I am concerned about political views and agenda being confused with the priority of student learning,safety and relationship building	4/27/2023 5:57 PM
48	Political climate, inflation	4/27/2023 3:55 PM
49	Attrition	4/27/2023 2:35 PM
50	Not having a diverse and inclusive school board. Focusing on all the students!	4/27/2023 2:29 PM
51	The amount of living costs has sky rocketed to an amount most are not able to afford. The district will need more funds to withstand what is already in place for the students, and also will still have to ask for more funds. Some serious thought needs to be taken into consideration to be able to accommodate the growth and educational needs of all students. How are you going to make the budget balance and not tax the community more? Maybe you need to partner with Coca Cola or another big-name company to sponsor our school district?	4/27/2023 1:58 PM
52	Danger of the far-right disinformation/misinformation leading to harm to students and the community.	4/27/2023 1:54 PM
53	Financial support for high quality teachers	4/27/2023 1:48 PM
54	Falling ranking in Ohio School Report Cards. Lakota needs to focus on the basics - "Reading, writing and arithmetic." Go back to learning basic math skills. I have seen your math books and am most unimpressed. Focus should be on academics not social issues which are proving very divisive for the entire community. Funding. Facility upgrades need to be within the means of the district.	4/27/2023 1:41 PM

60	I don't know	4/27/2023 11:40 AM
61	Inexperienced school board and community members who lack knowledge about education and the curriculum, and undermine Lakota education by bringing politics into school issues. I'm concerned that restricting students' and teachers' access to high-quality, honest and accurate educational materials will degrade the education my student gets and keep highly qualified teachers and families from moving to our district. I also DO NOT want teachers to carry weapons.	4/27/2023 10:54 AM
62	Students need to come back as stronger people after the pandemic.	4/27/2023 10:39 AM

stain on the district and is only looking out for herself. Right now, she is the only major challenge I see.

68	Forgetting that we are here for the students. They cannot be forgotten. To understand that students learn at all different levels.	4/27/2023 9:39 AM
69	The BOARD needs to practice some professional governance and let the paid professional staff do their jobs. Career professionals provide better services for children and stakeholders when they are not mired in the bureaucracy and micromanagement of political boards. Successful professionals should not be deterred from doing their best work because the BOARD is unable stay in their lane and provide clear policy and strategic guidance at a HIGH level while managing their own governance issues including unruly and disruptive members.	4/27/2023 9:30 AM
70	Dilution of focus on academic learning.	4/27/2023 8:58 AM
71	Further social distractions that diminish quality of education of children.	4/27/2023 8:34 AM
72	Lakota needs a leader who will listen to parents and make constructive changes based on that. With this continued rise of schools dictating what will be taught to students without regard for parents will negatively effect the students.	4/27/2023 8:31 AM
73	Board members trying to change things for the worse	4/27/2023 7:40 AM
74	The expense and potential disruptions caused by the facilities changes	4/27/2023 7:35 AM
75	Our country needs skilled tradesmen and women, please consider supporting and encouraging those high school students that don't wish to attend college- to pursue a trade.	4/27/2023 7:25 AM
76	A divided school board, inadequate space in buildings, inadequate furniture in buildings, district finances.	4/27/2023 7:24 AM
77	Dis function in the school board caused by an unstable, disrespectful, and unprofessional member who does not have the best interest of the district and it's students in mind.	4/27/2023 7:22 AM
78	The fact that we have a board member who does not support public education or all students.	4/27/2023 7:22 AM
79	The special education program needs to be looked at, so many students not enough help	4/27/2023 7:12 AM
80	I think districts around Lakota are demonstrating more successful ways of having consistent unified arts in the elementary classrooms. Which in turn, is allowing for better unified arts experiences for older grades. Lakota is falling behind neighboring districts in this regard, and it could result in loss of enrollment. And it absolutely is not a way to focus on the whole child.	4/27/2023 6:57 AM
81	Wokeness	4/27/2023 6:56 AM
82	Continued political interference that is trying to devalue public education.	4/27/2023 6:49 AM

94	As a person who has worked in public education for the last 16 years and has served as an administrator in multiple districts, I understand the value of a high functioning board of education that works together to achieve the goals of the district by supporting the highly qualified staff they've hired into the district's administrative leadership positions. If the nonsense that has taken place over the last few years on our school board doesn't stop - particularly with one member, the quality of our educational programs will undoubtedly be negatively impacted because high quality, experienced educators won't be applying for positions in our district. The quality of our educational programming starts and stops with the quality of the people leading them and quality leaders don't want to be a part of a circus because it detracts from the mission of the organization. Unfortunately, I would imagine you've already experienced this throughout this search process.	4/26/2023 4:41 PM

108	Darbi Boddy's lack of awareness about what is happening in the schools and community. Her lack of education about key issues is detrimental to student safety & learning. Not only is it harmful to students, it will slow growth in our community which will have a significant impact on the schools. Lakota is filled with great teachers and staff and it is clear she has no idea what is going on in the schools.	4/26/2023 12:10 PM
109	We've had two children attend Lakota schools from K-12, and one who is currently enrolled as a sophomore. Our oldest was gifted, our second child was average, and our youngest (attending now) is completely unmotivated. In my opinion, Lakota deals in extremes: catering to those students who are gifted and those who are failing classes, but tends to ignore the ones who are average – which is the majority of students. wing zealots get their way students will only be offered a watered down tightly monitored curriculum. I believe this to be a huge threat to all school districts across the country. People are running for boards and are pushing their agendas and are not focused on the students and their learning needs. Mrs. Boddy has done detrimental damage to our district. The whole reason we need a new Superintendent is because of her unrelenting witch hunt. If we don't nip her intrusions in the bud in five years we will have a board full of Darby Boddy's which means half truths and misinformation will dictate how we educate our students.

237	We need to stop focusing on false information, lies and scare tactics. If we don't, the district is going to go downhill because the staff won't feel supported and resources will be taken away from what really needs to be done.	4/23/2023 10:11 PM
238	Lack of faith in leadership at all levels is a major risk for this district. We need to ensure belief in leadership and our board is solid and the two work together to ensure work can be accomplished and the students' unique issues are at the center of the districts decisions.	4/23/2023 9:30 PM
239	We need a superintendent who has the strength and courage to stand up to Darbi Boddy and others like her. Diversity is a strength. Supporting our students - ALL students - is a priority. We need to support the teaching of history and support diverse texts.	4/23/2023 9:19 PM

I'm also concerned how the "backpack bill" could decrease the district's funding. Finally, chaos created by rogue school board member(s) pushing their own agenda, being dishonest, and doing and saying things to get attention rather than being a good collaborator with the rest of the board impacts the district as a whole, including students.	4/23/2023 5:08 PM

260	Lakota will continue to face challenges if the school board can and educational leadership does not put silly political attacks aside. Focusing on our children's safety, well-being, and academic improvement is the most important issue in any district. When we allow political extremism and blatant disrespect of the school district's rules and policies, it only takes away from the students.	4/23/2023 12:43 PM
261	I'm all for ethnic diversity and being inclusive of LBGQT, ...BUT....it has reached a level of craziness when they want to teach gender neutrality to kids too young. It's become "in" to bi-sexual and gender neutral and if you are heterosexual, it's boring. That's a problem. Also, the school shooting issue is crazy. People should not be able to get close to a school with a gun. And my kids are ahead of their level, but they are held back by having to level set to the lowest denominator. 285	Darbbie Boddy, she's a challenge that exists as of now and feels like a threat upon the students livelyhood. The other challenge that has existed forever is the fact that those who don't have children in the lakota schools can vote in the elections causing us to have officials elected that people who have children going to the schools don't approve. It's a problem in my opinion that has been amplified thanks to boddy.	4/22/2023 9:37 AM

311	Lakota's performance has fallen tremendously in the past decade. When we moved here Lakota was equal to Mason, now it's not close. Lakota has lost track of providing the basics that a public school should provide of reading, writing and math. It's as simple as that. Lakota needs to seriously consider all the gender, woke policies and programs that have nothing to do with basic subjects and are more social engineering. Leave that choice to parents. You are failing your primary objective as a service provided for the tax payers in the district of educating our children to properly read, write and be able to do math. Instead there is more focus on feelings and safe spaces and bending over backwards for the noisy few in spite of the majority. Based on this hire we are considering moving out of the district or pulling our kids to private schools to avoid the gender, race and woke ideologies that are being shoved down their throats while they can't do basic math.	4/21/2023 6:45 PM
312	The damage that Darbi Boddy has caused on so many levels already by by taking the focus away from the children and more on her agenda. Mr. Miller was exactly what Lakota needed, and it's a shame we lost him over her ignorant agendas.	4/21/2023 6:29 PM

