"We are creating an environment where kids can grow and learn especially those kids that are interested in the fire service, EMS, police and military where team work is really important...."

- Tracy Eldridge, Rochester FD

M.M.R. HOSE CO.

FIRE & EMS
EXPLORER POST #343

EXPLORING™
DISCOVER YOUR FUTURE

Standards

Every Explorer is trained to the Massachusetts Firefighting Academy and Office of Emergency Medical Services standards. Classes are held from September/October through June/July and are held 1 night a week with 1 Saturday class a month.

Not only do Explorers learn fire and EMS skills but they are taught basic life skills that are not taught in school. They will take part in associations using Roberts Rules and may be able to earn a promotion after taking a promotional exam. Leadership and team building skills are taught during every lesson and practiced during every skill.

EXPLORING™

Requirements

Anyone interested in the program must live in either Mattapoisett, Rochester or Marion and be between the ages of 14-18 enrolled in High School. Applications can be received at the Mattapoisett Fire Department.

"We are learning how to be firefighters. We go through basic training such as drills, physical training, EMS classes, and most firefighting skills. We take the time and effort to put it towards something good, our future. Right out of high school we get the chance to join a department and then go through the academy."

- Drew Weaver, Class 01

Why We Do This

The program was developed to help introduce the fire and EMS service to the young adults in our communities. During the program our Explorers are given the chance to step out of their comfort zone and try something that most people their age never had the opportunity to do.
