Make life easier with prescription home delivery

Highmark's prescription home delivery, powered by Express Scripts®, simplifies the prescription process. And you may save money, too. Here are the details:

What is prescription home delivery?

Home delivery sends your maintenance medications (those you need on a long-term basis) straight to your doorstep. You should use a retail pharmacy for medications you take on a short-term basis, such as antibiotics.

How do I get started?

Easy. All you have to do is follow the simple steps outlined on the next page.

Do I need to call my doctor about this?

No. All you have to do is follow the steps on the next page and a follow-up with your doctor will be arranged if necessary.

How long will it take to get my medication?

When you fill a prescription through home delivery for the first time, you should receive your medication within two weeks after Express Scripts receives your order. Refills are usually processed sooner — within three to five days.
