To the Management and Board of Education Greensburg Salem School District

Independent Auditor's Report

Report on Financial Statements

I have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Greensburg Salem School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Greensburg Salem School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Greensburg Salem School District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Greensburg Salem School District as of June 30, 2020 and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages iv-ix and other required supplementary information on pages 46-53, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Greensburg Salem School District's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated February 23, 2021 on my consideration of the Greensburg Salem School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Greensburg Salem School District's internal control over financial reporting and compliance.

Mark C. Turnley, CPA

Mark Turnley

February 23, 2021 New Brighton, Pennsylvania

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement Number 34 Basic Financial Statements and Management's Discussion and Analysis for State & Local Governments.

The discussion and analysis of the Greensburg Salem School District's financial reporting provides an overall perspective of the District's financial activities for the fiscal year ended June 30, 2020. As this analysis is intended to be an overall District review, the readers should also examine the financial statements as well as the notes to the financial statements to enhance their understanding of the District's financial performance. Also, the District has provided comparative data for the prior year ended June 30, 2019 and the current year for this Management's Discussion and Analysis.

FINANCIAL STATEMENTS

The Annual Financial Report contains two different series of financial statements.

The first sequence of reports is the government-wide presentation of financial operations combining the governmental fund activities as well as separately reporting on the business-type activities of the District (proprietary fund). For the Greensburg Salem School District, the governmental funds are the General Fund and the Capital Projects Fund. These funds include all the District's primary services and programs such as instruction, administration and athletics. The Greensburg Salem School District operates one proprietary fund, which is the Food Services Fund. The various statements report the District's net position that include all assets and liabilities as well as the current year's revenues and expenses recorded on an accrual basis. The accrual basis of accounting recognizes resources and obligations as they are earned and incurred regardless of when cash is received or paid.

The second series of reports are fund specific and detail the individual operations within each governmental fund as well as the proprietary and fiduciary funds. Most of the District's financial activities are reported in the governmental funds as noted above. These funds are reported on a modified accrual accounting basis that focuses on 1) how cash and other financial assets that can be readily converted to cash, flow in and out and 2) the balances left at year-end that are available for spending. Accordingly, this basis of accounting details primarily short-term operations.

FINANCIAL STATEMENTS (Continued)

The proprietary fund statements account for District activities, which are similar to a business or the private sector operations. The focus of this fund is on net income and financial position. A significant portion of this income is derived from user charges. The District also operates a Fiduciary Fund that is excluded from government-wide reporting. The District serves as a trustee or fiduciary for scholarship funds and agency funds. These funds cannot be used to finance any other District operations.

FINANCIAL ANALYSIS – GOVERNMENT-WIDE STATEMENTS

The government-wide statements report financial and economic resource information on the full-accrual method regardless of when cash is received or paid.

The District's total assets and deferred outflows of resources are valued at \$40,397,073. Capital and other long-term assets, representing 71% of the government-wide assets, are valued at \$28,535,821 net of depreciation. The remaining 29% or \$11,861,252 of the District's government-wide assets is current assets such as cash/cash equivalents, investments and short-term receivables.

The District's governmental and business-type activity liabilities and deferred inflows of resources of \$96,558,093 are comprised of 10% (\$9,506,724) in current obligations and 90% (\$87,051,369) in long-term obligations. Current obligations consist primarily of accrued salaries and benefits as well as the current portion of long-term debt immediately due. The long-term obligations are bonds payable, net OPEB obligation, employee compensated absences, and the District's net pension obligation which requires the District to report its proportionate share of the Public-School Employees Retirement System (PSERS) net pension obligation, which for the Greensburg Salem School District totaled \$61,847,000 at June 30, 2020.

The School District's Long-Term Bonds Payable at June 30, 2020 totaled \$14,270,000. A portion of the District's debt service obligations are refunded by the state during the course of the year when payments are made. The district received reimbursements totaling \$470,210 during the 2019-2020 fiscal year.

The District's Net OPEB liability is \$10,138,044 as of June 30, 2020. Compensated absences increased in 2019-2020 from \$970,365 to \$1,010,201.

FINANCIAL ANALYSIS – GOVERNMENT-WIDE STATEMENTS (Continued)

On June 30, 2019, the District reported a net position deficit of (\$59,149,923). For the current year ended June 30, 2020, the District's net position deficit has improved to (\$56,161,020). As previously mentioned, the most significant portion of the District's deficit net position is its net pension liability of \$61,847,000 as a result of implementing Governmental Accounting Standards Board (GASB) Statement No. 68.

General revenues for governmental activities as displayed in the Statement of Activities for 2019/2020 compared to 2018/2019 are as follows:

Description	2018-2019	2019-2020	Increase/(Decrease)
Property and Other Taxes	\$24,065,342	\$24,276,365	\$ 211,023
Property Tax Relief	\$ 830,860	\$ 830,285	\$ (575)
Basic Subsidy	\$10,674,261	\$10,993,177	\$ 318,916
Investment Earnings	\$ 229,677	\$ 198,691	\$ (30,986)
Disposition of Fixed Assets	\$ 2,783	\$ 2,500	\$ (283)

The District's real estate tax millage increased to 89.72 for 2019-2020 year, an increase of 1.5 mills from the 2018-2019 year.

The Statement of Activities for the District details the current year's operations. The expenses are detailed by specific activity and include assigned depreciation, compensated absence and retiree health care liabilities. These items are non-cash outlays.

Expenses for the six (6) largest governmental activities, as displayed in the Statement of Activities, are as follows:

Description	2018-2019	2019-2020	Increase/(Decrease)
Instructional Services	\$29,519,814	\$29,367,145	\$ (152,669)
Institutional Student Support	\$ 3,813,745	\$ 3,937,719	\$ 123,974
Administrative/Financial Support	\$ 3,424,268	\$ 3,230,356	\$ (193,912)
Operation/Plant Services	\$ 4,192,757	\$ 4,123,230	\$ (69,527)
Pupil Transportation	\$ 2,466,343	\$ 1,854,232	\$ (612,111)
Student Activities	\$ 1,042,876	\$ 1,060,576	\$ 17,700

The above expenses reflect annual depreciation expense of \$1,146,816. Of note, salaries in all categories above, experienced a modest increase, while expenses for health insurance premiums and the state mandated employer PSERS contributions began to stabilize. This impacted all categories. Pupil Transportation decreased because of less days transported as a result of the pandemic closure last spring. Also, the District did not pay for personal care aide from mid-March to the end of the school year due to the pandemic closure. The decrease in administrative costs was mainly due to positions that were not filled or replaced at a lower salary.

FINANCIAL ANALYSIS – FUND STATEMENTS

Fund Balance is the amount of reserve or "equity" the District has accumulated over time and can be committed and/or assigned for a specific use or unassigned and considered available for appropriations as approved by the School Board.

The comparative change in Unassigned General Fund balance is as follows:

Fund Balance	2019-2020	2018-2019	Change
Unassigned	\$4,149,776	\$3,778,493	\$371,283

District revenue comes from three sources – local, state and federal. General Fund local revenue is primarily tax revenue from real estate and earned income and provided \$25,288,129 or 54% of the total revenue for the District. State revenue consists of subsidies that amounted to 43% or \$20,090,528 for the current year. Federal grant awards provided only 3% of the District's revenue. General Fund revenue for the current year was \$46,612,791 which was less than the previous year's amount of \$47,049,615. Current year revenue was spent for operating expenditures of \$44,963,403.

A comparison between the preceding and current year expenditures is as follows:

Program	2019-2020	2018-2019	Increase/ (Decrease)
Instruction	\$28,388,107	\$29,034,065	\$ (645,958)
Support Services	\$12,286,906	\$13,235,180	\$ (948,274)
Non-Instructional Services	\$1,051,065	\$1,044,409	\$ 6,656
Debt Service & Others	\$3,237,325	\$3,323,428	\$ (86,103)
Transfer to Capital Project Fund	\$1,523,581	\$1,280,000	\$ 243,581

The district's employer pension contribution increased \$241,720 or 3.96%, for 2019-20 to \$6,349,932 compared to \$6,108,212 in 2018-19. Tuition to the charter schools increased over the past year by 12.06% to \$2,008,039 due to an increased number of students enrolling in cyber charter schools. The District is looking at ways to get students back in our buildings to reduce our tuition costs. Our administration has begun an outreach program to contact parents of students enrolled in cyber charter schools in an effort to bring them back into our buildings. The District also continues to commit funds to improving the technology infrastructure and equipment for students and staff.