316	The challenge is the board of education, specifically Darbi Boddy. Central office is being forced to spend an obscene amount of time addressing the accusations/complaints of the few- Darbi Boddy and her supporters. She has successfully steared the focus away from the needs of all students, which include mental wellness and innovative instruction practices that engage all learners. All energies should be placed on student needs, not on persons who are soley trying to advance their personal/political agenda. All staff persons in a public school district needs to focus on serving the diverse needs of each student. The district's focus needs to return to the development of critical thinking skills, collaboration and problem solving. 341	I think Lakota will face challenges when it comes to differing opinions in the community (students, staff, and families) in regards to dealing with diversity (specifically LGBT+) within the classroom and athletics. Should books/texts be included or not? Should trans athletes be allowed to participate in sports? Etc. I think these have already come up some, and it is just going to continue. This, and other social issues, often take the headline space because people are passionate about them. However, the loudest voices are often the only ones that get heard and I believe everyone should have a voice and have their opinion valued. Just because people disagree doesn't mean that they are of less worth or less important. I also think Lakota has the possibility to face challenges when it comes to retaining teachers. While teachers need to be accountable for their teaching and held to high standards, they also need the freedom to meet their students' needs. They need to use the science of reading in classrooms along with wonderful literature to support students' background knowledge and skills. This could be an issue given the recent promotion of the science of reading and people's misunderstanding of what that truly is.	4/21/2023 1:58 PM

Our rating on Zillow has dropped significantly and Mason has increased, this will drive progressive and diligent families away from Lakota, and it trickle down from there. I know families that have withdrawn to private institutions, have relocated to other districts due to the problems we are perpetuating here. We are creating a standard that Lakota creates drama, we are not celebrating our wins, we are not broadcasting our strengths. We need get on top of our reputation with a strong PR campaign that celebrates wins. I want to hear more about how my children are thriving, how they will compete academically, college prep, stats on where our children apply to etc. I'm not saying diversity and inclusion isn't important but it's a public school, if they live in the area they will attend and ALL parents want good teachers for their kids, they want materials, programs and the assurance their kids will learn, be safe and thrive. We need to retain the great teachers we have and continue aggressive growth in educational programming. What are our incentives for teachers? Are salaries competitive? Are their classrooms up to date? Let's get the focus back on educational content.	4/21/2023 1:26 PM

I worry there is a growing rhetoric that wants to remove those priorities from our schools.	4/21/2023 12:19 PM
359	The biggest challenge currently to Lakota is a school board focused on political stunts and grandstanding rather than working for the parents of Lakota students. Culture wars are fun for grabbing headlines, I suppose, but ultimately destructive for getting things done. This is distracting from real looming issues, especially i) ageing buildings and infrastructure that require thoughtful preparation to repair and replace and how to fund it all, ii) challenge of attracting and retaining teachers and support staff, iii) preparing our students for a workforce that is rapidly evolving in terms of skills needed and post-high school education routes available. To be completely transparent, I currently recommend to any colleagues who ask about public school systems to look away from Lakota and to neighbors like Mason. I don't see a real appetite over the next few years for the extended Lakota community to focus on the hard work of building/maintaining the local school system so I don't recommend people locate here for schooling if they have a choice. I hope I'm wrong, but the trajectory doesn't look good.	4/21/2023 12:18 PM

There is too much emphasis on technology; students (Especially 3-6) should not be using technology as much as they do. We need to take a step backwards. Students need to be using paper and pencil again. child's brain. Behaviors are out of control. There are not enough firm consequences for elementary students. Stop with, "They are young and we don't want to hurt their record." Students are moving on to middle and high school with negative behaviors due to the fact that elementary schools are not stopping it. The students with bad behavior are all too often given rewards/incentives, while students with good behavior are ignored. It is becoming a society where young children and teens are committing horrible crimes. Schools should be doing their part to identify and get the help these kids need. If it means that a parent needs to take off work to stay home with an unruly child, then so be it. By allowing bad behavior at school, we are allowing parents to not deal with the issue at hand and get the help they need for their own child. Student achievement is not what it once was. Yes, we had a pandemic, but we are past that and can't keep using it as an excuse. Students (not all) do not achieve as they once did. Student achievement needs to be high up on the priority list. This cannot happen unless we take into play; overuse of technology, lack of consequences for student behavior, and making parents be accountable for how their own child is behaving.

We need a school board that values teaching real history and real citizenship values to a diverse student body. Not all current school board members embrace real history and a diverse and inclusive ethos within the schools. The next superintendent will face a tough crowd and needs to be clear that public education has been the hallmark of this democratic society and it is under attack in this community and state. I feel there is no one who we can talk to who has an open mind to listen to what we say. Our ideas are immediately met with a quick "NO", or just ignored. We want to help improve the schools. We want to be heard. We want what is best for our students. A second thing I see is with all the new AI coming out, how do we make sure our students are learning and not just using a bot to come up with answers? How do we get students to think, instead of taking the easy way out. I am worried that students will lose work ethic and teachers will be asked to water down the content.	4/20/2023 6:15 PM

Her inability to do the job in a competent and professional manner, on top of her outright lies, makes her a huge liability to the district and its reputation, which will have ripple effects in terms of people moving out of the district and choosing other school options. If she reads these comments, I would like her to know that the conservative-leaning population of the district does not stand with her the way she claims. I don't doubt that she has loyal supporters, but they are the small but loud contingent (same as her most vocal opponents). Those of us in the silent majority oppose her views, her approach, and her lack of decorum. We simply don't go yelling from the rooftops about it. This used to be a community where there was never any doubt about what came first: the well-being and education of our children. In recent years, I've watched this get chipped away more and more until i no longer recognize this school system. Politics should never influence or infiltrate education. Science is fact, math is absolute, and the safety and happiness of our kids should be all the Lakota School District focuses on. People in the community, many of whom are not directly connected to the school, have been watching sensationalized news stories and applying it to Lakota. However, what they claim occurs in Lakota either doesn't occur at all, or they don't have the full picture. see everywhere, all the time in my school. Many students face challenges with grades and Lakota should be doing more for these students. Bad grades will make it harder to get into a good college, and going to a bad college means that these children will likely not get a good job. The grades students receive often depend on the amount of effort they put in, the amount of food and sleep they get, and the amount of motivation and knowledge they have about the subject they are learning. These students are our future, and if something is not done to help us, our future lives, jobs, families and communities could be ruined. All because our grades were not focused on. Seeing others struggling makes me sad that they may lose a wonderful opportunity at a great future. These students are very intelligent, and to have their lives potentially destroyed by the grades they got in high school is very saddening.

Restructuring grade bands in alignment with the new building plan will be hugely important too- there will be lots of movement for families and staff, and the need for communication, collaboration, and community building will be higher than ever. We are also in an unfortunate time period of mistrust in public education politically, and especially after the controversy over Supt. Miller, we will need someone who can connect with and build trust with the community while still defending all students' rights to safety and education. I am particularly worried we may see significant challenges of curriculum and books, wasting a lot of staff time and energy. I also know of MANY teachers planning to retire in the next few years, and teacher morale is low. We need to focus some energy on avoiding teacher burnout so we can retain good teachers and building leadership among classroom teachers even as many veterans leave for retirement. From what I understand, we will soon be busting at the seams in our buildings, so I imagine a challenge will be the increased enrollment and size of the student body. These large numbers will mean an increase in staffing needs both for general and special education. Unfortunately, finding quality candidates in education is extremely challenging right now. There are so many job openings in districts and many find themselves 'settling' for weak candidates. I would hate to see our district having to hire mediocre staff in order to handle our numbers, and/or see us have to cut programming options due to staffing issues. 649	Students and families are leaving Lakota because of the size. Class sizes are too large, too much staff turnover. It is hard for a student to create relationships with teachers when staff leave after a year. Also the amount of "outside" information that is not school related. Let parents be parents and do their job. It is not the schools responsibility to teach students about LGBTQ, transgender, etc. The school district teaches to the test, they have lost creativity in the classroom.	4/20/2023 11:52 AM
650	Radical fascists in the school board.	4/20/2023 11:52 AM
651	Some school board members need to be shut down. This will take a strong superintendent to override challenges from members that don't do what's best for Lakota.	4/20/2023 11:48 AM
652	Improving the pay of teachers and support staff will be critical in continuing to keep the reputation of Lakota high. We are the "front line" when it comes to educating our students and helping with their every day challenges. The pay and raises are minimal compared to other industries.	4/20/2023 11:48 AM
653	A divided school board where not all members are fully on board with what is best for ALL students, making it more difficult to make progress. Rising costs of things on multiple levels. Cooperation, understanding and trusting of teachers by the parents.	4/20/2023 11:48 AM

