Students began their day with a healthy breakfast and started for Foping Panda Valley. It is located in Fo Ping town, on the south side of Qinling. Lu Ban Village is the highest mountain at 2904 meters in altitude. Students observed pandas lying around the valley in their natural habitat of pandas.

学生们吃过营养早餐，便开启了一天的行程—前往佛坪熊猫谷，佛坪镇位于秦岭南侧。鲁班村位于海拔2904米的最高山峰。学生们在大熊猫的自然栖息地观察躺在山谷里的大熊猫。

Later students were involved in an activity to construct a shelter using collected branches of trees in the forest and used leaves to make a cover on top to shelter them from rain and sun. They enjoyed the shelter-making activity, sitting in shelters created by them, and enjoying natural surroundings.

之后，学生们参与了一项活动，利用森林中收集的树枝建造一个避难所，并用树叶在顶部做遮盖物，以遮挡雨水和阳光。他们很喜欢建造活动，坐在自己建造的避难所里享受自然。

Students learnt to make Wo wo Tou for giant Pandas using white flour, corn flour, white sugar, oatmeal and carrots. After returning to the hotel, students painted pictures of pandas on t-shirts and demonstrated their artwork.

学生们学习用白面粉、玉米粉、白糖、燕麦片和胡萝卜为大熊猫制作窝窝头。回到酒店后，学生们在T恤上画了大熊猫的图案，并展示了他们的作品。

Later students participated in a Life-saving skills workshop learning to perform CPR (short for cardiopulmonary resuscitation) in an emergency medical situation. This life-saving workshop helped them learn how to respond and save someone's life. The students were engaged for the day and retired to rest in their respective rooms after dinner.

学生们还参加了救生技能讲习班，学习在紧急医疗情况下如何进行心肺复苏术。此次讲习帮助学生们学习如何应对并挽救他人的生命。晚餐结束后，学生们也结束了一天的行程，在各自的房间里休息。