Overall, General Fund revenues exceeded expenditures by \$125,807 increasing the overall fund balance to \$4,217,289.

FUTURE ISSUES AND CONCERNS

Lack of additional state and federal revenues, causing continued strain on the local taxpayers continues to be the immediate concern. State support in the form of general fund revenues continue to fall well below costly state mandates, passing the burden onto the local economy. Real property assessed values have remained stable within the school district and have seen a decrease in the recent past due to appeals and purchases of property within the district by tax exempt entities. There are no significant developments on the horizon that would potentially increase the assessed value of our district tax rolls.

Personnel related expenses, such as salaries, health care and mandatory retirement contributions continue to stabilize, but continue to cause the District to budget additional funds for such increases. The District, through the work of the Westmoreland County Public School Healthcare Consortium, have contained health care costs to the district up to this point. However, health insurance rates increased by 5% for the 2020-2021 school year and are expected to increase even more in 2021-2022 due to the COVID-19 pandemic. Mandatory retirement contributions increased by 2.57% from 33.43% to 34.29% for the new fiscal year.

Student enrollment has been stable over the past few years throughout the District. Administration continues to evaluate curriculum, staffing levels and labor costs when preparing its annual budget. The District will continue collaborating with higher education and community and workplace leaders to have students prepared for college and/or career. The District has worked to give all students, including those with complex instructional needs, access to the district curriculum and PA standards. Providing the needed services and supports continue to significantly impact the district budgets. The District is always looking at ways to improve the educational experience for students while working within the framework of the budget.

The District's five-year labor agreement with the Greensburg Salem Education Association will expire on June 30, 2024. The labor agreement with the Maintenance and Custodial Workers – Local 506 will expire on June 30, 2021. The District has current board policies for secretaries, support staff and administrative staff that expired June 30, 2020 and were extended one year until June 30, 2021.

FUTURE ISSUES AND CONCERNS (Continued)

Finally, the district continues to assess its aging facilities. The District's Buildings and Grounds Committee and the Board of School Directors continue to commit a portion of the annual general operating budget and unused fund balance to address immediate needs within the facilities. The development of short term and long-term facilities recommendations has begun. The District continues to look at ways to fund needed capital improvements while working within the framework of the budget.

James R. Dzurica James R. Dzurica, CPA Business Manager

GREENSBURG SALEM SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2020

Total Fund Balances - Governmental Funds	\$	4,508,364
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of assets is \$75,921,493 and the accumulated depreciation is \$57,241,890.		18,679,603
Property and wage taxes receivable in the statement of net position, which will not be available soon enough to pay for the current period's expenditures, are deferred and not recognized as revenue in governmental funds.		750,000
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds.		
Deferred outflows of resources related to pensions		7,447,878
Deferred outflows of resources related to OPEB		2,272,683
Deferred inflows of resources related to pensions		(2,262,000)
Deferred inflows of resources related to OPEB		(440,901)
Long term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year end consist of:		
Bonds payable \$ 14,270,000 Accrued interest on the bonds 167,941 Unamortized bond discount costs (58,032 Bond premiums 76,255 Net Pension Liability 61,847,000 Net OPEB liability 10,138,044)	

Compensated absences

GREENSBURG SALEM SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES **TO THE STATEMENT OF ACTIVITIES** FOR THE YEAR ENDED JUNE 30, 2020

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (184,610)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$2,049,430) exceeds depreciation expenses (\$1,146,816) in the period.	902,614
Governmental funds report district pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	(425,117)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	2,805,000
Bond premiums are reported in governmental funds as revenues. However, in the statement of activities, this amount is capitalized and is accreted over the life of the bond issue as interest expense.	50,844
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest	
expense is recognized as the interest accrues, regardless of when it is due.	41,300
Bond discount costs are reported in governmental funds as expenditures. However, in the statement of activities, these costs are capitalized and	(45.040)
amortized over the life of the bond issue and charged to interest expense. In the statement of activities, certain operating expenses - compensated absences and retiree health benefits - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items	(15,648)
are measured by the amount of financial resources used (paid). This year, compensated absences and retiree health benefits earned exceeded the amount paid.	(360,870)
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 2,813,513

NOTE 1 – SUMMARY OF SIGNIGICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Greensburg Salem School District was established under the authority of an act of the state legislature that designated a school board as the governing body. This district serves the surrounding municipalities that include the City of Greensburg, the Township of Salem and the Boroughs of Delmont (Annex), South Greensburg and South West Greensburg. The School District operates under a locally-elected nine-member Board form of government and provides educational services as mandated by the Commonwealth of Pennsylvania and selected federal agencies. The Board of Education has complete authority over the operations and administration of the school district's activities.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of the Greensburg Salem School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. Generally accepted accounting principles defines component units as legally separate entities that are included in the School District's reporting entity because of the significance of their operating or financial relationships with the School District. Based on the application of these criteria, the Greensburg Salem School District has no component units.

The School District is associated with two jointly governed organizations (Note 12) and one public entity risk pool (Note 13). These organizations are:

- Jointly Governed Organizations:
 Central Westmoreland Career and Technology Center
 Westmoreland Intermediate Unit #7
- Public Entity Risk Pool: Westmoreland County Public School Healthcare Consortium

The financial statements of the Greensburg Salem School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The most significant of the School District's accounting policies are as follows:

FINANCIAL STATEMENT PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS – The statement of net position (Exhibit A) and the statement of activities (Exhibit B) display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. That is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations (Exhibit D and F) with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FINANCIAL STATEMENT PRESENTATION (Continued)

The government-wide statement of activities (Exhibit B) presents a comparison between direct expenses and program revenues for the District's business-type activities (food service operations) and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which the business-type activity or government function is self-financing or draws from the general revenues of the School District.

FUND FINANCIAL STATEMENTS – Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Major funds represent the School District's most important funds and are determined based on percentages of assets, liabilities, revenues, and expenditures/expenses. For the Greensburg Salem School District, the General Fund is always considered a major fund. Each major fund is presented in a separate column. Non-major funds are segregated and presented in a single column. Fiduciary funds are reported by fund type.

BASIS OF ACCOUNTING AND MEASUREMENT FOCUS

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in fund net position presents increases (revenues) and decreases (expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING AND MEASUREMENT FOCUS (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Revenue resulting from non-exchange transactions, in which the School District receives value without directly giving equal value in return, includes property taxes, grants and contributions. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and contributions are recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be 'available' before it can be recognized.

The management of the Greensburg Salem School District has determined that the revenues most susceptible to accrual (measurable and available) at June 30, 2020 under the modified accrual basis are 1) certain Act 511 taxes collected by the district within 30 days following the close of the fiscal year, 2) federal and state subsidies earned in the fiscal year 2018-2019, and 3) other miscellaneous revenues earned in fiscal year 2019-2020 but received subsequent to June 30, 2020. On the governmental fund financial statements, delinquent real estate taxes receivables that will not be collected within the 'available' period have been reported as 'deferred inflows of resources'.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. The primary expenditures deemed susceptible to accrual at June 30, 2020, are those for which the Board of Education's intention was to expense these items as budgeted for the 2019-2020 official budget, and for which the District has incurred an obligation, but has not paid as of June 30, 2020.

Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds but are included as part of expenses in the government-wide statement of activities. Unused donated commodities are reported as unearned revenue.

