

Empower students with next-gen technology.

Free summer STEM enrichment program for middle school students

Every student deserves access to a better future. That's why we've launched the Verizon Innovative Learning STEM Achievers program—an engaging, hands-on program developed to enrich learning through design thinking, 3D printing, augmented reality, social entrepreneurship and mentorship. This program creates a more diverse pipeline for future careers in science, technology, engineering and math (STEM) fields; no prior knowledge or experience is required.

 The program takes place over the course of one 3-week session. Monday-Thursday 8:30am-3:30 pm

June 12 - June 30, 2023

Sioux City Campus
4647 Stone Ave.

For more information, please contact
