

FOOD SERVICE CHARGE – STUDENT AND ADULT MEALS

Each student may have a point-of-sale cafeteria account. It is the responsibility of the parent or guardian to maintain a positive balance in the student's meal account. Participation is voluntary as students may bring a sack lunch from home.

Parents or guardians who establish a cafeteria account may deposit money in advance on a student's account with a debit/credit card by using the District's payment website. Use of this on-line program also allows parents and guardians to track account balances, monitor meals purchased and receive low balance e-mail notifications. Deposits for cafeteria can also be accepted at all school buildings.