657	The amount of staff at the Central Office is overwhelming. There are 'teachers on special assignment' that may do a bunch of research or develop programs, but then none of that seems to make it to the teachers/students/classrooms. The district also claims to be 'fiscally responsible' but yet doesn't provide teachers and students all the things they need to be most successful. To me, being fiscally responsible means that you are using the funds wisely to best directly support teachers and students; not creating stockpiles of savings and employing more staff away from students at a central office (and on continually increasing legal fees). In my opinion, the district needs to refocus on students and reallocate higher expenditure per pupil to give them supports and opportunities right now.	4/20/2023 11:42 AM

I believe that the district needs more professional development in new areas of instruction rather than mental health and addressing diversity. I	4/20/2023 10:38 AM

CRT is not taught to my kids. And why on earth would we be up in arms about empathy and inclusion. As a parent, I want my school board focused on bringing educational programs that will prepare them for current jobs. Stop arguing about things that aren't even an issue in our schools. One particular board member keeps unnecessarily stirring trouble.

738	Firstly, divisive identity politics and unprofessional behavior at the school board is creating a toxic atmosphere and eroding confidence in our district at all levels. It distracts from our mission of educating the children in our community. Secondly, large class sizes and escalating behavior issues are disruptive to student learning and harmful to teacher morale. We need to find solutions for these issues. Thirdly, mental health problems for young people must be addressed in some way in the schools as it's become a major issue nationwide.	4/20/2023 9:35 AM

742	Control of decisions by minority actors (parents with students not in the district, ie Darby).	4/20/2023 9:30 AM
743	In the next five years you will have students graduating that are not ready for the real world. Students that already had low academic achievement prior to Covid are even lower. This stems from lack of parental support, not lack of teachers, teaching. Chromebooks are too distracting for students with lack of self control. I agree they are needed but in school they should be restricted to what is needed for each class. Teachers should have the ability to lock down pages that can be worked on. The "PTT" class is a waste of time. The classes are too big to control. The responsible students do their work and the others do not.	4/20/2023 9:27 AM

747	I think Lakota's biggest challenge is the radicalization of the far-right within this community and Board members who do not have the best interest of the students and community in mind (specifically Darbi Boddy). They are attacking public education and trying to discredit the important work Lakota staff do every day. I fully support a continued focus on inclusion, social-emotional learning, research-based educational practice, and curriculum rooted in historical accuracies.	4/20/2023 9:25 AM
748	Increasing state pressure to reduce curriculum/ban books/ not support staff and lack of available teachers	4/20/2023 9:22 AM
749	Darbi Boddy and people like her are the biggest challenges to Lakota, and those people must be stopped no matter what else happens.	4/20/2023 9:21 AM
750	The biggest hurdle the district faces is the negative image and perception the public has about the district since Darby Boddy was elected as a board member. It will be difficult for the district to find a quality candidate for superintendent that is willing to take on a district of this size with someone as polarizing and difficult to work with as Darby has been.	4/20/2023 9:19 AM
751	One person in particular on the Board is a detriment to the school district. I worry that she will sway people and bring up negativity which can hurt our students and staff. I worry that Lakota will not be what it was years ago and we will not get the adequate funding to keep running as a sought-after school district in Butler county. I also worry that programs will be cut, class sizes will increase, and teacher/staff pay will come to a stand-still. Our generations are changing and we need to keep up with the changes. We also need a Board and a superintendent who can stand up for the staff and students in the district. I also worry that curriculum will be micro-managed by people who have no idea how to teach. There is so much good being taught in the school through the curriculum and just through natural, organic situations.	4/20/2023 9:17 AM
752	More kid's not caring about the school rules.	4/20/2023 9:15 AM
753	I believe the biggest challenge comes from special interests outside of the community that are using public schools as a platform to push their agenda. from their information bubble, is a significant issue on a lot of school boards. This will continue to negatively affect our school district and its educational programs. While we shouldn't have lemmings on the board (or in the public), we should be smart enough to know what we don't know and get the hell out of the way of the people who do know. Any time politics is involved in education, the students lose. The other "normal" things that could impact educational programs (fiscal issues during a recessionary period, facility concerns, etc.), that appear in the next five years, are things that are hopefully in your five year plan, already. (What may not be in that plan is how we handle artificial intelligence and how we'll be equipped to handle the fast-moving changes that come with it in the next five years.)

777	Facilities and funding will likely be two major challenges in the next 5 years. Public political sentiment may continue to impact decision making and could hinder progress on real education outcomes.	4/20/2023 8:54 AM
778	Lakota has become a leader in offering students many choices in programs of study, innovative classes, and real-world experience (at least in the high schools). We are currently going in the right direction with that and I worry that a less innovative or less big picture focused superintendent might not see the value. As our student population grows more diverse, so do their needs and desires to learn different things. It is fiscally irresponsible long-term excellence to under invest in the most critical infrastructure who will be in place for decades. Build and support an all-star faculty. Make Lakota more desirable than Mason or Sycamore for teachers. (2) Political controversies which can distract and divide from academic learning. We need to stay out of the news and avoid wars over bathrooms and pronouns. This is not California or Minnesota. Avoid any candidate who is interested in jumping on the woke bandwagon to advance their career. We are a right leaning conservative district, so choose a leader that reflects and knows our community who is also has a calming personality and the ability to lovingly get along well with people from all perspectives. academics. We can be just and fair without using modern DEI ideas as a middle-man. Instead rely on ideas that have stood the test of time. Modern DEI concepts have not yet proven themselves to stand the test of time. (3) Many challenges are self-inflicted. AVOID candidates fueled by selfish ambition who major in buzzwords and bandwagons. Character and general competence are more important than polices and experience. Faithfulness is better than innovation. A servant leader who will support the work of teachers, rather than someone who will lord it over employees and distract busy faculty with new initiatives that look better on paper than they are in reality.

800	I fear the push for school choice/vouchers and how that will affect public schools. I have no idea how Lakota prepares for that day. What's happening in Iowa, Arkansas, Idaho, etc. is awful. The culture wars that are coming also scare me and how there seems to be an assault on public education. Lakota should prepare themselves by examining what's on their bookshelves (teacher bookshelves), other culture-war policies that may come back to bite you in the butt. I hate this, but these alt-right groups are coming for the schools. Stay strong and stick to serving the majority of the students. Keep with your excellent communication. Keep communicating how the curriculum is posted. I also fear about the lack of respect for the teaching profession. After volunteering in the classroom when my daughter was young, I would leave that classroom with huge respect for my child's teacher as I went to my office job. Continue handing out that award for teachers that you do. Every bit of recognition is good for these teachers.	4/20/2023 8:33 AM

It is imperative that the new superintendent consider options to help the well being of all students and reduce risk factors that can lead to (to name a couple) depression and anxiety. Education is also a tough field and public schools seem to be consistently fighting uphill battles. 876	I have seen a decline in respect for teachers and the morality of students since my first child enrolled in Lakota 15 years ago. I would like to see standards for behavior put in place and enforced to create a better environment for teachers and students. 890	Certain person on the board is a huge challenge for the district.	4/20/2023 7:31 AM
891	Parents and community members that are focused on non-educational talking points and not on actual problems that affect the students. Central office is disconnected from the reality of what actually occurs in a Lakota classroom. Classes are too big to meet the needs of today's learners. Stop calculating teacher to student ratio with every support staff included. Be realistic. I have 27 eight year-olds, all day long, by myself. There is no functional support for the influx of non-English speaking students. Dangerous and disrespectful behaviors take vital learning away from every classroom. These behaviors drive away teachers and admin. and breed complacency. We need someone who will fix the real problems. Stop putting band-aids on these critical issues and printing up shiny fliers to send out to the community that just look good. We could really use that paper and ink down here in the actual trenches.	4/20/2023 7:31 AM
892	Potential legislation that could make public schools more competitive. If parents can receive money that they are paying into Lakota (ridiculous amount of tax) they very well may take that money and enroll their child somewhere else.	4/20/2023 7:30 AM

