## POLICY TOPIC DESCRIPTION

ALIGNMENT WITH STATE STANDARDS POLICY

## POLICY STATEMENT

### ALIGNMENT NEEDS ASSESSMENT:

Our yearly school improvement planning process will include:

- An analysis of our state testing data and other school data as necessary to include performance levels of each demographic group to discover the extent to which our students are meeting state standards and our programs are aligned with state standards.
- Systematic work to discover and correct the causes of and barriers to high performance by all students and the movement of students toward our goals.
- A revision of our school improvement plan based on our needs assessment data for that year. Our plan will set goals and address any indicated alignment issues to help move our students to state standards. Revisions will follow the time table established by the Kentucky Board of Education.

### POLICY EVALUATION:

This policy shall become effective immediately upon adoption by the council and shall remain in effect until amended or rescinded according to council by-laws.

Upon adoption by the council, this policy shall rescind any/all policy/policies pertaining to the formation of council committees adopted prior to this date.

We will evaluate this policy through our annual policy review process.
