Work Based Learning A Grades: 09 - 12 College Prep: No Credit: 0.125 Work experience courses provide students with opportunities to apply the skills and knowledge learned in previous CTE and general education courses within a professional work environment in a field related to their career interests. Students interact with industry professionals to develop postsecondary and career readiness knowledge and skills. Goals are set cooperatively by the student, teacher, and employer.	BCA3210	ELA Amplify and Activate Grades: 10 - 12 College Prep: No Credit: 0.167 In this course students will learn how to use the tools of speech writing and delivery to strengthen their own voices. Each week students will read to learn about speeches, analyze speeches, build community, and write to express their ideas. Each term students will learn more about the art of public speaking, practice methods to ease anxieties around public speaking, and stand up and speak out on a social justice issue.	BCA2342
Work Based Learning B Grades: 09 - 12 College Prep: No Credit: 0.125 Work experience courses provide students with opportunities to apply the skills and knowledge learned in previous CTE and general education courses within a professional work environment in a field related to their career interests. Students interact with industry professionals to develop postsecondary and career readiness knowledge and skills. Goals are set cooperatively by the student, teacher, and employer. PSEO-CT1

Grades: 09 - 12 College Prep: Yes Credit: 0.000

PSEO A

Postsecondary Enrollment Options (PSEO) is a program that allows students in their junior or senior year to earn college credit while in high school. Students in Grades 11 or 12 may take courses, full-or part-time, at a postsecondary institution for high school credit. The program provides students with a greater variety of class offerings and the opportunity to pursue more challenging coursework than may be available at the high school. The tuition, fees and required textbooks are at no cost to students. Each college and/or university that offers PSEO sets its own requirements for enrollment into the program. For full-time PSEO students who begin in their junior year, it is possible to graduate from high school with enough college credits for an Associate's Degree. Students pursuing postsecondary options will be able to save time and money by entering college with earned credit toward graduation. Contact your counselor or the college or university of your choice for specific program requirements.

Algebra II A

Grades: 09 - 12 College Prep: No Credit: 0.167

Algebra 2A & 2B - FULL YEAR

Intended Audience: Grades 10 -12

Prerequisite: Algebra 1A & 1B and Geometry A & B, or instructor/counselor approval

Major

Outcomes:

- An extension of topics covered in Algebra 1A & 1B, including polynomials, exponentials, radicals, probability, and solving systems of equations

- Apply new topics in real-world settings, such as logarithms, linear programming, number systems, sequences and series, discrete math, and trigonometry

Instructional Focus: Discussion, group work, individual work

Algebra II B Grades: 09 - 12 College Prep: No Algebra 2A & 2B - FULL YEAR Intended Audience: Grades 10 -12 Prerequisite: Algebra 1A & 1B and Geometry A & B, or instructor/counselor approval Major Outcomes: • An extension of topics covered in Algebra 1A & 1B, including polynomials, exponentials, radicals, probability, and solving systems of equations • Apply new topics in real-world settings, such as logarithms, linear programming, number systems, sequences and series, discrete math, and trigonometry Instructional Focus: Discussion, group work, individual work	BCA4231 Credit: 0.167	Anatomy and Physiology Grades: 09 - 12 College Prep: No ANATOMY	BCA6220 Credit: 0.167

Managing Your Money A Grades: 10 - 12 College Prep: No Students will ask questions and learn about life skills they wouldn't usually ask or learn about in a traditional high school mathematics class. The course is interest-led, and students will have the control to direct their learning experience by choosing from various financial-based topics they want to focus on and learn more about. While making these empowering choices, students will improve their knowledge and understanding of money management topics such as loans, budgets, taxes, spending, interest, and many more. Students will exercise and improve their problem-solving and algebraic thinking through aligned financial literacy topics.
