Comprehensive Needs Assessment

Demographics

Demographics Summary

Scotland Park Elementary is a diverse school community. The ethnic distribution is as follows: 16.6% African American, 55.9% Hispanic and 21.1% White. The ethnicity breakdown of teachers is as follows: 5.4% African American, 21.7% Hispanic, 72.9% white and 0% two or more races. The economically disadvantaged rate of students is 85%. 15% of students are served with special education services and 25% of students are English Language Learners. The mobility rate is high at 15.4%. Parent involvement has improved. Community involvement has been lower due to Covid 19. We have many PIE partners that help us meet the needs of students at home and at school. The attendance rate is 93%.

Demographics Strengths

Scotland Park serves a diverse population of students.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Scotland Park's key stakeholders (staff and parents) have different priorities, which leads to a struggle when educating our students. **Root Cause:** Families are struggling to provide needs to their families often leaving staff as their only means of education.

Problem Statement 2: Scotland Park has an economically disadvantage population of 85%. We also have an ELL population of 25%. With these demographics our students struggle with opportunities. **Root Cause:** Scotland Park students come from low income houses/families which lead to less educational opportunities.

Problem Statement 3: Most Scotland Park parents do not have advanced education or have very little education due to their own disabilities and hardships. **Root Cause:** Most of our families are low economic and have little to no education.

Problem Statement 4 (Prioritized): With a small increase in attendance to 93% our attendance is still lower than the state average. **Root Cause:** The main issue for attendance struggles stem from Covid-19 quarantines and illnesses.

Student Learning

Student Learning Summary

Our Scotland Park students have come in at all levels, however, most are below level and lack basic foundational skills to be successful. The students lack exposure and experiences lead up to most of the lack of skills. We also have to account for the Covid slide from the last two years. We did see great progress this year at students have completed a full year of face to face learning.

Student Learning Strengths

Students at SP are very eager to learn and gain new information.

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Many of Scotland Park students come in below grade level and lack basic foundational skills to be successful in the classroom. **Root Cause:** Students are not exposed to a wide range of experiences outside of school that contribute to being successful in the classroom. Students are also experiencing a Covid-19 "slide".

Problem Statement 2: Students in the AA and White student groups did not meet Academic Achievement targets in reading in the 2018, 2019 and 2022 school years. **Root Cause:** Covid learning slide.

Problem Statement 3: Students in the Hispanic, White, and EL student groups did not meet Academic Achievement targets in math in the 2018, 2019 and 2022 school years. **Root Cause:** Covid learning slide.

School Processes & Programs

School Processes & Programs Summary

Scotland Park has struggled with the amount of time the district is requiring for testing because it cuts into the instructional time. The lower grades take several different tests that seem to all cover the same material. The lower grade testing take so much more time because they need assistance when testing. We have also seen an issue with creating a master schedule due to initiatives that have been implemented by the district that works with the required instructional minutes by the state. Scotland Park students have minimal access and exposure to educational technology outside of school. What technology they do have is more of a communication device instead of use for education.

School Processes & Programs Strengths

Scotland Park has invested more for our students to have technological experiences through the purchase of promethean boards to actively engaged students in learning.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Scheduling accelerated instruction into our Master schedule for 4th and 5th grade students to be able to meet the required HB4545 requirements. **Root Cause:** Scheduling becomes problematic when trying to serve all required minutes during a day.

Problem Statement 2: Scotland Park has struggled with the amount of time required for testing by the district because it cuts into teacher's instructional time. **Root Cause:** The district is requiring too much local testing mainly in the lower grades that cover most of the same topics.

Problem Statement 3: Scotland Park students have minimal access and exposure to technology outside of school. **Root Cause:** Scotland Park has a high percentage of economically disadvantage families that are unable to provide a technological rich household.

Perceptions

Perceptions Summary

Scotland Park has a small percentage of student that struggle with appropriate social behaviors. We are working on building a better culture and climate for these students. We have an overall low participation from families and community engagement. Most of our families are working families who have to work. Some parents have shown interesting in starting a PTA/PTO. We will starting having meetings in the fall to disucss this with parents.

Perceptions Strengths

We have a strong communication program through using social media outlets like Facebook and Classroom Dojo to get information and a peek into school life for parents to see.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Scotland Park Elementary has overall low participation in family and community engagement. **Root Cause:** Due to families needing to work they are unable to participate and/or volunteer with the school. We also have a language barrier sometimes due to the number of Spanish speaking families.

Problem Statement 2: Scotland Park Elementary has a small percentage of students that struggle with appropriate social behaviors. These students are repeatedly receiving discipline referrals. **Root Cause:** There is a need for more proactive procedures in order to target these inappropriate behaviors and retrain student social and emotional processing.

Priority Problem Statements

Problem Statement 2: Scotland Park's key stakeholders (staff and parents) have different priorities, which leads to a struggle when educating our students.

Root Cause 2: Families are struggling to provide needs to their families often leaving staff as their only means of education.

Problem Statement 2 Areas: Demographics

Problem Statement 1: Many of Scotland Park students come in below grade level and lack basic foundational skills to be successful in the classroom.

Root Cause 1: Students are not exposed to a wide range of experiences outside of school that contribute to being successful in the classroom. Students are also experiencing a Covid-19 "slide".

Problem Statement 1 Areas: Student Learning

Problem Statement 3: With a small increase in attendance to 93% our attendance is still lower than the state average.

Root Cause 3: The main issue for attendance struggles stem from Covid-19 quarantines and illnesses.
