

of A TRADITION EXCELLENCE

Black History Month Celebrations

Piper High School's Black Leaders of America (BLA) and Celebrating Diversity Club celebrated Black History Month with a Read & Play Day at Piper Prairie Elementary and Pre-K. Some of our Piper Prairie Pirates also read to Pre-K students! Students read stories featuring Black history-makers while focusing on the overarching themes of perseverance, love, and joy.

Pirate PAL's

Counselors and teachers at Piper Prairie and Piper High School have revived the Pirate PALS program. Akin to the nationally-renowned Big Brothers/Big Sisters program, Pirate PALS pairs student leaders from the high school with younger students for mentorship. Dozens of high school students have volunteered for the program in less than one month.

Real World Weather

KSHB 41 meteorologist Wes Peery gave weather reporting tips to Piper Creek Elementary's 3rd graders. Students have been working on Future Ready and Real World Learning by researching severe weather, writing their own newscasts, and recording their newscasts in front of a green screen.

Growing Our Efforts

Piper School District leadership attended the Real World Learning "Get On the Bus Luncheon" which focused on scaling real world learning efforts and collaboration with industries and school districts across the metropolitan area with the theme of "Inform, Inspire and Commit".
