Multi Activity Daycare

2024-2025

From 3:00 to 4:00
Monday to Friday

- Daycare begins Monday, September 9, 2024
- Multi-activity home: sport, lego workshop, manual activities, drawing workshop, group games, etc.
- The rules in force are those of the school. Semesters are from September to January and from February to June.
- Any semester started is due, no refund can be made for personal convenience.
- Exceptional delays are tolerated and will not give rise to additional invoicing (€15.00 per hour) as long as they do not become repetitive.
- Children should plan their snack for each night of the week.

Option Week	Semi annual price

= €1,300.00 (2 hours per week)

* the discount does not apply to daycare and holiday camps.

Baby Gym

Ideal activity to learn to master your body, classes take place in a mini-group in a secure space. Activities were designed around the behaviour of young children: walk, roll, jump, swing, imagine, imitate and explore.

This activity, thanks to the various exercises and movements it proposes, actively participates in the motor development of the child.

Concretely it helps him to operate this machine that is his body. It allows him to coordinate certain senses such as sight to his gestures and reflexes, to understand his movement in space.

As the sessions progress, the child acquires autonomy and confidence in himself and himself more generally.

From 3 years – Time 1 hour

Judo

Balance sport, educational sport, defense sport, judo is suitable for all age groups.

A true educational sport, it allows everyone to become more skillful, more flexible, stronger but also to learn to respect rules, discover mutual aid, evaluate their strengths and weaknesses to progress.

Judo is a sport for everyone that provides true balance. An activity of relaxation and pleasure, judo is a discipline based on exchange and progression. Learning is done in a progressive way according to the abilities of the individual, which allows everyone to evolve at his own pace.

From 3 years – Time 1 hour

Yoga

Coming from India, yoga is a millennial discipline aimed at working both body and mind, adopting postures. Yoga is a rich and diverse activity that can be practiced at all ages. Yoga does not advocate the surpassing of oneself, but rather exploration, experience, and learning by listening to its sensations and breathing.

The advantage of yoga is that it immediately brings a feeling of well-being and relaxation: it allows you to activate your body while relaxing, especially through breathing. The simple fact of having to focus on your breath brings a soothing effect to the body. The postures also help to acquire flexibility and work the deep muscles.

For the kids, it's definitely a plus from a motor point of view: working balance, gaining strength, working coordination.