FUND ACCOUNTING

The School District uses funds to report on its financial position and the results of its operations during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary and fiduciary. Fund categories are defined as follows:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND ACCOUNTING (Continued)

<u>Governmental Funds</u> – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

MAJOR GOVERNMENTAL FUNDS:

GENERAL FUND - The general fund is used to account for all financial resources not required to be accounted for in some other fund. The general fund balance is available for any purpose provided it is expended according to the Commonwealth of Pennsylvania Public School Code.

CAPITAL PROJECT FUND - The capital project fund accounts for financial resources used for the acquisition, construction, or improvement of capital facilities and other assets financed through the issuance of general obligation bonds.

<u>Proprietary Funds</u> - used to account for activities similar to those found in the private sector, where the determination of net income is necessary and useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies within the School District (internal service funds). The School District's major and sole enterprise fund is its Food Service Fund that accounts for the financial transactions related to the food service operations of the District.

Fiduciary Funds – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature and do not involve measuring income or any other results from operations. The School District maintains one private-purpose trust fund. The private-purpose trust fund accounts for student scholarships and is funded through the Theobald Scholarship Fund. The District also maintains an Agency Fund which accounts for various student organization activity accounts administered by the District on behalf of the various student organizations.

BUDGETS

On June 19, 2019, the Greensburg Salem District adopted its fiscal year June 30, 2020 annual budget for the General Fund totaling \$47,177,010, in accordance with the provisions of the Pennsylvania School Code. The budget is prepared utilizing the modified accrual method of accounting. The original and adjusted budgetary amounts are reflected in these financial statements (Exhibit G). All annual appropriations of the general fund lapse at fiscal yearend.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BUDGETS (Continued)

The School District uses the following procedures in establishing this budgetary data:

- a. Prior to May of the preceding fiscal year, the school district prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the revenues and other sources of funds used to finance these expenditures.
- b. At least 20 days prior to the date set for budget adoption, the budget is made available for public inspection.
- c. A meeting of the Board of Education is then held for the purpose of adopting the proposed budget. The meeting may only be held after 10 days of public notification.
- d. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board of Education.
- e. The budget must be filed with the Commonwealth of Pennsylvania, Department of Education by July 15 of the fiscal year or within 30 days of adoption.
- f. Budgetary transfers are permitted after the first 90 days of the school district's fiscal year.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include amounts in demand deposit accounts and any other highly liquid, short-term investments, with original maturity terms of less than three months.

INVESTMENTS

Under Section 440.1 of the Pennsylvania Public School Code of 1949, as amended, and PA Act 10 of 2016, Greensburg Salem School District is permitted to invest funds consistent with sound business practices in the following types of investments:

- I. Obligations of (a) the United States of American or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or (c) of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- **II.** Deposits in savings accounts, time deposits and share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral, as provided by law, is pledged by the depository.
- **III.** U.S. government obligations, short-term commercial paper issued by a public corporation, and banker's acceptances.

Investments of the Greensburg Salem School District include deposits pooled for investment purposes with the Pennsylvania Local Government Investment Trust (PLGIT). Investments are reported at amortized cost which approximates fair value.

There were no deposit and investment transactions during the year that were in violation of state statues.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as 'due from/to other funds' on the governmental funds balance sheet. For the purposes of the government-wide statement of net position, governmental interfund receivables and payables have been eliminated. Amounts due between governmental activities and business-type activities, if any, are presented as off-setting internal balances on the statement of activities.

INVENTORIES

Inventories on the government-wide statement of net position (Exhibit A) and the proprietary fund statement of net position (Exhibit H) are recorded at fair value on a first-in first-out basis. This inventory consists of donated commodities from the U.S. Department of Agriculture as part of the food service program. The School District does not inventory the cost of such items as books and supplies, but rather records these items as expenditures in the governmental funds and an expense in the government-wide statement of activities at the time of purchase.

CAPITAL ASSETS AND DEPRECIATION

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the governmental activities' column of the government-wide statement of net position. Capital assets purchased by governmental activity type funds, used by the proprietary fund, are reported in the government-wide statement of net position as governmental activity capital assets.

All capital assets are recorded at cost (or estimated historical cost). Donated fixed assets are recorded at fair value at the time of receipt. The School District maintains a capitalization threshold of \$5,000. The School District does not have any infrastructure. Routine repair and maintenance costs that do not add to the value of the asset or extend its useful life are charged as an expense in the government-wide statement of activities. All reported capital assets, except land and construction in progress, are depreciated using the straight-line method using ½ year convention over the following useful lives:

CATEGORY	ESTIMATED LIVES
CATEGORI	
Site Improvements	20 years
Buildings and Improvements	20-50 Years
Furniture and Equipment	5-20 years
Vehicles	8 Years
Library Books and Software	6 Years
Library Books and Software	o rears

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets purchased by governmental funds are recorded as expenditures in the fund financial statements (Exhibit E). The results of capitalizing fixed assets net of depreciation on the government-wide statement of net position and statement of activities, as opposed to recording these same assets as an expenditure in the fund financial statements (Exhibit E), is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

LONG-TERM DEBT FINANCING COSTS

Bond and note issue costs are recorded as expenditures in the governmental fund financial statements in the year paid. The School District did not incur any bond/note closing costs during the 2019-2020 fiscal year.

COMPENSATED ABSENCES

The School District reports compensated absences in accordance with the provisions of GASB Statements. Vacation benefits are accrued based on the District employee's current rate of pay multiplied by the number of unused vacation days earned, within certain parameters, as described in the District's various collective bargaining agreements. Sick leave benefits are accrued as a liability at the time individuals become eligible for retirement in accordance with the terms of the District's collective bargaining agreements. District employees are entitled to the following rate of reimbursement for each day of accumulated leave:

	Days Per	Rate
	Year	Per Day
Administrators	13	\$100/day
Support Service Personnel	13	\$50/day
Teachers	10	\$50/day
Secretaries and Aides	13	\$25/day
Custodians and Maintenance Personnel	12	\$25/day

Un-used sick days accumulate indefinitely. Employees are also entitled to two (2) personal days per year, which if unused, are added to the employee's un-used sick day amount in the following year. Administrators with five (5) or more years of administrative service within the District are entitled to a third personal day. The entire compensated absences liability of \$1,010,201 is shown in the government-wide statement of net position (Exhibit A) as follows:

	Long	Short	
	Term	Term	Total
Vacation Days	\$ 207,044	\$ 6,000	\$ 213,044
Sick Days	753,157	44,000	797,157
	\$ 960,201	\$ 50,000	\$ 1,010,201

For governmental fund financial statements, compensated absences are recorded as expenditures when paid rather than accrued when earned as the likelihood of payment in the immediate fiscal year with available expendable resources is not assured.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PENSIONS

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS), and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment assets are reported at fair value. More information on pension activity is included in Note 10.

OTHER POSTEMPLOYMENT BENEFITS

For the purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS), and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment assets are reported at fair value. More information on other postemployment benefits activity is included in Note 11.

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all similar obligations of the proprietary fund, if any, are reported again on the proprietary fund financial statement of net position (Exhibit H). In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the non-current portion of compensated absences and retiree health benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. The District's General Fund is typically used to liquidate long-term liability obligations.

The results of recognizing these long-term obligations as liabilities on the government-wide statement of net position and statement of activities, as opposed to recording these same obligations as an expenditure in the fund financial statements (Exhibit E) only when paid, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

UNEARNED REVENUE

Unearned revenue arises when the District receives resources before it has legal claim to them. This occurs when grant monies are received prior to the incurrence of qualifying expenses. In subsequent periods, when both revenue recognition criteria are met, or when the School District has legal claim to the resources, the unearned revenue liability is removed and revenue is recognized.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

In addition to assets and liabilities, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred outflows and/or inflows of resources. These separate financial statement elements represent a decrease and/or increase in net position that applies to a future period and so will not be recognized as an outflow and/or inflow of resources (expense/expenditure or income/revenue) in the current period.

