

RESOURCE PARENTS

Resource Parents are volunteers who have children with special needs in the Mt. Diablo Unified School District. Whether a child is in general education, receives support through a 504 plan or receives special education services, Resource Parents are available to support ALL MDUSD parents. All members listed have undergone extensive training. Resource Parents continue to receive ongoing training in District policies and procedures, Section 504, the IEP process and Alternative Dispute Resolution. Resource Parents receive updated information on annual changes and updates. They can help you understand next steps in your process, lend an ear of support and direct you to the right person for your situation. In addition to information on resources for struggling students, Resource Parents provide information on specific disabilities. Support from Resource Parents is strictly confidential.

Use the list of phone numbers on the back of this card to direct you to the right person to call. Each person has a list of areas they able to provide consultation about. If you need additional assistance please contact the Parent Liaison at (925) 682-8000 ext. 4297.

Resource Parents are trained volunteers that offer parent-to-parent support and information.
