MIDDLE LEVEL NEWS

Science Symposium Gallery Night

May 11th • 4:30 PM to 6:30 PM

In an effort to maximize learning styles, encourage an interdisciplinary approach to science, and make science fun for students, the Eldorado Middle Level Science Department sponsors the Symposium for Science Learning. The symposium is an in-

school, end-of-the year project where students reflect on their learning and choose a topic in science they wish to further explore.

Ask your child to explain this project and share his/her/their researcher's notebook and driving question formative paper that gives a lot more information including guidelines, a time-line, and the grading rubric. This project grade will be a significant percentage of the last semester grade, so it is important for students to stay on top of their project.

The projects will be publicly displayed on Thursday, May 11, from 4:30 to 6:30 PM. We hope you can attend with your child. It's a great opportunity for students to share their work and see project ideas for 6th Physical Science and 7th Grade Life Science.

Their interest was sparked by a list of possible project ideas, brainstorming their own ideas, and an opportunity to look at some of the projects from previous years. They are so enthusiastic, and We look forward to seeing their talents, creativity, and learning styles expressed through science. Be sure to mark your calendar for Thursday, May 11th.