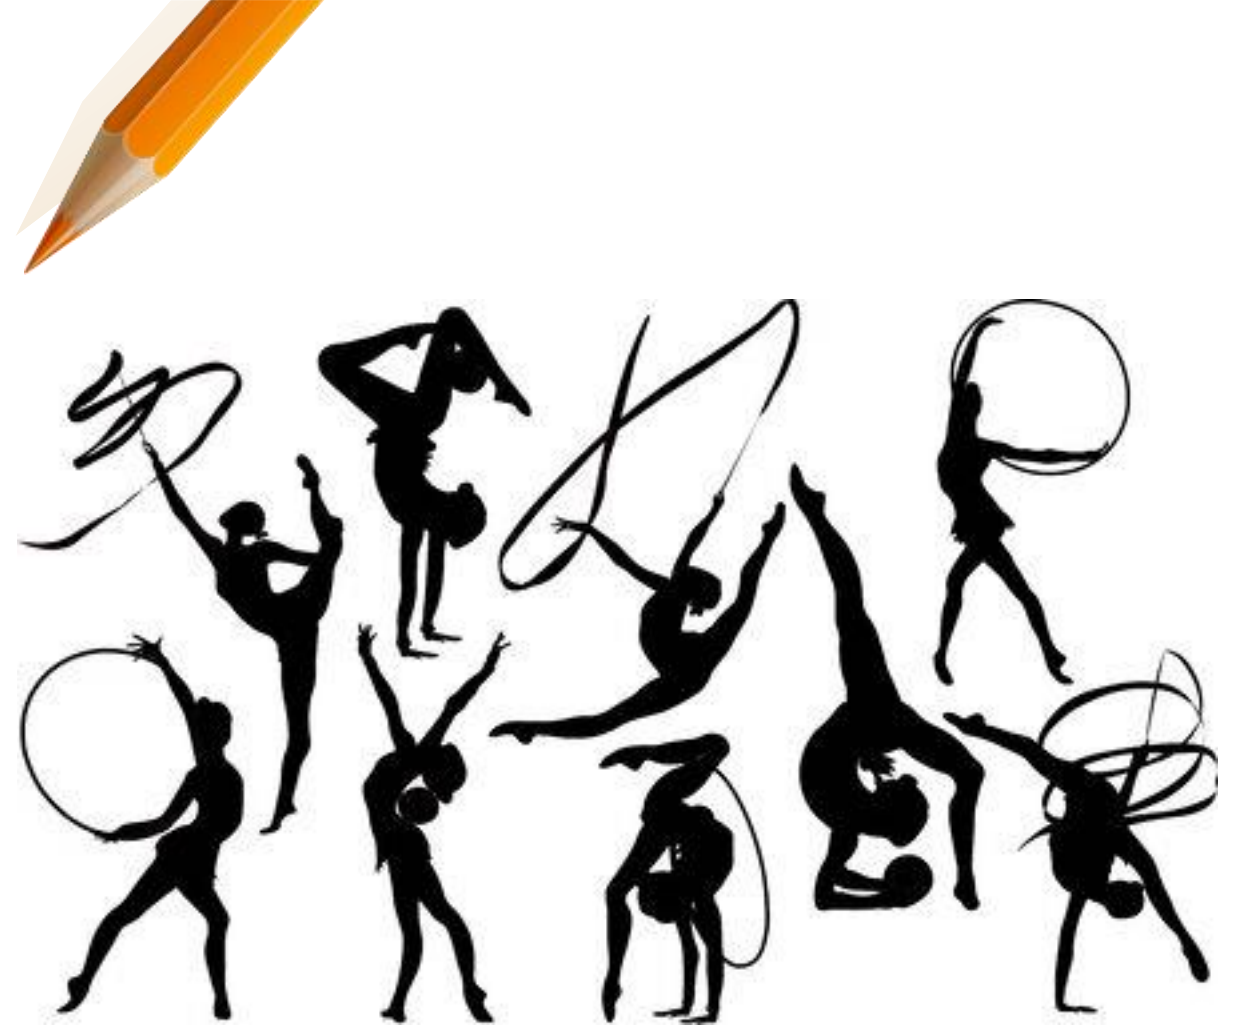

From 5 years – Time 1 hour

Rhythmic Gymnastics

Introductory courses adapted to their young age, skills and learning abilities. Accessible from the age of 4, this course offers a fun and respectful teaching of their founding gestures, their spontaneity.

It revolves around fundamental objectives such as body, space, time or relationship to each other.

The purpose of the course is to accompany children in their personal development by using dance and gymnastics as a means of expression and learning.

From 5 years – Time 1 hour

Russian lessons

The lessons follow the traditional curriculum of the Russian kindergarten and primary school. The focus is on developing conversation, reading and writing skills and are suitable for bilingual children. The lessons are also open to children wishing to learn Russian as a foreign language.

Small assignments to consolidate and repeat the acquired knowledge can be given even if the general atmosphere of the courses is very playful.

For older children, Natalia mainly uses Ramzaeva, Goretsky and Pleshakov methods. Authors Kakorina, Kostyleva, Savchenko, Khamraev, Samatov and many others are on the program.

For the little ones, Natalia works with the development methods of Maria Montessori, Nikolai Zaitsev, Glen Doman, Zhukova and Elena and Boris Nikitin.

Teacher: Natalia Lisovskaya graduated from Moscow University (MPGU)

English -French Lessons

Baby Camp

Playful and interactive workshop based on the musicality of the English or French language.

Through the use of routines, children recognize keywords. They naturally integrate English as a language of sharing and communication within their group.

In the company of children his age, your child will become familiar with English or French, its sound, recognize keywords and expressions of everyday life.

The playful approach through activities designed specifically for the child's age, promotes a natural learning through which the child integrates English with great efficiency.

Option 3

Children will have the opportunity to discover, learn or improve their language skills through an intensive immersion program.

- Songs, games and stories
- Workshop focused on understanding and speaking
- Workshop to increase fluency in oral and written
- 2 hours of English or French per day
- Maximum of 12 participants per group

The + : group emulation, a real learning engine, a friendly but studious atmosphere, interaction between children that improves communication and listening