NET POSITION

Net position is classified into three categories according to external donor or legal restrictions or availability of assets to satisfy District obligations. Net position is classified as follows:

- Net Investment in Capital Assets This component of net position consists of capital assets net
 of accumulated depreciation, and reduced by the outstanding balances of debt that is attributable
 to the acquisition, construction and improvement of the capital assets, plus deferred outflows of
 resources less deferred inflows of resources related to those assets.
- Restricted Net Position This component of net position consists of restricted assets reduced by liabilities and deferred inflows related to those assets. The District's restricted net position of \$66,081 represents monies on hand with Wells Fargo Bank dedicated for debt service obligations.
- Unrestricted Consists of net position that does not meet the definition of 'restricted' or 'net investment in capital assets'. As of June 30, 2020, the District maintained a deficit unrestricted net position of \$57,819,138.

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the School District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

FUND EQUITY

In the Balance Sheet – Governmental Funds (Exhibit C), fund balances are reported in specific categories to make the nature and extent of the constraints placed on any entity's fund balance more transparent in accordance with GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in a spendable form (such as inventory and prepaid expenses) or are required to be maintained intact
- Restricted fund balance amounts constrained to specific purposes by their providers (such as
 grantors, bondholders, and high levels of government), through constitutional provisions, or by
 enabling legislation. The District's restricted fund balance of \$66,081 represents monies on hand
 with Wells Fargo Bank dedicated for debt service obligations.
- Committed fund balance amounts constrained to specific purposes by the School District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the School District takes the same highest-level action to remove or change the constraint.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND EQUITY (Continued)

- Assigned fund balance amounts the School District intends to use for a specific purpose; intent
 can be expressed by the governing body or by an official or body to which the governing body
 delegates the authority.
- Unassigned fund balance amounts that are available for any purpose

Act 48 of 2003 prohibits school districts from increasing real property taxes beyond the annual index increase permitted by law, unless the school district has adopted a budget for such school year that includes an estimated ending unassigned fund balance which is not more than a specified percentage of the district's total budgeted expenditures. For the Greensburg Salem School District, estimated ending unassigned fund balance must not exceed 8% of total budgeted expenditures.

The School District establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. The Board of Education has given authority to assign fund balance to the Business Manager.

When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend the committed resources first, followed by assigned amounts and then unassigned amounts.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the District's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Greensburg Salem School District, these revenues are food service charges for lunch and breakfast service. Operating expenses are the necessary costs incurred to provide the aforementioned food service. Non-operating revenues of the District's food service proprietary fund are state and federal subsidies, including donated commodities, received from the U.S. Department of Agriculture. The District did not have non-operating expenses during the fiscal year.

PENDING GASB PRONOUNCEMENTS

GASB issued Statement No. 84, 'Fiduciary Activities'. The primary objective of this Statement is to enhance the consistency and comparability of fiduciary activity reporting by state and local governments. This Statement also is intended to improve the usefulness of fiduciary activity information primarily for assessing the accountability of governments in their roles as fiduciaries. The provisions of this Statement are effective for the School District's June 30, 2021 financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PENDING GASB PROUNOUNCEMENTS (Continued)

GASB issued Statement No. 87, 'Leases'. The primary objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases; enhancing the comparability of financial statements between governments; and also enhancing the relevance, reliability (representational faithfulness), and consistency of information about the leasing activities of governments. The provisions of this Statement are effective for the School District's June 30, 2022 financial statements.

GASB issued Statement No. 89, 'Accounting for Interest Cost Incurred before the end of a Construction Period'. The primary objectives of this Statement are (a) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and, (b) to simplify accounting for certain interest costs. The provisions of this Statement are effective for the School District's June 30, 2022 financial statements.

GASB issued Statement No. 90, 'Majority Equity Interests (an amendment of GASB Statements No. 14 and No. 61'. The primary objectives of this Statement are to improve consistency in the measurement and comparability of the financial statement presentation of majority equity interests in legally separate organizations and to improve the relevance of financial statement information for certain component units. The provisions of this Statement are effective for the School District's June 30, 2021 financial statements.

GASB issued Statement No. 91, 'Conduit Debt Obligations'. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The provisions of this Statement are effective for the School District's June 30, 2023 financial statements.

GASB Statement No. 92, 'Omnibus 2020'. The primary objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of GASB Statement Nos. 73, 74, 84, and 87. In addition the Statement addresses various topics and includes specific provisions concerning the following:

- Measurement of liabilities (and assets, if any) related to asset retirement obligations (ARO') in a government acquisition
- Reporting by entity risk pools for amounts that are recoverable from reinsurers or excess insurers
- Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature
- Terminology used to refer to derivative instruments

The provisions of this statement are effective for the School District's June 30, 2022 financial statements.

GASB Statement No. 93, 'Replacement of Interbank Offered Rates'. The primary objectives of this Statement are to address the accounting and financial reporting implications that result from the replacement of an interbank offering rate (IBOR). The provisions of this Statement are effective for the School District's June 30, 2022 financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PENDING GASB PROUNOUNCEMENTS (Continued)

GASB Statement No. 94, 'Public-Private and Public-Public Partnerships and Availability Payment Arrangements'. The primary objectives of this Statement are to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs), and provide guidance for accounting and financial reporting for availability payment arrangements (APAs). The provisions of this Statement are effective for the School District's June 30, 2023 financial statements.

The implementation dates of the aforementioned pending GASB Statements have been updated to include the delayed implementation dates as set forth in recently issued (May 2020) GASB Statement No. 95. The effects of implementing these Statements on the School District's financial statements have not yet been determined.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS

CASH DEPOSITS:

At June 30, 2020, Greensburg Salem School District had the following carrying values on its cash and cash equivalents accounts:

	Bank	Carrying
	Balance	Value
General Fund	\$ 5,793,318	\$ 5,642,209
Capital Projects Fund	1,207,852	327,039
Enterprise Fund	223,403	223,122
Fiduciary Funds	159,010	152,619
Fiduciary Funds CDs	94,302	94,302
	\$ 7,477,885	\$ 6,439,291

Due to its maturity term, the above Fiduciary Fund certificate of deposit totaling \$94,302 is shown as an investment in the accompanying financial statements. The difference between the bank balance and the carrying value represents year-end reconciling items such as deposits in transit, outstanding checks, and petty cash. The Federal Deposit Insurance Corporation (FDIC) coverage threshold for government accounts is \$250,000 per official custodian. This coverage includes checking and savings accounts, money market deposit accounts, and certificates of deposit.

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's investment policy complies with Section 440.1 of the Public School Code of 1949 with the primary objectives being safety, liquidity and yield. As of June 30, 2020, \$7,227,885 of the School District's bank balance total is exposed to custodial credit risk as this amount represents uninsured deposits collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the School District's name. The District's investment policy requires a written safe keeping agreement and/or Act 72 agreement with each financial institution acting as depository. In accordance with Act Number 72-1971 Session of the Commonwealth of Pennsylvania, the aforementioned deposits, in excess of \$250,000, are collateralized by securities pledged to a pooled public funds account with the Federal Reserve System.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

INVESTMENTS:

The fair value and maturity term of the District's investments as of June 30, 2020 are as follows:

	Fair Value	No Stated Maturity
Governmental:		
PLGIT	\$ 2,047,414	\$ 2,047,414
WELLS FARGO	66,081	66,081
	\$ 2,113,495	\$ 2,113,495

Investments held in external investment pools such as PLGIT are not subject to the provisions of fair value measurements as they are recorded at amortized cost and/or cost. Investments with Wells Fargo Bank are held in a collateralized bank deposit account not subject to fair value measurement.

The purpose of the Pennsylvania Local Government Investment Trust (PLGIT) is to enable their available funds for investments authorized under the Intergovernmental Cooperation Act of 1972. The funds operate in a manner consistent with the SEC's Rule 2(a)7 of the Investment Company Act of 1940. The funds use amortized cost to report net position to compute share prices. These funds maintain net asset values of \$1 per share. Accordingly, the fair value of the position in these funds is the same as the value of these shares.

Custodial Credit Risk:

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District's investments in PLGIT, which have the characteristics of open-end mutual funds, and are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. Investments with Wells Fargo Bank are held in a collateralized bank deposit account. The School District does not have a policy that would limit its investment choices to those with certain credit ratings.

