## INDEPENDENT AUDITORS' REPORT

To the Board of Education  
D.C. Everest Area School District  
Schofield, Wisconsin

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the D.C. Everest Area School District, Wisconsin, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the D.C. Everest Area School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the D.C. Everest Area School District, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the D.C. Everest Area School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

The D.C. Everest Area School District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the D.C. Everest Area School District's ability to continue as a going concern for one year after the date that the financial statements are issued or when applicable, one year after the date that the financial statements are available to be issued.

## ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the D.C. Everest Area School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the D.C. Everest Area School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Wisconsin Retirement System pension schedules, Wisconsin Retirement System Local Retiree Life Insurance Fund schedules, and OPEB healthcare defined benefit plan schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an

opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the D.C. Everest Area School District's basic financial statements. The combining and individual nonmajor fund financial statements, schedule of charter school authorizer operating costs, schedule of expenditures of federal awards, and the schedule of state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and *State Single Audit Guidelines* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of charter school authorizer operating costs, schedule of expenditures of federal awards, and the schedule of state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 21, 2022 on our consideration of the D.C. Everest Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the D.C. Everest Area School District's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

### Fiscal Year Ending June 30, 2022

The following discussion and analysis is of the D.C. Everest Area School District's annual financial performance during the fiscal year ending June 30, 2022. Please read it in conjunction with the District's financial statements immediately following this section.

The Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between this reported fiscal year and the prior fiscal year is required to be presented in the MD&A.

### FINANCIAL HIGHLIGHTS

- Total governmental general revenues based off from the Statement of Activities were \$104,579,138 to include \$27,614,033 of property and other taxes and \$59,176,796 of general state and federal aid. Total governmental activities expenditures were \$83,454,685 including \$44,214,034 for direct instruction.
- The District's financial status, per the Statement of Net Position, increased by \$21,124,453.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements are comprised of **1)** district-wide financial statements, **2)** fund financial statements, and **3)** notes to the financial statements. In addition, other information supplemental to the basic financial statements is provided.

The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

- The ***Statement of Net Position and Statement of Activities*** provide information on a district-wide basis. The statements present an aggregate view of the District's finances. District-wide statements contain useful long-term information as well as information for the just-completed fiscal year.
- The remaining statements are ***fund financial statements*** that focus on individual parts of the District. Fund statements generally report operations in more detail than the district-wide statements.

The **notes to the financial statements** provide further explanation of some of the information in the statements. They also provide additional disclosures so statement users have a complete picture of the District's financial activities and position.

**Required supplementary information** further explains and supports the financial statements by including a comparison of the District's budget data for the year.

The major features of the District's financial statements, including the activities reported and the type of information contained are shown in the following table.

	<b>District-wide Statements</b>	<b>Fund Financial Statements</b>	
		Governmental	Fiduciary
Scope	Entire district (except fiduciary funds)	Activities of the District for instruction, the support of instruction, special projects and revenue, debt service, food service, community education, and capital projects as needed.	Assets held by the District on behalf of someone else. Student and other organizations that have funds on deposit with the District are reported here.
Required financial statements	Statement of Net Assets  Statement of Activities	Balance Sheet  Statement of Revenue, Expenditure and Change in Fund Balance	Statement of Fiduciary Net Assets  Statement of Change in Fiduciary Net Assets
Basis of accounting and measurement focus	Accrual accounting  Economic resources focus	Modified accrual accounting  Current financial resources focus	Accrual accounting  Economic resources focus
Type of asset and liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally, consumable assets and liabilities coming due during the year or soon thereafter, no capital assets included.	All assets and liabilities. These funds do not currently contain any capital assets, although they can.
Type of inflow and outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability are due and payable during the year or soon thereafter.	All additions and/or deductions during the year, regardless of when cash is received or paid.

## DISTRICT-WIDE STATEMENTS

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of activities reports all revenues and expenses used to support the District. The statement of net position reports all assets and liabilities available to support District activities. The two district-wide statements report the District's *net position* and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's overall financial position. Increases or decreases in the District's net position are one indicator of whether its financial position is improving or deteriorating respectively. To assess the overall financial condition of the District, additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities, should be considered.

