Kingsway Regional School District

*A comprehensive academic and
community-based program for
students with learning
differences*

213 Kings Highway
Woolwich Township, NJ 08085
(856) 467-3300

Committed to Excellence
We Value All Learners

Structured Learning Experiences (SLE)

Students in 11th and 12th grade enrolled in STEP will participate in structured learning experiences within the local community. Our focus will be on sustained and repeated practice in a variety of public and retail settings with the hopes of students securing a paid position with one of the partnered businesses.

Community-Based Instruction (CBI)

CBI is educational instruction in naturally-occurring community environments providing students with “real-life experiences”. The goal is to offer a variety of learning opportunities to help students acquire the skills necessary to successfully live independently. Kingsway works closely with local business partners to provide engaging instructional experiences for our students.

Mission Statement

Dedicated to enhancing the lives of students with learning differences through structured, transitional supports and educational opportunities that provide real-life application of functional, academic, and 21st century life and career skills in the school, community, and workplace.

Domains of CBI

Domestic
Community
Recreation & Leisure
Career Exploration

21st Century Life & Careers

Career Ready Practices & Career Exploration

Our Typical Day

Each day is unique. Students begin their day in an academic setting. Instruction is a mixture of functional and academic skills. Our students participate in structured learning experiences within the school building. In addition, our classes receive community-based instruction and also engage in off-site structured learning experiences.

Local & State Agencies

Students and families will be introduced to local and state agencies that provide additional services post high school graduation.