894	A particular board member with an agenda of her own. It is a distraction to the objectives of the board, a threat to the unity of our community and an obstacle new leadership needs to prepare for and be prepared to overcome. We need a strong individual that will not tolerate the non sense that this person continues to demonstrate without regard to the true goals and needs of our children. With her removed from the equation, the focus can return to improving the educational programs and support for our children.	4/20/2023 7:25 AM
895	I have no idea.	4/20/2023 7:24 AM
896	Divisiveness that has created the current opening. The current school board discussion and previous discussions have no place in our district. These discussions have real ramifications on the growth of our community, the hiring and retaining of quality staff. The school board member's actions have been an embarrassment to our community and if we keep with the same trajectory, there will be widespread ramifications for real estate, small business, and staff engagement. Hopefully the next election will address this, in the interim, the focus should be to keep our great financial successes and continue to improve the education that we offer while creating a safe learning environment for all children. Retention and hiring should be a primary objective as this directly impacts our kids on a daily basis. Teachers and support staff want a workplace where all people are valued. I work with several schools in the area and routinely interact with teachers, principals and other employees and all employees want all kids to feel safe so the focus can be on the learning and development of the children.	4/20/2023 7:23 AM
897	1) We need someone who can simultaneously be a unifier and yet at the same time put a stop to the circus shows that Board of Education meetings have become. Elected or not, people who do not believe in public education or think highly of the teaching profession have no place in public education. 2) We will have to get a levy passed in order to fund the new schools we plan to build. We need a leader who can get that done. 3) From ground level, it would seem we have way too many people working at Central Office, yet not enough teachers, administrators or counselors in the schools. We need to reallocate some of those resources. 4) In the not too distant past, Lakota took pride in being one of the most diverse districts in the state, in terms of ethnicity, nationality and economic status. Lately it seems some of our elected leaders consider talking about diversity to be "divisive." We need to get back to embracing our differences, not fearing them. 5) We must add academic electives. If we want to compete with the Sycamores and Masons of the world, we need to look at the academic offerings they have and improve our selection. 6) We have swung too far toward STEM and away from humanities. We need a course correction there. 7) We need to update the literature that is being taught in	4/20/2023 7:21 AM

devices and back into active teaching and collaborative learning. We are a school district - kids can do screens at home. Kids are sick of devices, even though they're addicted. They are pleading for hands-on, collaborative learning experiences from their teachers. "Not another Google slidedeck!" is a common complaint. Academic excellence takes more than words. Another huge issue is the rate at which we're losing teachers. Very concerning.

922	Lakota needs to keep CRT and everything related to equity away from our district. It does nothing but poison our children and teach them racism. Focus on reading writing and math and the things that our children need. Politics has no place in education. It is the parent's job to speak to the children about anything concerning politics or sex related topics such as homosexuality and transgender ideologies.	4/20/2023 6:58 AM

982	The problems Lakota faces today is a direct result of the lack of communication coming from the administration. If parents would have had emails returned or even acknowledged, they would have at least felt heard. The anger in this District would not have risen to the current level. There was way too much tweeting and retweeting and Ed Chat, this left the impression that social media presence was more important than responding to legitimate parent concerns. Simply put, when a parent had a concern that they felt rose to the level that an email was composed and sent to the Superintendent, and that Superintendent could not respond or even acknowledge the email, but found plenty of time to spend on Twitter, it does not set well with parents.	4/19/2023 11:28 PM

I think a lot of people are limited due to what we're taught, being that we're told very vaguely about what we can do after high school. I think we have a very narrow mindset as to what is possible, such as thinking we can just become doctors, or go into the military, or the arts, but that's as specific as it gets. There are so many opportunities and so many different jobs that we can pursue, but we simply aren't helped through it. 1079	I'm an extremely concerned about the ridiculous focus on CRT, etc and distraction this has caused. It takes away precious time and energy from actual work that is needed. This is only based in politics and racism. Those who push this agenda need to be removed from our school system before they cause any further damage. Darby Body and anyone who behaves like her have no place being in our school system.	4/19/2023 9:43 PM
1080	I believe the political environment is creating divisiveness. People are so concerned about politics that they are forgetting about the students and what they need to be safe and successful. We have got to put the students, and the staff that help shape them, first and forget about political parties.	4/19/2023 9:42 PM

1082	Public education continues to race to the bottom. It's gotten particularly bad post Covid. The less than ideal teaching methods that were OK during a time of emergency have now become the norm. There are teachers who don't do much teaching (rather, watch this video, do this worksheet, etc). I hear about really good teachers who stand in front of the class for 50 minutes and actually teach, as being the exception. School has gotten far too easy and we're doing our kids a horrible disservice if we continue down this path. In recent years there have been far too many distractions pulling focus away from school's main purpose is... teaching our children! We need to be holding our kids to higher standards, not a state mandated achievement goal.	4/19/2023 9:41 PM

Work creates perseverance and character and a desire to understand you must work hard to receive good grades & great things and opportunities will come. Fostering a love to learn is so important. Please just focus on educating our children and if you present a certain view you MUST present BOTH sides. The Ted talks need to be reviewed because many are far left. If Lakota must continue to face the sideshow distractions that are taking place from a specific board member it will not help unity, it will not help the image we need for our community and the reputation our school district has worked so hard to build (which impacts property values as well and bringing in businesses to the community). Ideally the board would be free of involvement with extreme political views and focus on education and fostering a student body that bonds as a community and graduates with valuable life skills, which includes SEL. I'm also concerned about the impact of upheaval that would be involved if/when the facilities plan is put into action, however, I'm in support of the improvements, but it would be important for the district to recognize there could be an impact to some students (especially younger ones), and I would hope the district will have a plan to make any transitions as easy as possible.	4/19/2023 9:00 PM

Lakota should not bow to the left in the name of diversity but instead stand on values that have proven to be differentiators for 50+ years in developing strong future leaders. Submitting to the pandering left and their social agenda while veering away from educational principles will cost Lakota and its community in terms of strong moral families who will choose to live in other communities that represent those strong moral values. Lakota should also focus on technology and business curriculum to prepare students for careers and not rely on colleges to provide this education. More children will choose not to go to college as the system and the data coming out of it will show that education at collegiate levels is becoming less of a qualification to enter a professional career.	4/19/2023 8:52 PM

1206	There are several challenges the district will face in the next five years, some of which are occurring now. I think the biggest challenge is overcoming the far right baseless rhetoric that is attacking innocent children and staff. It would be amazing for the focus to return to the students. Another future challenge I see will be the need for funding. As we see today costs are only rising. Another challenge is retaining quality teachers. The environment today has become so hard for teachers. I think it is important to work hard to keep teachers motivated and supported.	4/19/2023 8:27 PM

Specifically, efforts by Republican lawmakers at the federal and state level (and by Lakota board members) that target history and social consciousness curriculum because they are uncomfortable with confronting this nation's historic and continuing systemic racism. I am also concerned about efforts to arm teachers or allow more people to bring guns into schools under the guise of safety; I am very concerned about the likelihood of negligent discharges and weapons leaving the control of the person bringing them in, and I am not confident that arming people in the school provides any meaningful protection against school shootings. Finally, I'm deeply concerned about attempts to regulate participation in sports based on anatomy, hormone levels, birth certificate sex, or other factors in that vein. I feel it has deleterious effects on students' health and well-being both physically and emotionally. I also think many proposals are gross invasions of privacy, scientifically ignorant, and do not make sports more equitable or fairly competitive.	4/19/2023 8:17 PM

Children should be taught to overcome the challenges and grow not to excel by holding any other group back in the name of equitable outcome. Equity of opportunity not equity of outcome! 1246	From my limited perspective given my time in the district, I would say that financial responsibility would have a large impact. Many students are hands-on learners, and the limitations placed on teachers in providing these experiences due to resource depletion this year has been incredibly hard. Technological skills are important, but should not be pushed and held higher than traditional pencil and paper in some areas. Also, funding for supplies to further Lakota's goals and actually be able to fully implement them in the classroom would be huge.	4/19/2023 7:56 PM

