# Bond Update May 12, 2023

---

- 01** We are pleased to update you on the progress of construction at Legion Field. Symmetry Construction has been hard at work and has successfully removed all of the topsoil from the site. We are now ready to move forward with cutting the subgrade, and Symmetry Construction will begin this work in the coming week.
- 02** We did not receive any bids for the stadium electrical improvements project at Legion Field. Despite this setback, the district is committed to completing this project in a timely manner; the bid proposal request will be reposted on Monday, May 15.
- 03** As we move forward with the construction of Legion Field, we would like your input on the field's turf and track colors. To this end, the district is scheduled to present the color options to the Bond Advisory Committee on Monday.
