

Gateway Regional School District
Financial Report Through Month Ending 3/31/23

The purpose of this report is to highlight the status of the FY '23 budget as of the end of March. This report is intended to provide brief explanations of accounts that are anticipated to have a large surplus or deficit balance at the end of the year. This report will be distributed to the school committee and posted on the Gateway website in an effort to keep everyone up to date on the financial condition of the Gateway School District.

REVENUE

At this point in time it looks as though most revenue accounts are running as expected. Miscellaneous revenue will be higher than budgeted due to the sale of one of our older vans as well as the sale of outdated technology, maintenance and welding items on GovDeals. Charter school reimbursement will be higher than budgeted, coinciding with the increase in charter school tuition as well. Bank interest will be higher than budgeted due to the interest rate increase this winter. Regional transportation reimbursement will also depend on the total cost of transportation for all regional schools, which drives the total percentage reimbursement. The district would need to use the transportation reimbursement fund to make up any differences in regional transportation reimbursement, if reimbursement comes in lower than budgeted. Excess transportation reimbursement will be deposited into the transportation reimbursement fund to offset future transportation budget. As of the third quarter revenue is approximately \$75,000 higher than budgeted.

ADMINISTRATION/SCHOOL COMMITTEE

Accounts in this fund are running as expected, with the exception of Business Office Salaries, and the crossover training time of our accounts payable position due to a retirement. The Business Office contracted services will be higher than budgeted due to the increased cost of an additional audit component required for total federal grant funds that exceed \$750,000.

INSTRUCTION

Most instructional accounts are also running as expected at this time. Staffing changes, changes in placement of paraprofessionals, etc. are flexible throughout the school year. Therefore, account transfers will be necessary throughout the year as the needs of the students are met. If staff members who indicated that they would be receiving a degree change have not met all requirements, there could be a small balance in some of the teaching accounts. Substitute account spending varies throughout the year depending on coverage needs. Long-term sub rates will be higher this year due to staffing medical leaves and unfilled positions. We have had many staffing shifts, increased needs for long-term substitute coverage, increased need for paraprofessional support, as well as increased need for various therapeutic services during the school year, so there will be adjustments necessary prior to closing the year.

OTHER SCHOOL SERVICES

The regional transportation should be lower than the budgeted amount due to the reduction of one bus run/route, and special education transportation will be over expended due to an increased need for specialized transportation that was not known last March. Homeless transportation varies depending on the needs that arise during the school year. At this point, it appears that Title I will fund a large portion of homeless transportation, and this account may be under expended.

MAINTENANCE/OPERATIONS

Most accounts in this category are running as expected at this time. Electricity accounts may be lower depending on the end result of net metering credits. Heating oil accounts will be over expended due to the high prices that have continued since the budget was passed last year.

FIXED COSTS

At this time most accounts are running as expected. Active employee health insurance varies depending on new enrollments as well as any premium changes. Insurance rates are remaining steady from the estimates received in June, but will increase 6% beginning July 1, 2023.

ACQUISITION, IMPROVEMENT AND REPLACEMENT OF FIXED ASSETS

The MSBA payback amount is fixed and will not change during the year.

CAPITAL COSTS

All accounts are running as expected and should through the entire year.

PROGRAMS WITH OTHER SCHOOLS

The school choice and charter school accounts vary depending on the number of students opting for each. Any adjustments are made from the state mid-year and then again in the spring. At this point, it appears that both school choice and charter school tuition will be over expended. Special education tuition may be over expended due to an anticipated increase in outplaced students.

SUMMARY

As of the third quarter report, the FY '23 budget status is positive.
