

7th Grade Achievement Test

Vocabulary List

Number Sense	Measurement	Algebra	Data Analysis & Probability
Distributive property	Area	Algebra	Average
Exponent	Centimeters	Equation	Circle graph
Fractions	Derived measurement	Formula	Compound event
Integers	Measurement	Function	Data Analysis
Number	Scale factor	Functional relationships	Experimental probability
Number operations	Surface area	Functions	Mean
Number sense	Volume	Generalize patterns	Misuses of data
Operations		Graph	Mode
Order of operations		Graphs	Percents
Percent	Geometry	Linear equation	Probability
Problem-solving		Non-linear	Stem-and-leaf plot
Proportions	Geometry	Patterns	Theoretical probability
	Interior angles	Rules	
	Measurement	Simplify algebraic expressions	
	Parallelograms	Variables	
	Perspective		
	Proportional reasoning		
	Pythagorean Theorem		
	Right Triangle		
	Similar figures		
	Three-dimensional objects		
	Triangle		
	Triangle properties		
	Views		
<p><i>NOTE: This list assumes that students continue to know and use the vocabulary required at earlier grade levels.</i></p>			

* These are common words sometimes associated with the formal word.
(the formal word will appear on state tests)