Interest Rate Risk:

The School District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District has no formal policy, in addition to the requirements of the Pennsylvania School Code that limits its investment choices based on credit ratings by nationally recognized rating organizations. As of June 30, 2020, PLGIT were rated AAAm by the Standard & Poors nationally recognized statistical rating organization.

NOTE 3 - PROPERTY TAXES

The Greensburg Salem School District levies property taxes July 1 of each fiscal year. The tax millage assessment for the 2019-2020 fiscal year was 89.72 mills, which represents \$89.72 of revenue for every \$1,000 of assessed property value. Taxpayers are entitled to a 2% discount if taxes are paid prior to October 1st. Collections beginning December 1st are assessed a 10% penalty. Unpaid taxes are submitted to the Westmoreland County Tax Claim Bureau for collection. Tax collectors are required under Act 169 of the Commonwealth of Pennsylvania to submit a reconciliation of their tax duplicate to the District by January 15th of the year following levy.

Taxes receivable as shown in the government-wide statement of net position includes delinquent property taxes of \$1,966,752 net of an allowance for doubtful accounts of \$1,216,752. The allowance amount represents management's estimate of prior year property taxes considered un-collectible based on past collection experience. For purposes of the governmental fund financial statements, \$750,000 of the above property taxes receivable (net), although measurable, does not meet the available criteria to finance current fiscal year operations. Accordingly, this amount is equally off-set as a credit to deferred inflows of resources in the fund financial statements.

The effect of recognizing property tax revenue when taxes are levied, as opposed to when they are received using the 'measurable and available' criteria under the modified accrual basis of accounting, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F). Taxes receivable are comprised of the following at June 30, 2020:

Delinquent Property Taxes (Net	\$ 750,000
Wage Taxes and LST Taxes	150,072
Deed Transfer Taxes	14,041
Real Estate - Interim	353
Per Capita	429
	\$ 914,895

NOTE 4 – DUE FROM OTHER GOVERNMENTS

The amount of 'due from other governments', as reflected on the government-wide statement of net position and the governmental funds balance sheet, is comprised of the following:

	\$ 2,619,000
Tuition/Transportation - Other LEAs	 66,508
Federal Pass-Through Grants	872,498
State Subsidies	\$ 1,679,994
Commonwealth of Pennsylvania:	

NOTE 5 - OTHER ACCOUNTS RECEIVABLE

The amount of 'other accounts receivable', as reflected on the government-wide statement of net position and the governmental funds balance sheet, is comprised of the following:

	Governmental Activities		Business-Type Activities	
Due from Students	\$	-	\$	15,194
Reimbursements/Other		4,754		<u>-</u>
	\$	4,754	\$	15,194

NOTE 6 - UNEARNED REVENUE

Unearned revenue is comprised of the following:

	 ernmental ctivities	usiness Type ctivities
Local Grant Funds	\$ 196,742	\$ -
Federal Grant Funds	26,728	-
Due to Students	-	17,268
Donated Commodities	-	112
	\$ 223,470	\$ 17,380

NOTE 7 - OTHER CURRENT LIABILITIES

The 'other current liabilities' balance of \$5,482 represents various scholarship funds maintained by the District as an agent for the private donors.

NOTE 8 - CAPITAL ASSETS

A summary of the governmental fixed asset activity for the 2019-2020 fiscal year was as follows:

		Balance						Balance
	6/	30/2019		Additions	De	ductions	6	/30/2020
Governmental Activities								
Land	\$	5,001,622	\$	-	\$	-	\$	5,001,622

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 386,538
Instructional Student Support	168,330
Administrative and Financial Support Services	15,464
Operation and Maintenance of Plant Services	553,967
Student Activities	22,517
	\$ 1,146,816

NOTE 9 - LONG-TERM LIABILITIES

GENERAL OBLIGATION BONDS – SERIES OF 2013

In April of 2013, the Greensburg Salem School District issued General Obligation Bonds, Series of 2013 in the amount of \$7,075,000, the proceeds to be derived by the School District from the issuance and sale of the Bonds will be used by the School District for 1) refunding, on an advanced refunding basis, a \$6,095,000 portion of the School District's General Obligation Bonds, Series of 2010, currently outstanding in the aggregate principal amount of \$6,880,000, 2) various capital projects throughout the District, and 3) paying all costs and expenses incurred by the School District in connection with the issuance and sale of the bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and July 1 each year through maturity. Interest rates range between 0.420% and 2.125% with the bonds maturing on January 1, 2024. The bonds provide for early redemption options for the school district as more fully described in the detailed Official Statement.

GENERAL OBLIGATION BONDS – SERIES A OF 2015

In September of 2015, the Greensburg Salem School District issued General Obligation Bonds, Series A of 2015 in the amount of \$6,370,000, the proceeds to be derived by the School District from the issuance and sale of the Bonds will be used by the School District for 1) refunding, on a current refunding basis, the School District's General Obligation Bonds, Series B of 2011, currently outstanding in the aggregate principal amount of \$2,950,000, 2) refunding, on a current refunding basis, the School District's General Obligation Bonds, Series C of 2011, currently outstanding in the aggregate principal amount of \$3,140,000, and 3) paying all costs and expenses incurred by the School District in connection with the issuance and sale of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and July 1 each year through maturity. Interest rates range between 1.110% and 2.625% with the bonds maturing on January 1, 2026. The bonds provide for early redemption options for the school district as more fully described in the detailed Official Statement.

GENERAL OBLIGATION BONDS – SERIES B OF 2015

In October of 2015, the Greensburg Salem School District issued General Obligation Bonds, Series B of 2015 in the amount of \$6,125,000, the proceeds to be derived by the School District from the issuance and sale of the Bonds will be used by the School District for 1) refunding, on a current refunding basis, the School District's General Obligation Bonds, Series A of 2011, currently outstanding in the aggregate principal amount of \$6,200,000, and 2) paying all costs and expenses incurred by the School District in connection with the issuance and sale of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and July 1 each year through maturity. Interest rates range between 2% and 2.0% with the bonds maturing on January 1, 2022. The bonds provide for early redemption options for the school district as more fully described in the detailed Official Statement

DEFAULT PROVISIONS - GENERAL OBLIGATION BONDS

In the event of failure of the School District to pay or cause to be paid the interest on or principal of the Bonds, as the same becomes due and payable, the holders of the Bonds shall be entitled to certain remedies provided by the Local Government Unit Debt Act. Among the remedies, if the failure to pay shall continue for 30 days, holders of the Bonds shall have the right to recover the amount due by bringing an action in assumpsit in the Court of Common Pleas of Westmoreland County. The Act provides any judgement shall have an appropriate priority upon the funds next coming into the treasury of the School District. The Act also provides that upon a default of at least 30 days, holders of at least 25 percent of the Bonds may appoint a trustee to represent them. The Act provides certain other remedies in the event of default, and further qualifies the remedies described.

NOTE 9 - LONG-TERM LIABILITIES (Continued)

A summary of the Greensburg Salem School District's general obligation bonds outstanding at June 30, 2020 is as follows:

Year End	2013	2015A	2015B	Total	
<u>June 30,</u>	<u>Principal</u>	Principal	Principal	<u>Interest</u>	Total
2021	\$ 500,000	\$ 85,000	\$ 2,300,000	335,880	\$ 3,220,880
2022	1,865,000	95,000	665,000	254,180	2,879,180
2023	2,450,000	90,000	-	201,680	2,741,680
2024	1,135,000	1,455,000	-	150,656	2,740,656
2025	-	2,645,000	-	91,982	2,736,982
2026	-	985,000	-	25,856	1,010,856
	\$ 5,950,000	\$ 5,355,000	\$ 2,965,000	\$ 1,060,234	\$ 15,330,234

In connection with the School District's various general obligation bond issues, the District paid approximately \$227,822 in bond discounts. These costs are being amortized on a straight-line basis over the life of the bond issue. The unamortized amount of bond discount totaling \$58,032 is reflected as a component of 'Bonds Payable – Long-Term Portion (Net)' in the governmental activities' column on the government-wide statement of net position. Amortization expense for the year ended June 30, 2020 was \$15,648. This amount was charged to the 'Interest on Long-Term Debt' expense category in the statement of activities.