1252	The three challenges that I think Lakota or any school district face over the next 5 years are: 1. Likely budget constraints: Lakota school district may face budget constraints due to economic downturns, changes in funding policies, or other factors. All of these could lead to cuts in educational programs, resources, and staff (both teaching and support). 2. Preparedness for technology integration: As technology is becoming more prevalent in education, how prepared are Lakota schools to embrace and integrate technology into their programs. This could include challenges in providing students with access to devices and internet connectivity, training staff/teachers in technology integration, and developing effective technology-based instructional materials including revamping course curriculum. 3. Challenges related student safety, mental health and well-being: Student safety has never been so much of concern as these days. Related to this are issues of mental health and well-being of the students. These could require additional resources (security, counselors, mental health professionals) as well as new approaches to promote Lakota student safety, well-being and mental health.	4/19/2023 7:52 PM

Not only am I a teacher, my kids are students in Lakota, and both my husband and I started Kindergarten and graduated from East and West. When teachers have no voice, no respect is given, and feel belittled, they will LEAVE. When they are not supported by leadership at all levels, they will LEAVE. I have had more colleagues leave either the district or the profession in the last few years than my whole career. Something needs to change. I am worried for my own kids and their educational experience. We need to focus on the whole child and stop acting like all teachers are not for kids. I do not know ONE teacher in Lakota that doesn't want a child to succeed. These teachers are tired and will move mountains for their students. But you can only take so much when you don't have support at all levels. I (and fellow teachers) felt the most support we've ever felt with Matt Miller amongst any super. in Lakota in the past. 1388	Lakota needs to maintain the standard of excellence that West Chester parents have come to expect. Caving to society's pressures to lower stands and take the focus off academics will push more parents to leave the public school system.	4/19/2023 6:38 PM
1389	Focusing too much on political agendas and checking for inappropriate subject matter for children.	4/19/2023 6:37 PM
1390	Significant increase in new housing will bring more students into the district & cause bigger classrooms, causing the ratio of student to teacher to increase. I think this is negative. A smaller class size is more beneficial for students and teachers	4/19/2023 6:37 PM
1391	Lakota is falling behind on providing student agency for students and use of STEM strategies in the classroom. Grading practices are archaic and do not support the mental health of our students. For example, why are we still awarding honor roll? Especially at the elementary level, it is counterproductive for student mental health. It promotes unhealthy perfectionism as students can ONLY get one B to get in honor roll. Of a B is above average, why are we making students feel less than for earning this grade. Perhaps in addition to eliminating honor roll, Lakota can do a deep dive into dynamic assessment and grading practices. Furthermore, the gifted programming in Lakota is below par when compared to other local districts. Students are not getting appropriate supports in terms of mental health and executive functioning. Allocating more funds to support the special needs of ALL student subgroups grows the district as a whole. Significant changes in instructional practices to support 21st century learning can be remedied by seeking STEM designation through OSLN or AASA.	4/19/2023 6:37 PM
1392	Lakota needs to resist fad educational ideas and focus providing quality education with proven results. Lakota needs to resist the trend of parenting children and return to their lane - education. These are not the real issues or dangers our children face. These are not the topics that Lakota needs to be focused on unless they are championing DEI, SEL, and teacher professionalism and credibility. The new superintendent needs to know what kind of environment they are walking into with the current school board and how their involvement/relationship with the current board will set THE tone for the entire district.	4/19/2023 5:42 PM

1553	Certain members of the Lakota School Board have proven detrimental to the Board, to the Superintendent's office, and to our children and their education. The Board's attempt at mitigating the behavior of these members through their disruption to community engagement and discussion (primarily single member of the Board) by limiting community presence and discussion at Board meetings is a slippery slope that will likely have the opposite intended effect long term.	4/19/2023 5:41 PM

1561	I moved here two years and I have been shocked at how the board has conducted itself at times and am deeply concerned about the long term ability to attract and retain teachers and am be a top choice for families of all kinds to trust and want to invest in. I don't think the board has done enough to reinforce standards and made sure teachers are properly empowered and supported. I have talked too many that has told me why they have left of or are thinking about it. As someone that bought during the Covid bubble, I am deeply concerned. The board has focused a lot of time on politics and routinely embarrassing the community. We have to focus on educating the whole child and making sure that students are empowered, supported, and held accountable. That feels like a big grey space of opportunity. We need to recover post Covid and make sure students understand what the standards are for success. The other thing is just the racism that permeates from the board has to change. So much unproductive behavior needs to stop. It has already impacted our students and brought shame to the community. 1605	I strongly believe that the current LGBTQ platform is a distraction to education. Young people now see identity as a smorgasbord of choices as opposed to 'being born' with a certain disposition. The innate and natural desire for recognition and approval, particularly in the teen years, is fueled by the celebrities, social media, and endless barrage of propaganda by the LGBTQ community. Everyone is given choices about how we live our lives - I agree with this premise and respect the right of choices. However, as an early childhood educator, I believe the kind of choices being made by our young people are adult choices, not child/adolescent choices. I am appalled by the lack of respect to the developmental process by our schools. How is it even logical for our schools - supposedly partners to our community parents - to assist/provide children with birth control/abortion connections/enforcing LGBTQ choices to our underage children? These should be family decisions, and while in K-12 programs, I do not support schools making inordinate changes and accommodations for such life impacting decisions. It is my hope that the new superintendent would NOT be swayed by the current fads of or culture, but would instead, stand up for education and protect our students by citing the legitimate concerns of children making adult decisions before they are fully mature enough to do so, which is easily and logically based on science and research.	4/19/2023 5:27 PM

Gifted services / enrichment programs and intervention specialists should not be taken away from students who need help and enrichment. Overall, we strongly feel that districts main focus should be on educating our kids and providing resources to help them get the enrichment opportunities that they need to be successful in life. It seems as though the last couple of years focus has been political on both sides. Politics do not need to be the focus for our board members. The board also needs to learn to get along and act like adults. This goes for all of them and not just one or two people. Education is key to success and having competency will help graduates land the job post high school, get into a good college and will offer them great start to a bright future. The board needs to get their act together and figure out how to work together effectively for there to be any hope of finding a good candidate. 2. Student Safety in schools. How can we further ensure school violence won't happen in Lakota?	4/19/2023 5:12 PM
1686	Increasing diversity in the district has been very upsetting to some individuals. Students need to be protected from bigotry and valued for their backgrounds, languages, and viewpoints.	4/19/2023 5:12 PM
1687	Teaching core curriculum and ensuring the students are college ready. This means not pushing political agendas and focusing on helping the mass achieve success. Do not sacrifice success of the majority for the comfort of the minority. This political pressure is mounting and needs to be met with equal force. White students are not oppressors and colored students are not oppressed. We (Lakota) and other districts are setting children up for failure and need to demand better of our staff.	4/19/2023 5:12 PM

1697	There is an increasing pressure to participate in identity politics on both sides of the aisle. These identity politics exist solely to confuse and divide our children and view them exclusively as a future vote for politicians that do not care about them. Do you honestly think it's productive to teach children that the color of their skin determines if they have the capability to be racist? Do you think it's productive to teach children that because they have a certain skin color they are responsible for the sins of their ancestors?	4/19/2023 5:10 PM

1701	The biggest challenge for Lakota is crazy people like Darbi Boddy getting into positions of power. They don't represent the views of the majority of Lakota Parents	4/19/2023 5:10 PM
1702	A school board member acting more immature than the students she is supposed to serve and wasting everyone's time with her drama instead of fostering progress for the school district.	4/19/2023 5:10 PM
1703	The absolute media circus that is our board right now is our biggest threat to our future. Darbi is affecting so much in a negative way. The rest of the board has done its best, but she has clearly negatively affected all aspects of the district.	4/19/2023 5:09 PM
1704	Retirement trend of experienced staff increasing.	4/19/2023 5:09 PM
1705	Far right extremists on the school board (e.g. Darbi Boddy) that refuse to resign and add no value to the district or community with their behavior and beliefs in far fetched conspiracies that inhibit the growth and education of Lakota students.	4/19/2023 5:09 PM

1714	Basic life skills. Kids need to know how to survive outside of the family home.	4/19/2023 5:08 PM
1715	teacher retention and size of classes are what I predict will be the biggest challenge. I also think that the district has become so divided that focusing on the students will be more difficult then ever. Having an elected student voice on the board may help redirect the focus to what is important and reduce the circus that the meetings have become.	4/19/2023 5:08 PM
1716	Let's try staying out of the news for 30 days. I think that would be a good start. The previous superintendent, principals and teachers have smeared this school corporations name for far too long. Get it together.	4/19/2023 5:08 PM
1717	My biggest concerns are the teaching of the divisive Critical Race Theory, and the Common Core programs. Students need more discipline and accountability, instead of the seemingly endless supply of 'get out of jail free cards'.	4/19/2023 5:08 PM

