

Student Health Forms

Incoming students are required to meet state immunization and health examination requirements. These forms are provided and completed by your child's doctor. The following forms must be submitted to the school clinic prior to the first day of school:

1. A State of Florida School Entry Health Examination Form (DH3040) completed by your child's doctor within a year from the date school begins.
2. A completed Florida Certificate of Immunization (DH680) – student immunizations must be in compliance with the State of Florida's requirements. **If you are coming from out of state, we must have your child's certificate of immunization on a Florida DH680 form.** This can be done by a Florida physician or urgent care center, or by the Florida Health Department. Bring a copy of your child's out-of-state immunization record and they will transcribe the immunization information onto the necessary form.
3. If your child has a religious or medical exemption from vaccination, you may submit this in lieu of the Florida DH680 form along with a completed Health Examination form.

In addition to these requirements, students entering Kindergarten and 7th Grade must submit an updated Florida School Entry Health Examination Form (DH3040) and an updated Florida Certificate of Immunization (DH680) prior to the first day of school.

We appreciate the submission of forms as soon as they are completed, however they must be received by the clinic prior to the first day of school. Under state law, your child will not be allowed to attend class without receipt of these forms.
