

Recommendation to Approve the Proposal to Continue K-5 Mathematics for One Year

May 1, 2019 Board Meeting

K-5 Mathematics

- Last mathematics adoption 2012-2013 (resource review year) for resource implementation during 2013-2014
- Adoption cycle adjusted when state pulled out of involvement and ELA purchases extended for 2 years
- 2018-2019 is final year of previous contract (6-year contract) with the companies approved in 2012-2013
- Math committees will meet throughout 2019-2020 to adopt new mathematics resource but will need continued support of current resources for the year during the adoption review.

My Math - Grades 1, 2, 3

\$44,694.00 - one year

Adopted - Spring, 2013 - Teachers chose the series My Math by McGraw-Hill for grades 1, 2, and 3. This series provides digital as well as print student resources. Teachers receive additional resources in assessment, real-world problem solving, learning stations, manipulative kits, and trade book libraries. Teachers cited the connections to other disciplines, real life applications, multiple opportunities for modeling and practice, and a variety of assessment options as other strengths of this series.

enVisionMATH - Grades K, 4, 5

\$50,979.79 - one year

Adopted - Spring, 2013 - For these levels, teachers selected enVisionMATH by Pearson Scott Foresman. This product line includes student worktexts and digital access to the grades four and five texts. Teachers are provided with resources such as intervention kits, interactive math stories, problem solving libraries and manipulative kits. Strengths of this series as noted by the teachers are inclusion of rigorous problems, emphasis on modeling, practice in constructed response, and a variety of differentiated instruction options.