1727	Darbi Boddy is a detriment to the district. Darbi Boddy needs to be compelled to resign, full stop.	4/19/2023 5:07 PM
1728	Attracting a strong candidate who will support the educators and continue to provide an excellent learning environment for our children.	4/19/2023 5:07 PM

1731	An increasingly difficult to work with School Board and members who use our district and children to further their own political agendas. Learn how to embrace diverse cultures, accept that people are people PERIOD and stop the insane witch-hunts regarding CRT and whatever trigger issue of the day. Has to be able to answer difficult staff/board/parents but SERVE OUR CHILDREN FIRST.	4/19/2023 5:06 PM
1732	The left wing agenda being pushed in schools including diversity, equity, inclusion, sexuality, and transgender ideology.	4/19/2023 5:06 PM
1733	The class sizes in each building. With a growing population we need a plan for what limit class sizes so that we can adequately meet the needs of all students in our classrooms. Hiring more support staff. Increasing student and staff safety! With what is going on in the world we need to make sure we are doing everything we can to help keep our staff and students safe! It should not be a professional hazard! Growing behavior issues across all grade levels. More support for teachers dealing with these behaviors on a daily basis. Continued lack of subs available! Building/ district subs. Hiring people who are assigned to grade levels and are able to sub only in Lakota school. Example - 5-10 subs are designated to elementary buildings. These Subs will be used first and a few that will be kept incase of instances of coverage shortages. These people can sub at any (elementary) building needed, and not limited to only one building. If the subs do not have a "job" for the day then they will report to an pre-assigned building and help with anything that building needs that day (bathroom breaks, covering classes to help get assessments completed, extra hands for a students who may need more help, coverage for meetings, making copies, etc.)	4/19/2023 5:06 PM
1734	Mental health crises are common. Maintaining and improving mental health and overall well-being of students and staff should be paramount. Fallout from downturn in economy could pose difficulties. Fiscal responsibility will be important.	4/19/2023 5:06 PM

1748	I feel teachers/admin is leaning too heavy on the on-line assignments in Canvas; my high school senior complains daily that the teachers aren't actively teaching much anymore. Instead, the assignments are loaded onto Canvas and students are self-taught. My students gets her assignments done quickly and spends most of every day in 'study hall', mindlessly scrolling on her phone. She dreads going to school since she's not engaged with teachers and classes are boring. I think we all got into the online mode due to Covid years, but we need to get back to active teaching and challenging the students in their courses to better prepare them for college. She could be learning so much more instead of sitting in study halls, staring down the clock all day waiting to go home. I would like to see principals and administrators doing more pop-in check-ins with the classrooms, to ensure teachers are engaged in active teaching. I have had 3 kids go thru lakota over the last 20 years and overall I'm mostly pleased, however Lakota is slipping down the ranks of Ohio's top schools. Many of my neighbors have switched to Mason or other area schools in hopes of stronger education. I know lakota has many aging buildings and I'm on board for passing a levy to fund new construction and/or consolidation. I think there are too many ultra-conservatives in West Chester who will not support funding of the schools and new innovative programs--this worries me...	4/19/2023 5:03 PM

1764	Darby Boddy remains on the board. She continues to damage the district with her baseless, clearly politically motivated agenda and do everything possible to bring a far-right conservative approach to the school. 1776	Lakota needs to listen to the local community more than the national media and narratives being pushed. Students will benefit from a balanced education and qualified teachers more than a staff that is selected for the purpose of diversity	4/19/2023 5:00 PM
1777	The fascism ideology within our school board. The lack of diversity and inclusion within the leadership at Lakota. Darbi Boddy and her supporters are ruining our school district. I moved away from a school district to Lakota bc I wanted my 4 boys to experience diversity and learn from people who are different from them. The real world is not a bubble of precious little white kids who need protection from someone who thinks and looks differently. The world is full of wonderful folks who are different and can contribute to a successful and diverse community.	4/19/2023 4:59 PM
1778	Teacher retention. If we fail to retain and attract highly qualified staff we will fail to maintain high quality education	4/19/2023 4:59 PM

for example (statistics in a basic math class) for a 7th grader (should be 9th grade level) is way above their grade level. WHY.. not needed at all. Strictly relying on the computer for assignments instead of worksheets/text books kids are already losing the hands on learning experience that ALL kids need why make it worse. Because of going remote learning for majority of assignments now I'm sorry but a lot of teachers have become lazy. Lastly the lack of communication with teachers and parents there isn't enough they all talk about e Mail. E Mail e Mail (weither is the kids e mail them or the parents) but yet most (not all) don't e mail until 2-3days later. If it's been like that the last several years its only going to get worse.. It's called lazy and not caring in my personal opinion.

1829	We valued the strengths that Superintendent Matt Miller brought to Lakota. The next superintendent should carry his legacy of educating Lakota students with the latest technology. This is crucial for the next 5 years. We also want a superintendent who can put his/her own stamp on Lakota with forward thinking.	4/19/2023 4:52 PM
1830	The Lakota Board of Education needs to be revamped. Throughout the years, Lakota has always been thought of in the highest regard and in current times, Lakota Schools are ridiculed. Nobody really knows what to believe about Mr. Miller and Ms. Boddy because there has been so much mudslinging. I have faith and trust in the teachers and admins at our school, but nobody above that. It seems like it has been turned into a political circus.	4/19/2023 4:52 PM

1838	The challenges that Lakota Local schools face are those that have been manifested by Darbi Boddy and her minions (the West Chester Tea Party). Her fear-mongering and incendiary persona will most likely prove to be a deterrent for any candidate worth having in Lakota Schools. I am fearful for the future of Lakota schools because of the small but loud portion of the Lakota community who are transphobic, racist and small-minded. So, good luck to you, but I don't have high hopes for the future of Lakota unless the community rallies against this hate and vitriol.	4/19/2023 4:51 PM

We will need a strong superintendent who will protect our students and teachers and be able to stand up against people trying to implement radical, non-inclusive curriculum and ideas. 1858	The biggest challenge Lakota faces now and over the next five years is having a board that can work together and solve problems in a collaborative effort.	4/19/2023 4:49 PM
1859	From my perspective, Lakota will probably face a lot of issues when it comes to political lines. A lot of the students don't really know what they are talking about and are not up to date on important issues that could directly affect them in the real world.	4/19/2023 4:49 PM
1860	I think keeping great teachers is key. Make sure teachers want to teach in Lakota and don't want to go elsewhere. Keep buildings and programs updated and renovated as necessary. And we need to get rid of darbi boddy. She's the biggest problem I can see.	4/19/2023 4:49 PM
1861	Reuniting the school board that is so divided, realizing all members are elected and finding ways to bring the community together to focus on the students even with differing opinions on the board. The bad press Lakota keeps receiving makes us question having our elementary child in the district and that is sad. 1874	Darbi Boddy and right wing nut jobs with hate based agendas who use outside money to amplify a small minority voice of the community. And losing funds to "backpack" laws that prioritize private schools.	4/19/2023 4:48 PM
1875	Politics corrupting education. Schools are becoming places for adults to flex their ego more and more. We should all be united, regardless of party lines, in creating a curriculum that fosters successful happy children. Instead schools are slowly being defunded and dismantled to serve political desires. So far Lakota has done a great job of putting their students first but I don't know how long that can last in this climate.	4/19/2023 4:48 PM
1876	Lakota will face bombardment from external (and sadly, internal) forces that will attack anything that is not aligned with the local Republican agenda. I love Lakota's respect for diversity and inclusion. As well, my daughter has suffered a dip in mental health this year, which has been addressed and wonderfully acknowledged. 1924	I think some of the major challenges is the stress we are putting on these kids and how they react ie suicide, violence etc. it is extremely important to take into account the whole student and how everyone learns differently. It is also important that empathy begin in kindergarten so as these kids face challenges through the years hopefully they can do so with grace and kindness. I think all of these issues affect students education and how well each student does in school. I also think technology is going to have a huge impact on student education. It will both open opportunities and continue to create problems moving forward.	4/19/2023 4:45 PM

1942	I think it's critically important to invest in the technology that guides our student learning. As parents and those of older generations, it can be a daunting task to stay active with the curve of technology. We cannot let this happen- we must continue to learn and grow as adults/instructors/parents in order to be able to guide our children to the true potential and capabilities of modern education. The concept of 21st century literacy, to me, is learning how to not just consume content- but also to create it and engage with it in meaningful ways. As a specific example- I find the entire Canvas app to be really subpar. It's confusing, not formatted well for mobile devices like ipads, and there isn't a lot of clarification for parents as to which lessons are intended for class the next day or what's due or past due. I hope the district can find someone who is very tech-forward in their thinking and approach.	4/19/2023 4:43 PM

2002	Attacks on public schools	4/19/2023 4:39 PM
2003	Darbi Boddy has exposed a critical vulnerability in the Lakota Public School organization. It's vulnerable from people who act in bad faith to further their own agendas at the cost of Lakota Public Schools. Something needs to be done to prevent this from happening again. The school board apparently is unable to control its own members when one is completely out of control.	4/19/2023 4:39 PM

Q10 What question would you like the Board to consider asking a superintendent candidate?