The School District's various general obligation bond issues were issued at premiums totaling \$1,306,787. The premium is being accreted as a component of interest expense on the straight-line basis over the life of the bond issue. The un-accreted amount of bond premium totaling \$76,255 is reflected as a component of 'Bonds Payable – Long-Term Portion (Net)', in the governmental activities' column on the government-wide statement of net position. Premium accretion for the year ended June 30, 2020 was \$50,844. This amount was credited to the 'Interest on Long-Term Debt' expense category in the statement of activities.

The following represents the changes in the District's long-term liabilities during the 2019-2020 fiscal year:

	Balance			Balance	Due Within
	7/1/2019	Additions	Reductions	6/30/2020	One Year
General Obligation Bonds	\$ 17,075,000	\$ -	\$ 2,805,000	\$ 14,270,000	\$ 2,885,000
Net Pension Liability	63,031,000	-	1,184,000	61,847,000	-
Net OPEB Obligation	8,805,261	1,332,783	-	10,138,044	-
Compensated Absences	970,365	122,295	82,459	1,010,201	50,000
	\$ 89,881,626	\$ 1,455,078	\$ 4,071,459	\$ 87,265,245	\$ 2,935,000

NOTE 10 – PENSION PLAN

The Greensburg Salem School District participates in the Public School Employees' Retirement System (PSERS). PSERS is a component unit of the Commonwealth of Pennsylvania. A brief description of the plan, and summary of the plan's provisions, are as follows:

Plan Description

PSERS is a governmental cost-sharing multiple-employer defined-benefit plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with a least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of three years of service or attain a total combination of age and service that is equal to or greater than ninety-two with a minimum of thirty-five years of service.

Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

NOTE 10 - PENSION PLAN (Continued)

Contribution Rates

Members who joined the System after June 30, 2001 and before June 1, 2011, contribute at 7.5% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002. Members who joined the System after June 30, 2011 automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation.

All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a 'shared risk' provision in Act 120 of 2010 that in future years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.30%.

Employer Contributions – Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2020, the rate of employer's contribution was 33.45% (33.36% employer pension rate and .09% Act 5 defined contribution rate) of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the employer were \$6,119,878 for the year ended June 30, 2020.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2020, the School District reported a liability of \$61,847,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2018 to June 30, 2019. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019 (the measurement date), the School District's proportion was .1322% which was an increase of .0009% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the School District recognized pension expense of \$6,619,495. At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows		Deferred Inflows	
	of	Resources	of Resources	
Difference between expected and			`	_
actual experience	\$	341,000	\$	2,050,000
Changes in assumptions		591,000		-
Net difference between projected and				
actual investment earnings		-		177,000
Changes in proportions		396,000		35,000
Contributions subsequent to the				
measurement date		6,119,878		
	\$	7,447,878	\$	2,262,000

NOTE 10 - PENSION PLAN (Continued)

The \$6,119,878 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred inflows/outflows of resources related to pensions will be recognized in pension expense as follows:

Measurement Date Year ended	Reporting Date Year ended	
June 30,	June 30,	Amount
2020	2021	\$ 407,000
2021	2022	(934,000)
2022	2023	(515,000)
2023	2024	108,000

Actuarial Assumptions

The total pension liability as of June 30, 2019 was determined by rolling forward the System's total pension liability as of the June 30, 2018 to June 30, 2019 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay
- Investment return 7.25%, includes inflation at 2.75%
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study that was performed for the five-year period ending June 30, 2015.

Investment Asset Allocation

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

NOTE 10 - PENSION PLAN (Continued)

Investment Asset Allocation (Continued)

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global public equity	20.0%	5.60%
Fixed Income	36.0%	1.90%
Commodities	8.0%	2.70%
Absolute return	10.0%	3.40%
Risk parity	10.0%	4.10%
Infrastructure/MLP's	8.0%	5.50%
Real estate	10.0%	4.10%
Alternative investments	15.0%	7.40%
Cash	3.0%	0.30%
Financing (LIBOR)	-20.0%	0.70%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2018.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	6.25%	 7.25%	 8.25%
School District's proportionate share of	 _		
the net pension liability	\$ 77,037,000	\$ 61,847,000	\$ 48,984,000

Pension plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION

PSERS – HEALTH INSURANCE PREMIUM ASSISTANCE PROGRAM

General Information about the Health Insurance Premium Assistance Program

PSERS provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who quality and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium.

Premium Assistance Eligibility Criteria

Retirees of the System (PSERS) can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program

Plan Description

Greensburg Salem School District employees participate in the PSERS – Health Insurance Premium Assistance program, which is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. The members eligible to participate in the System include all full-time public-school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance eligible retirees must obtain their health insurance coverage through either their school employer or PSER's Health Options Program. As of June 30, 2019, there were no assumed future benefit increases to participating eligible retirees.

Contributions

The District's contractually required contribution for the fiscal year ended June 30, 2020 was 0.84% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. During the 2019-2020 fiscal year, the Greensburg Salem School District contributed \$153,683 to the premium assistance program.

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

PSERS – HEALTH INSURANCE PREMIUM ASSISTANCE PROGRAM (Continued)

OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of \$2,812,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2018 to June 30, 2019. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2019 (the measurement date), the School District's proportion was .1322% which was an increase of .0009% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, Greensburg Salem School District recognized OPEB expense of a \$142,467. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	red Outflows Resources	 red Inflows Resources
Difference between projected and		
actual investment earnings	\$ 16,000	\$ -
Changes in proportions	21,000	-
Difference between expected and		
actual experience	5,000	-
Changes in assumptions	93,000	84,000
Contributions subsequent to the		
measurement date	 153,683	 -
	\$ 288,683	\$ 84,000

The \$153,683 reported as deferred outflows of resources related to OPEB resulted from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the measurement year ended June 30, 2020. Other amounts reported as deferred inflows/outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement Date	Reporting Date		
Year ended	Year ended	Amo	ortization
June 30,	June 30,	Aı	mount
2020	2021	\$	5,000
2021	2022		5,000
2022	2023		4,000
2023	2024		3,000
2024	2025		23,000
Thereafter	Thereafter		11,000

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

PSERS - HEALTH INSURANCE PREMIUM ASSISTANCE PROGRAM (Continued)

Actuarial assumptions

The Total OPEB liability as of June 30, 2019, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2018 to June 30, 2019 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial Cost Method Entry Age Normal level % of pay
- Investment Return 2.79% based on the S&P 20 Year Municipal Bond Rate.
- Salary Increases Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

Investment Asset Allocation

Investments consist primarily of short-term assets designed to protect the principal of plan assts. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code, employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	13.2%	0.20%
U.S. Core Fixed Income	83.1%	1.00%
Non-US Developed Fixed	3.7%	0.00%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2019.

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

PSERS - HEALTH INSURANCE PREMIUM ASSISTANCE PROGRAM (Continued)

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.79%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.79% which represents the S&P 20-year Municipal Bond Rate at June 30, 2019, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the Net OPEB liability to changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.79%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.79%) or 1-percentage-point higher (3.79%) than the current rate:

	1%		Current Discount		1%	
	Decrease		Rate		Increase	
	 1.79%		2.79%		3.79%	
Net OPEB Liability	\$ 3,203,000	\$	2,812,000	\$	2,487,000	

Sensitivity of the Net OPEB liability to changes in the Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2019, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2019, 93,339 retirees were receiving the maximum amount allowed of \$1,200 per year and 780 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the net OPEB liability of the District as of the June 30 2019 measurement date, calculated using current Healthcare cost trends as well as what the District net OPEB liability would be if its health cost trends were 1-percentage point lower or 1-percentage-point higher than the current healthcare cost trend rate:

			Current	
		1%	Trend	1%
	ı	Decrease	Rates	Increase
Net OPEB Liability	\$	2,811,000	\$ 2,812,000	\$ 2,812,000

OPEB plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

DISTRICT- POST-RETIREMENT HEALTHCARE BENEFIT PLAN

Plan Description

The Greensburg Salem School District provides for post-employment health care benefits to all eligible employees per the terms of the District's collective bargaining agreements. Eligibility requirements for District personnel are as follows:

- Education Association participants must have completed 25 years of service in the profession and who are at least 60 years of age at retirement.
- Administrative participants must be 52 years of age and have worked in the District for at least 10 years or have completed 30 years of service.

