### SCORING

- There are 29 Greek and Roman events: the first team to capture 15 victories is the winner of the games
- Score is kept on the scoreboard
- The School faculty judges the events and notes faults in a team's performance. The team that appears to finish first may not be declared the winner based on the number of faults they may have.
- The 50 yard dash will be run in heats. Winners of each heat accumulate points toward a team goal. The team with the most points wins the grade level dash.
- The tug-of-war is best of 5 pulls. The first team to win 3 pulls wins the event.