Answered: 1,107 Skipped: 932

#	RESPONSES	DATE
1	How will you build a program on diversity, inclusion, mental health and bullying?	4/28/2023 11:41 AM
2	1. How do you plan to be visible/accessible to parents? 2. How do you plan to meet individual needs of the students (education, safety, social-emotional-mental health)? 3. How do you plan to hire & retain (i.e. prevent burnout) of teachers? 4. How do you plan to continue innovating on behalf of school offerings at Lakota Schools? 5. What experience do you have with facility planning/improvement?	4/28/2023 11:08 AM
3	What strategic plan would you look at to assure that principles and teachers run the school buildings and NOT the students?	4/28/2023 11:05 AM
4	Is it more important to use your beliefs or research-driven methods to meet the needs of students in this district?	4/28/2023 10:29 AM
5	Do you value the whole child approach? Are you able to drown out the noise, dig in and get the job done? Do you value and welcome whole community support? Will you dismantle what we've already achieved or continue our approach and add on to it?	4/28/2023 9:46 AM
6	How can you help elevate our current climate of fear and uncertainty among our parents?	4/28/2023 9:12 AM
7	How will you ensure that all stakeholders voices are heard while communicating strong convictions about your field of expertise..... teaching children!	4/28/2023 8:57 AM
8	Are you willing to stand up to bullies that are trying to destroy you in order to protect ALL kids?	4/28/2023 8:55 AM
9	Is your focus on academics, teaching students subject matter and not emotional learning. Are you going to buck the unions (their control over professional development) and use common sense running Lakota Schools, focusing not on equity, inclusion and diversity but individual rights of both students and teachers.	4/28/2023 8:48 AM
10	I think we need someone from outside the district to fill this role. We've had a lot of turmoil lately and we need a fresh set of eyes who's not viewed as already having taken "sides".	4/28/2023 8:44 AM
11	I would ask if they value Diversity, Equity, and Inclusion and how will they advocate for students of all backgrounds?	4/28/2023 8:31 AM
12	Return to basic American values. No transgenderism in sports or genderless bathrooms. No sex ed in schools - that is for family. Stick w/reading, math, writing and CIVICS.	4/28/2023 6:47 AM
13	What are the candidate's beliefs in educating the whole child and providing support to families in order to help every student realize their full potential?	4/28/2023 6:38 AM
14	In what ways will you help Lakota students excel to be ready for the real world, post high school?	4/28/2023 6:00 AM
15	Where do they see themselves in five years and name what they think needs to be addressed first as a Superintendent	4/28/2023 5:55 AM
16	Are you applying for this position to better lives(students, teachers, parents, staff and community) or for career ambitions and money?	4/28/2023 12:23 AM
17	Are you willing to put student needs and safety above all outside political influence?	4/27/2023 11:49 PM
18	What have you done to show your effectiveness in the above categories?	4/27/2023 11:11 PM
19	You have to choose between a diversity, equity and inclusion program with a specific curriculum and agenda or a music program that provides basic access to music instruction for students. It's one or the other - not both. Which do you choose to keep and why? Hint: music	4/27/2023 10:28 PM

expands the brain and is not agenda driven. Kill the program that divides students under the pretense that it's about diversity, equity and inclusion. That is the only correct answer.
 Question 2: do you believe in zero tolerance of any policy, or should decisions be weighed on an individual, case-by-case basis? Hint: zero tolerance usually allows bad actors to game the system and put good people at a disadvantage because it is an extreme measure that removes thinking from the process. Zero-tolerance should never be worded into any policy. Only tolerance leads to respect and inclusion eventually. Thanks for listening. I hope you do.

20	What are some actions you would take to try to minimize the effect of fringe politics from both sides on our school system?	4/27/2023 10:20 PM
21	Most of the school board should admit they screwed up when hired the last one. Most of the board tried to cover their tails. No faith in most of this board!	4/27/2023 9:29 PM
22	How will you handle members of the board who are more interested in sound bites and pushing conspiracies then ensuring a positive public education?	4/27/2023 9:18 PM
23	How would you take action to combat growing mental health issues with Lakota students of all ages?	4/27/2023 9:15 PM
24	What steps will you take to ensure you know and understand the unique needs of each school in the Lakota district?	4/27/2023 9:06 PM
25	It's not wrong to press the new candidates about their personal lives. How they behave in their personal life does matter in any job, but especially this one. If the word "equity, diversity, or inclusion" comes out of his or her mouth, disregard the candidate. This is destructive ideology. What matters is that Lakota children learn math, science, English, etc. in a safe learning environment. That's the job.	4/27/2023 9:04 PM
26	What their goals are for our school district. Do they believe there are hidden agendas in the curriculum.	4/27/2023 8:53 PM
27	Based on your current knowledge of the school district and the school's internal priorities and strategic goals, what do you see as your highest priority to keep our school district successful and moving forward and what do you see as your immediate actions? What barriers do you vision and how would you handle?	4/27/2023 8:31 PM
28	Can you handle this community and those who want to dismantle public education?	4/27/2023 7:30 PM
29	It is important for the candidate to understand how exceptional the Lakota educational experience has always been. The new superintendent must have a strong background in educational issues as well as curriculum best practices. The candidate must be able to move the district through these tough, controversial times focusing on the well being of ALL students.	4/27/2023 6:20 PM
30	How would you de-escalate tensions between those with procedural differences of opinion.	4/27/2023 5:57 PM
31	Are you in this job as an ego boost, or do you honestly wanting to help growing children that have bright futures? Parents need more FB post or Coffee chats. We need action and answers.	4/27/2023 1:58 PM
32	What is your opinion of "progressive education" and how well has it served Lakota in the past several years?	4/27/2023 1:41 PM
33	Do you have a thick skin and can you deal with incompetent board members until they are voted out?	4/27/2023 12:38 PM
34	How would you approach constant criticism from the team appointed to help direct you and your vision?	4/27/2023 12:04 PM
35	What's your biggest goal for these schools.	4/27/2023 11:40 AM
36	Questions focused on their ability to unite disparate views. Questions focused on their commitment to providing access to diverse educational materials that are scientifically and historically accurate.	4/27/2023 10:54 AM
37	What do you consider your greatest accomplishment at your previous position?	4/27/2023 10:34 AM

39	Will you be an advocate for and stand up for your teachers and students from outside groups who are trying to push their own agendas into education, even though they have no expertise in the education system?	4/27/2023 9:59 AM
40	How do you plan to navigate in a school district that is now known to be a hostile work environment, and what makes you want to join and lead a district that has a specific board member who will do nothing but make your life difficult?	4/27/2023 9:44 AM
41	How can this board support you?	4/27/2023 9:30 AM
42	Is academic achievement your number 1 priority?	4/27/2023 8:58 AM
43	What decisions do you feel are yours to make in the district? What about the board? And when do you involve the parents in the council of making these decisions?	4/27/2023 8:31 AM
44	Why should we hire you as the next superintendent of Lakota Schools? What will be your focus? How will you lead with the distinction of the board?	4/27/2023 7:22 AM
45	What are there goals !	4/27/2023 7:12 AM
46	In the current times of devaluing public education and the role of schools in educating the whole child, how do you plan on managing the population that wants to ban books and not support diversity of the child.	4/27/2023 6:49 AM
47	How will you maintain focus on the core mission - educating our youth and helping them develop - with all of the distractions at Lakota?	4/27/2023 12:02 AM

How do you transition tenure employees thought process into a more modern way of education and athletics?	4/25/2023 10:51 PM
68	What is your plan for considering another high school to relieve the only 2 high schools in the district? The district always seems to be packed with students, but no one wants to pay for another building. It seems odd that freshman are separate from all the other high school because "schools are too full to hold the capacity". Yet instead of building another high school, 2 buildings were converted to hold just the freshman because no one wants to pay for another high school but parents want the best for Lakota. Make it make sense please.	4/25/2023 10:11 PM