During the 2010-2011 fiscal year, the Board of Education adopted 'early retirement incentive policies' for its various collective bargaining units as follows:

- Support Services Personnel, Maintenance and Custodial, Confidential Secretaries, Classroom Aides and Non-Confidential Secretaries – participants must have completed 25 years of service, 10 years with the District, and who are at least 60 years of age or have completed 35 years of service, 15 years with the District.
- Professional Employees participants who have completed 30 years of service, at least 15 of which have been with the District are entitled to the following for a maximum of 8 years or until the retiree reaches medicare age, whichever comes first: 1) \$5,000 of life insurance coverage paid by the retiree at the District's retiree rate, 2) health insurance to be paid by the District; employee will be required to reimburse the District the amount received from PSERS, 3) health insurance coverage for retiree's spouse and eligible dependents, the cost of which will be borne by the retiree at the amount by which the coverage rate exceeds the District's rate plus 2%, and 4) a \$5,000 cash stipend per year for five fiscal years following retirement.
- Administrative Employees participants who have completed 25 years of service, at least 10 of which have been with the District are entitled to the following for a maximum of 8 years or until the retiree reaches medicare age, whichever comes first: 1) all retirement provisions outlined in the administrative employment contract and 2) a \$5,000 cash stipend per year for five fiscal years following retirement.
- Secretarial Employees participants who have completed 20 years of service, at least 10 of which
 have been with the District are entitled to the following for a maximum of 8 years or until the retiree
 reaches medicare age, whichever comes first: 1) all retirement provisions outlined in the secretarial
 employment contract and 2) a \$5,000 cash stipend per year for five fiscal years following retirement.
- Custodial and Maintenance Employees participants who have completed 25 years of service, at least 10 of which have been with the District are entitled to the following for a maximum of 8 years or until the retiree reaches medicare age, whichever comes first: 1) all retirement provisions outlined in the custodial/maintenance employment contract and 2) a \$5,000 cash stipend per year for five fiscal years following retirement.

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

DISTRICT- POST-RETIREMENT HEALTHCARE BENEFIT PLAN (Continued)

Plan Description (Continued)

The single-employer retiree benefit plan ('the Plan') was established by the authority of the collective bargaining agreements between the Greensburg Salem School District Board of Education and the various labor unions representing District employees. The program entitles eligible employees to specific health care benefits (as stated in the agreement) during the period between retirement and attaining Medicare age. The employee will pay the District the amount reimbursable from PSERS. Retirees are responsible for copay amounts which exceed the PSERS reimbursement.

The plan is unfunded and does not issue a publicly available financial report. These benefits are accounted for in accordance with GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.

Funding Policy

The contribution requirements of plan members and the School District are negotiated between the District and the union representatives and may be amended by the Greensburg Salem Board of Education. The plan is funded on a pay-as-you-go basis, i.e. premiums are paid to fund the health care benefits provided to current retirees. There are no assets that have been segregated and restricted to provide for retiree medical benefits. During the 2019-2020 fiscal year, the Greensburg Salem School District paid \$143,373 for retiree health and life insurance benefits.

Participant Data and Total OPEB Liability

The July 1, 2019 valuation reflected the following participant data and corresponding total OPEB liability:

	PARTICIPANT	TOTAL OPEB		
	DATA	LIABILITY		
Active employees	275	\$	6,451,409	
Retirees	21_		874,635	
Total	296	\$	7,326,044	

OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The District's total OPEB liability of \$7,326,044 was measured as of July 1, 2019, and was determined by an actuarial valuation performed as of July 1, 2019. As the District's OPEB Plan is unfunded, the total OPEB liability is equal to the net OPEB liability:

NOTE 11 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

DISTRICT- POST-RETIREMENT HEALTHCARE BENEFIT PLAN (Continued)

OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Balance at June 30, 2019	\$ 6,067,261
Changes for the year:	
Service cost	257,961
Interest	234,803
Changes of benefit terms	-
Differences between expected and	
actual experience	1,069,813
Changes in assumptions or other inputs *	50,862
Benefit payments	 (354,656)
Net Changes	1,258,783
Balance at June 30, 2020	\$ 7,326,044

For the year ended June 30, 2020, the Greensburg Salem School District recognized OPEB expense of \$477,492. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		rred Inflows Resources
1,002,950	\$	280,892
725,162		76,009
255,888		
1,984,000	\$	356,901
	1,002,950 725,162 255,888	1,002,950 \$ 725,162 255,888

The \$255,888 amount reported as deferred outflows of resources resulting from the District's benefit payments subsequent to the measurement date will be recognized as a reduction in the next year's total OPEB liability. Amounts reported as deferred inflows/outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement Date	Reporting Date		
Year ended	Year ended	Am	ortization
June 30,	June 30,	A	mount
2019	2020	\$	97,243
2020	2021		97,243
2021	2022		97,243
2022	2023		97,243
2023	2024		97,243
Thereafter	Thereafter		884,996

Sensitivity of the Total OPEB liability to Changes in the Discount Rate

The following is the Total OPEB Liability to the District, as well as the Total OPEB Liability using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	2.50%	3.50%	4.50%
Total OPEB Liability	\$ 7,507,763	\$ 7,326,044	\$ 6,913,696

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following is the Total OPEB Liability to the District, as well as the Total OPEB Liability using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Current						
	1%	Trend	1%				
	Decrease	Rates	Increase				
Total OPEB Liability	\$ 6,476,857	\$ 7,326,044	\$ 8,315,749				

Actuarial Assumptions and Other Inputs to Calculate the Total OPEB Liability

- Cost Method Entry Age Normal as a Level Percentage of Pay.
- Mortality RPH-2014 Total Dataset Mortality Table projected using Scale MP-2018.
- Discount Rate 3.50% based on the Bond Buyers 20-Bond Index.
- Inflation Rate 3%
- Salary Increases 2.5%
- Healthcare Trend 2020-2021 fiscal year 6.75% decreasing on a graduated basis to 4.5% for fiscal years 2029-2030 and later.
- Percent Married Actual spouse information was utilized for current retirees. For the active population, it was assumed that 85% of Administrators will have a covered spouse at retirement and 30% of all other groups will have a covered spouse at retirement. Females are assumed to be three years younger than males.
- Participation It is assumed that 100% of eligible retirees will participate in the retiree medical program.
- Aging Factors Varying scale from 3.61% at age 55 to 1.23% at age 74.
- Withdrawal Rates Rates vary by attained age.
- Retirement Rates Varying scale from 1% at age 52-55 to 100% at age 65.
- Disability None assumed.
- Plan Election It is assumed that 90% of future retirees will elect Option G and 10% will elect either Option A or Option E.

NOTE 12 – JOINTLY GOVERNED ORGANIZATIONS

CENTRAL WESTMORELAND CAREER AND TECHNOLOGY CENTER

The Greensburg Salem School District, in conjunction with nine other School Districts, funds the operating and capital budget of the Central Westmoreland Career and Technology Center. The Technology Center is designed to teach students trade related professions. Each district's share of tuition is based on the percentage of the district's enrollment to the total enrollment at the Forbes Road Career & Technology Center. The School District paid \$547,619 to the Career and Technology Center during the 2019-2020 fiscal year. A representative from each district's school board sits on the board of the Technology Center. Financial information can be obtained by contacting the Technology Center's business office at 240 Arona Road, New Stanton, Pa. 15672.

