13.7 (Item #8) Memorandum of Understanding and Contract Amendment Between Seneca Family of Agencies and Mt. Diablo Unified School District

On April 30, 2014, the Board approved Interagency Agreement #28-325-4 with the Contra Costa County – Health Services Division for \$3,250,000. This contract authorized County Mental Health (CMH) to utilize existing contracts with Community Based Organizations, such as Seneca, to provide educationally related mental health services (ERMHS) to Medi-Cal eligible students as designated in their IEPs for the 2013-14 fiscal year with an automatic extension period through December 31, 2014. Under this agreement, MDUSD was responsible for paying the cost of ERMHS to CMH for students ineligible for Medi-Cal. For the 2013-14 fiscal year, the ERMHS cost for Seneca under this agreement with CMH was \$1,072,172.83.

By directly contracting with Seneca for students ineligible for Medi-Cal, MDUSD will be able to provide a continuity of the same quality services at a rate that is 17.67% lower than CMH's rates. Students who are eligible for Medi-Cal will continue receiving services through a separate agreement with CMH at no cost to the District. Based on the last two quarters of 2013-14 financial data, this new billing structure under the MOU will generate cost savings of approximately \$96,000 for the six month period of January through June 2015.

Additionally, under Interagency Agreement #29-513-15, CMH subcontracted with Seneca to provide three dedicated classrooms for intensive special education services at \$19,000 per month. Instead of contracting with CMH, MDUSD will directly contract with Seneca to continue classroom services from January 1, 2015 through June 30, 2015 at the same rate. There are no additional costs as funds from the CMH contract will be realigned to the Seneca contract. Seneca's 2014-15 NPS master contract was originally approved by the Board on September 24, 2014 for \$540,000. Staff is requesting approval to amend the existing contract with Seneca for an additional \$790,301 to provide a continuation of special education services, including mental health services, for January 1, 2015 through June 30, 2015.

Additional funds of \$220,000 are requested for the remainder of the 2014-15 school year. Services are reviewed at each IEP and transitioned to a District provider whenever possible.

BUSINESS/ACTION ITEMS

17.1 2015-16 Single Plans for Student Achievement (SPSA)

The Single Plan for Student Achievement (SPSA) identifies and addresses the instructional needs of students and specifies how categorical funds provided through the Consolidated Application (Con App) will be used to accomplish the goals outlined in the plan. EC Section 64001 specifies schools and districts receiving state and federal or other applicable funding through the district's Con App process prepare a SPSA for any recipient school. Additionally, Mt. Diablo USD made a local decision for sites to include their allocated Local Control Funding Formula (LCFF) Targeted Supplemental and, optionally, their allocated LCFF Base funds in their SPSA's.

State guidelines require that the SPSA must:

- Identify site-specific achievement goals based on a variety of student performance data.
- Describe specific instructional strategies to accelerate student learning.
- Describe the ways in which student progress will be monitored on a regular basis.
- Identify interventions for students not achieving.
- Determine the necessary professional development for staff.
- Delineate strategies for parent communication and engagement.
- Reflect estimated costs and funding sources.
- Involve consultation with other site advisory groups.

State regulations require that the School Site Council (SSC) be the group responsible for developing and revising the SPSA in collaboration with the site instructional leadership team. Ongoing consultation with site advisory groups about student performance data, student needs, identified goals, appropriate interventions/preventions, and associated budgets is an integral part of the development and monitoring of the SPSA. These regulations also require submission to and approval of each site's SPSA by the Governing Board of the Local Education Agency. (Ed Code 64001).

This year, Mt. Diablo schools used an updated template, aligned with the revised Local Control Accountability Plan (LCAP) to create their SPSA's. This alignment supports the required alignment between the two plans. The MDUSD SPSA template includes components that meet the ten federally required components for our Title I schools with school-wide programs.

****17.8 Restoration of Instrumental Music at 4th Grade for the 2015-16 School Year**

****This item was moved up on the agenda.**

Prior to 2009, a pullout instrumental music program was offered for 4th and 5th grades in all elementary schools. Due to budget cuts, the 4th grade program was eliminated by MDUSD Board action on March 3, 2009. This resulted in the reduction of 6.4 FTE's beginning in the 2009-10 school year. On June 2, 2009, the Board took further action and eliminated the program at 5th grade. This action reduced 7.3 FTE's for the 2010-11 school year.

In May 2014, the Board took action and approved the restoration of the 5th grade music program, by funding 6.0 FTE Elementary Instrumental Music Teacher positions. Based on the assumption of comparable enrollment and participation rates in Elementary instrumental music, restoration of the 4th grade program would require adding back 6.0 FTE's.

The cost of staffing the 4th grade program is comparable to the staffing cost of the 5th grade program; however additional music instruments must be purchased for student use. Therefore, the overall cost of the 4th grade program will be slightly higher. As a result, it is recommended the 4th grade program begin to be restored by approving 3 FTE's, along with the purchasing of music instruments and supplies for the 2015-16 school year. In addition, it is recommended that the program be fully staffed in the 2016-17 school year by approving an additional 3.0 FTE's.

17.31 Adoption of DSA Approved Project and Lease/leaseback Contract for EF Brett & Company, Inc. for Construction Necessary to Support Athletic Facility Improvements at College Park High School for a Guaranteed Maximum Cost of \$2,799,623.87

On November 5, 2014, District issued a Request for Qualifications (RFQ) soliciting submissions from qualified firms interested in entering into a lease-leaseback agreement to construct Athletic Facility Improvements at College Park High School. In addition to advertising on District webpage, District solicited qualifications from 15 vendors. As a result of this solicitation, District received 10 packages. District issued a no-cost PSA to the contractor who represented the best interests of the District. Based on results of the PSA, staff negotiated best and final cost and is recommending the District enter into a lease leaseback agreement with EF Brett & Company, Inc. for a Guaranteed Project Cost of \$2,799,623.87 for completion of all specified new construction per DSA approved plans and specifications.

The lease-leaseback project delivery method is authorized by California Education Code 17406, and authorizes the governing board, without advertising for bids, to enter into a lease with a builder for the purpose of construction, including remodeling and permanent improvements (upon property). Under a lease-leaseback, the District leases property under a "site lease" to a builder for \$1. That builder constructs the facility/completes the renovation and then leases the facility back to the District under a "facilities lease." The District makes "tenant improvement payments" during construction and "lease payments" after construction. Titles to the facility vests in the District as lease payments are made. The District has the option to make an early, balloon payment to the builder to buy out the facilities lease. In addition, the District determines all plans and specifications and uses its own Architect of Record to submit the project to the Division of the State Architect (DSA) for approval.

The scope of work includes, but is not limited to, providing all tools, materials, labor and equipment necessary to complete construction of Athletic Facility Improvements at College Park High School including site preparation, selective demolition, site work, utility work, flat work, sports field lighting, sound-wall, building construction, interior amenities and other items as necessary to deliver a complete project as it relates to the Drawings and Specifications. All spoils will be removed from the site. This contract includes, but is not limited to all work associated with the plans and specifications.