82	Will you commit to eliminating all unnecessary administrative staff and focusing our tax dollars on hiring better teachers?	4/25/2023 2:24 PM
83	I just hope after all the ridiculous media Ms Boddy has brought on our school district we are able to hire someone with the strength to prevail and not run from adversity or Maybe let's just not assassinate the character of our next representative for sport. The best thing we could do to attract the best candidate is to remove individuals from the board with the news stations on speed dial or change our creed because We are Lakota seems not to apply to our selected board members, they seem more interested in I AM LAKOTA.	4/25/2023 2:19 PM

140	Where do you see Lakota in 5 years?	4/23/2023 9:49 AM
141	Have you looked at other countries or states who are successful in all areas of schooling to see what they do and will you consider doing the same at Lakota? For example in Japan they do not give tests to children until 4th grade so that the primary can focus on the basics and most importantly love of school and positive social/ emotional health.	4/23/2023 8:06 AM
142	How will you balance the divisiveness in the community while meeting needs of our students? How will you work to serve our students and public school system without being fully entrenched in your own political views and affiliations? In other words, are you capable of considering other perspectives and using facts, not opinions, to make choices?	4/23/2023 12:17 AM
143	How do you plan to lead our district to get kids to know their own strengths and weaknesses? Afterall, knowing our own personality and learning styles leads to academic success (and better mental health.) How are you going to lead our kids above the cultural, social trends to focus on academics?	4/22/2023 10:39 PM
144	How he plans on getting the future adults of liberty township to be contributing to the world with the parents. If they see being a team as a priority? Would they continue to hold the same standards lakota does now. It's a great school district. How they would continue to make it the best in ohio? What they would plan on changing? And are they willing to tell the community before they do?	4/22/2023 10:36 PM

186	How will you keep families in Lakota and attract other families to come here?	4/21/2023 1:05 PM
187	What training innovations and strategies will you implement to ensure that the school Board, administration, and staff, collectively and individually, represent the district positively and have the best intentions for the Lakota School District students, family, and entire community?	4/21/2023 12:51 PM
188	How important are the leaders in the district that report to him/her? Do you believe the superintendent is part of a team or makes decisions on his/her own?	4/21/2023 12:51 PM
189	will your political and religious values impact the decisions you make for the district	4/21/2023 12:26 PM
190	In a normal setting, I would ask the candidate to explain: * How will you stay up-to-date with our local universities and business communities on growing need areas for students to be successful after high school? How will you shape Lakota's courses of study to prepare children and be nimble in adapting to changing needs? How can we leverage external professional/mentoring societies to enrich our students? * How will you communicate the value of public education to the community? Part of modernizing our school system is asking the community to support the levies and bond issues that will be needed to fund this work. Well-run public schools are a community benefit that attract residents and grow the community, all while supplying the free and appropriate education that many families rely on. * How can you motivate teaching staff to achieve excellence and remain with Lakota? How do you compete with high-performing local school systems for talent? Is pay & benefits the only lever you have, or do you have experience with other motivational techniques? * Our public school system serves all students from multiple backgrounds - socioeconomic, ESL, neurodivergent, religious, etc. How do you structure a school system - including curriculum, staff, infrastructure to help all of these students achieve maximum success while respecting individual needs? How do you envision balancing flexibility of teaching approaches against the cost of complexity that flexibility could impose on educators? If you're not sure, who would you select	4/21/2023 12:18 PM

Superintendent Search: April 2023 Community Survey

to work with to define and implement best practices? * How do you choose and recruit your senior administrative staff to complement your expertise and bring in best in class practices? How do you empower this team to operate with excellence with clear goals and accountability without micromanaging their work? Unfortunately, in the current environment you should also ask whether the candidate is willing to be treated more like a political candidate than a professional administrator. Are they willing to be micromanaged to push a political agenda rather than empowered to do what's best for our community? Do they have the PR savvy to manage silly political fights and stunts and have skills to de-escalate while still delivering for Lakota parents? And a final note about section 9 - why is student well-being a separate priority from diversity, equity and inclusion? Isn't creation of an inclusive & equitable environment a necessary strategy for student & staff well-being and achievement? For that matter, how do you raise achievement of all students without creating an inclusive environment that improves student well-being and tailors learning to their needs? You separated out priorities on the rank list that are 100% correlated to each other.

We need achievement to be the one and only focus and not anything to do with the liberal, social areas that seem the focus currently. Lakota cannot have anything that appears to be CRT efforts like SEL or similar to take any time of our education mindset. Equity is focused on bring high learners achievement down so that outcomes are equal. Equality of opportunities is a good focus without penalizing those willing to put in the work to succeed.	4/21/2023 10:05 AM

584	What can you do to stop parents and board members who are not trained educators from being over-involved in school operation? I trust our educators. I do not trust other parents from impacting my child's education negatively. I also do not trust board members who do not have a background in education. I had to pull my last child out of Lakota because Lakota was not a good fit anymore due to medical reasons. In the end, it was a good thing because my child would not feel comfortable there anymore with all the turmoil over the board's war on fake "woke" stuff. The board should focus on educating all students and making them feel wanted and welcomed so they can achieve their fullest potential. Right now, the board wants to pretend that caring for others and accepting them for who they are is evil. We are gone for good and we will not be coming back. We are sad because we were... as always go firebirds! for 18 years. And yet, we still pay taxes to support the district and go to fundraisers in addition to paying for private schooling for our child.	4/19/2023 9:51 PM

The board needs to stand up and select an individual that will stand behind our teachers and students to provide them with words of affirmation and support in all contexts. Until the toxic environment is resolved within the board the pool of superintendents candidates will not reflect the expectations of Lakota.	4/19/2023 9:41 PM

694	Bus service to and from school as well as Safety and accessibility to prevent attacks on the school needs a Severe overhaul such as establishing a truly safe perimeter to the students and the schools. Freedom elementary especially where the play ground is easily accessible from the parking lot. With everything going on with school shootings I believe a serious look at each school and the property in which they sit on needs an extreme safety-makeover to include fences and gates so that a passerby does not just have walk up access not just having resource officers on the properties which have proved invthe past they are not affective or too late in responding. Its an unfortunate time we live in but these are the things I would say that parents and school systems generally disregard until it affects them. A strong proactive approach would allow parents and staff to rest easier in these uncertain times. I hope to see real changes next year and not just a quick fix to dismiss such an important concern. Thank you for reading this and your future outreach and solution is eagerly appreciated.	4/19/2023 7:39 PM

805	What is their vision of a successful school district. What can they do for our District? *On the ranking section mine would have looked quite different if student learning had been substituted for student achievement. Any Supe who focuses on achievement gets an F. There is a cost of focusing too strongly on test scores. A focus on Student learning gives them an A. Those are 2 very different things and I hope a Supe would get that. I would like to think that strong achievement scores are a bi-product of a robust educational experience. Teaching to score well on a test is not what I want Lakota to be about. We are better than that. And any Supe who markets himself around student achievement is a big red flag.	4/19/2023 5:56 PM

members in our district?" This question is crucial because promoting equity and inclusion is an essential aspect of modern education, and a superintendent who can demonstrate a strong commitment to these values is likely to be more effective in leading the district. The answer to this question can provide insights into the candidate's perspective on how to address disparities in student achievement and outcomes, how to create a positive school culture that values diversity, and how to build strong relationships with marginalized communities. It can also reveal the candidate's plans for engaging with families and stakeholders to promote equity and inclusion throughout the district.

1026	How do they plan to be as successful as possible in this position?	4/19/2023 4:48 PM
1027	Give a example where you have had a problem where there is a balance between student needs, community input, financial consideration and staffing. How did you approach that issue? Look for people who put students first. They are the reason you're here. Not parents. Not outside advocacy groups. If the students succeed everyone else succeeds.	4/19/2023 4:48 PM
1028	Is this person able to be objective and make descions on what is truly best for students and staff even if they are not what they personally want them to be?	4/19/2023 4:48 PM
1029	1. How do you feel about banning books? 2. Do you believe that our lovely teachers are teaching "CRT". How will you support our teachers when this accusation is thrown at them? If they say yes on either question, please do not hire them. 3. Can you handle constant word salad and harassment from a certain, current member of our school board?	4/19/2023 4:48 PM
1030	Do you consider yourself an educator or a politician? Why?	4/19/2023 4:48 PM