WESTMORELAND INTERMEDIATE UNIT #7

The Greensburg Salem School District participates with 16 other School Districts and 3 Vocational-Technical schools located in Westmoreland County in the Westmoreland County Intermediate Unit #7. The Intermediate Unit was established in 1971 by Act 102 of the Commonwealth of Pennsylvania to function as a regional educational service agency for 17 school districts, as well as nonpublic schools and other institutions, located within Westmoreland County. The Intermediate Unit provides services relative to curriculum development, continuing education, educational planning, instructional materials, pupil personnel, state and federal agency liaison and managerial oversight. The School District paid the Intermediate Unit \$8,299 for operating purposes and \$121,774 for transportation recovery costs during the 2019-2020 fiscal year. Financial information can be obtained by contacting the Intermediate Unit's business office at 102 Equity Drive, Greensburg, Pa. 15601.

NOTE 13 - RISK MANAGEMENT

GENERAL INSURANCE

The Greensburg Salem School District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

HEALTH INSURANCE

The Greensburg Salem School District is one of twenty members of the Westmoreland County Public School Healthcare Consortium, a public entity risk pool designed to administer health and medical insurance risks on a pooled basis. The school district was billed an annual premium of (\$3,764,167 for 2018-2019) in monthly installments to the Consortium for its health and medical insurance coverage, which is subject to an annual settlement based on claims experience. As the Consortium is self-insured, rates are established with the objective of satisfying estimated claims and other costs, as well as maintaining working capital requirements.

Participating school districts are permitted to withdraw from the Consortium under terms specified in the agreement. Withdrawing participants are entitled to, or responsible for, a proportionate share of the Consortium's net position, as determined on the fiscal year-end date after withdrawal. As of June 30, 2020, the District's share of the Consortium's undesignated fund balance was \$1,316,360.

NOTE 14 – CONTINGENCIES

STATE AND FEDERAL SUBSIDIES

The Greensburg Salem School District's state and federally funded programs are subject to program compliance audits by various governmental agencies. The audit scopes of these program compliance audits are different than the scope of financial audits performed by an outside, independent certified public accounting firm. The District is potentially liable for any expenditure disallowed by the results of these program compliance audits. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

LEGAL MATTERS

The Greensburg Salem School District, in the normal course of operations, is party to various legal matters normally associated with school districts such as real estate tax assessment appeals, personnel wage and benefits, student education and athletics, construction projects, and other miscellaneous legal matters. The District is not aware of any current claims, litigation or assessments against the District that would adversely impact the financial position of the District as of the date of this report.

NOTE 15 – OPERATING LEASES

In April of 2017, the District entered into a lease agreement with Mail Finance for a digital mailing system. The terms of the lease call for the monthly payment of \$216.50 for a period of sixty (60) months for the period July 1, 2017 through June 30, 2022. The District's lease expense for this equipment was approximately \$2,382 for the 2019-2020 fiscal year.

In February of 2019 the District entered into a lease agreement with The Wilson Group for new copiers. The terms of the lease call for monthly payment of \$9,056 for a period of sixty (60) months. The District's lease expense for this equipment was approximately \$103,725 for the 2019-2020 fiscal year.

NOTE 16 - PRIOR PERIOD ADJUSTMENT

The prior period adjustment of \$97,895 to the July 1, 2019 net position of the District's governmental and business-type activities (Exhibit B) and Proprietary Fund (Exhibit I) represents the transfer of capital assets from Governmental Activities to Business -Type Activities during 2019-2020 fiscal year.

NOTE 17 - SUBSEQUENT EVENTS

Early in 2020, a new strain of the coronavirus (COVID-19) spread through China as well as other countries including the United States. The impact of the virus varies from region to region and from day to day, and any significant additional spreading of the virus could adversely affect the School District's business. The outbreak of the COVID-19 virus is likely to have a further negative impact in 2020-2021 on the global and local economy and, in the future, might impact the School District's financial results in 2020-2021 and beyond. Given the dynamic nature of this outbreak, however, the extent to which the COVID-19 virus impacts the School District's results will depend on future developments, which remain highly uncertain and cannot be predicted at this time. The District has been awarded COVID related funding from the Elementary and Secondary School Emergency Relief Fund (ESSER Fund and ESSER II Fund) from the Department of Education totaling approximately \$4,329,624.

NOTE 17 - SUBSEQUENT EVENTS (Continued)

In October of 2020, the Greensburg Salem School District issued General Obligation Bonds – Series of 2020 in the amount of \$10,700,000. The purpose of the bond issue is to 1) currently refunding the District's General Obligation Bonds – Series of 2013 and Series A of 2015 and 2) issuing the bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and June 1 each year through maturity. Interest rates on the bonds range between 3.00% and 4.00% with the bonds maturing on January 1, 2026.

Management has determined that there are no other events, subsequent to June 30, 2020 through the February 23, 2021 date of the 'Independent Auditor's Report' date, which is the date the financial statements were available to be issued, that require additional disclosure in the financial statements.

<u>Contributions</u>

None

<u>Actuarial Assumptions used in Calculations of Actuarially Determined</u> Contributions

The following actuarial methods and assumptions were used to determine contribution rates reported in the OPEB required supplementary schedules:

- The results of the actuarial valuation as of June 30, 2016 determined the employer contribution rate for fiscal year 2019.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date
- Asset Valuation Method: Market value
- Participation Rate: 63% of eligible retirees are assumed to elect premium assistance
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

SUPPLEMENTARY INFORMATION

OTHER INFORMATION AS REQUIRED BY GOVERNMENT AUDITING STANDARDS AND UNIFORM GUIDANCE

Mark C. Turnley

Mark C. Turnley

Certified Public Accountant

1000 3rd Avenue New Brighton, Pennsylvania 15066 (724) 384-1081 FAX (724) 384-8908

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Management and Board of Education Greensburg Salem School District

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Greensburg Salem School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Greensburg Salem School District's basic financial statements, and have issued my report thereon dated February 23, 2021.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Greensburg Salem School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Greensburg Salem School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Greensburg Salem School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Greensburg Salem School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Education Greensburg Salem School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Greensburg Salem School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Greensburg Salem School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Greensburg Salem School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education
Greensburg Salem School District

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

I have audited the Greensburg Salem School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Greensburg Salem School District's major federal programs for the year ended June 30, 2020. The Greensburg Salem School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the Greensburg Salem School District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Greensburg Salem School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination on the Greensburg Salem School District's compliance.

Opinion on Each Major Federal Program

In my opinion, Greensburg Salem School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of Greensburg Salem School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Greensburg Salem School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing my opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Greensburg Salem School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

GREENSBURG SALEM SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2020

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the 'Schedule') includes the federal grant activity administered by the Greensburg Salem School District for the year ended June 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Grant Guidance – UGG). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position or changes in net position of the Greensburg Salem School District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

Expenditures reported on the Schedule are presented using the accrual method of accounting. Under this method, grant revenue is recognized to the extent expenditures are incurred. Expenditures are recognized when the liability for the expenditure is incurred rather than when the disbursement is actually made.

The federal expenditures are recognized, as applicable, under the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or limited to reimbursement.

NOTE 3 - RELATIONSHIP TO FINANCIAL STATEMENTS

Federal financial award revenues are included in the financial statements as 'local source' and 'federal source' revenues.

NOTE 4 – RECEIVABLES AND UNEARNED REVENUE

Federal grants receivable are included as part of 'due from other governments' in Exhibit A and Exhibit C as referenced in Note 4 to the Financial Statements. Unearned federal grant revenue, if any, is included as part of 'unearned revenue' in Exhibit A and Exhibit C, and is referenced in Note 6 to the Financial Statements.

NOTE 5 - NON-CASH ASSISTANCE

The Greensburg Salem School District received donated commodities from the Department of Agriculture in connection with its food service program. The amount of non-cash assistance expended in the accompanying schedule of expenditures of federal awards reflects the fair market value of the commodities used during the 2019-2020 fiscal year.

NOTE 6 – INDIRECT COST RATE

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.