In the district-wide financial statements, the District's activities are reported as governmental activities. Most of the District's basic services are included here, such as regular and special education, transportation, support services, debt service, capital projects, food service, community programs and administration. Property taxes and state school aid, finance most of these activities.

## FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt), or to show that it is properly using certain revenues (like capital project funds).

The District has two kinds of funds:

- **Governmental funds** - Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out; (2) the balances left at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that help determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental funds information does not report on long-term commitments as is reported on the district-wide statements.
- **Fiduciary funds** - The District serves as a trustee, or fiduciary, for various student organizations. The assets of these organizations belong to the organization and not the District. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes, and only by those to whom the assets belong. These activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

## FINANCIAL ANALYSIS

### The District as a Whole

Table 1 provides a summary of the District's net position for year ending June 30, 2022 compared with the prior year. The District's total assets and deferred outflows of resources

were \$243,330,975. The District's total liabilities and deferred inflows of resources were \$155,731,834. The District's net position was \$87,599,141. The District's combined net position increased by \$24,454,041.

Table 2 provides summarized operating results and their impact on net position. The District relies primarily on state and federal aids 57% and property taxes 26% of total revenues to fund governmental activities. These two funding sources make up 83% of the total revenues. All other revenues accounted for 17% of total revenue for the year.

The District's total revenues were \$104,579,138 for the year ending June 30, 2022.

The total cost of all programs and services was \$83,454,685. The district experienced an increase in net position of \$24,454,041. The District's expenses are predominantly related to educating and caring for students. Those costs not directly related to instruction are incurred in support of the instructional mission.

### **General Fund Budgetary Highlights**

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into three categories:

- \* Implementing budgets for specially funded projects, which include both federal and state grants.
- \* Increasing appropriations for significant unbudgeted costs.
- \* Reallocating the budget between functional lines.

The District prepares and reviews an interim budget in spring for the subsequent year. Consistent with current state statutes and regulations, an original budget is adopted in October following determination of official enrollment and certification of general state aids. Generally, the original budget is not significantly modified.

The District's General Fund for 2021-22 showed an equity increase by \$9,090,249 resulting in a fund balance of \$20,428,231, 23.8% of revenues.

- Actual General Fund revenues including fund 27 (less transfer) were \$85,786,932.
- Actual General Fund expenditures including fund 27 (less transfer) were \$76,992,739.

The District's Total Governmental Fund for 2021-22 showed an equity increase by \$456,541 resulting in a fund balance of \$33,208,560.

- Actual Governmental Fund revenues and other financing sources were \$104,579,138.
- Actual Governmental Fund expenditures were \$104,122,597.

The change to the total governmental fund balance was due the following:

### **Capital Assets**

At the end of the fiscal year, the District had \$181 million in a broad range of capital assets, including land, sites & improvements, buildings, and equipment. Total accumulated depreciation on these assets were \$46.4 million.

- Asset acquisitions during this fiscal year for governmental activities totaled \$12,504,242.
- Asset deletions during this fiscal year for governmental activities totaled \$687,137.
- The District recognized depreciation expense of \$3,398,602 for Governmental Activities during this fiscal year.

### **Long-Term Debt**

At year-end the District had \$80,505,000 in general obligation debt. Additional information about the District's long-term liabilities is presented in the financial statements.

- The District retired \$7,305,000 of outstanding general obligation bonds.
- The district currently has a Moody's Investors Service rating of Aa3.

Debt of the District is secured by an irrevocable tax levy adopted by the School Board at the time of issuance. Wisconsin state statutes require that the first property tax receipts be segregated for annual debt service payments.

### **Factors Bearing on the District's Future**

Currently known circumstances that will impact the district's financial status in the future are:

- In the 2022-23 school year, the district has levied to its maximum. This will make future school budgets more challenging if State of Wisconsin continues to provide little or no funding increases.
- In the 2022-23 school year, total revenue limit student FTE decrease by 12 when compared to the prior school year. This will impact future revenue limit capacity.
- With the most recent third Friday Head Count, the district had 447 student Open Enrollment (OE) in vs 338 OE out for a positive number of 109. Open enrollment in has continued to exceed open enrollment out which creates a positive funding source for the District.
- The district does not anticipate any significant labor negotiation issues, however is concerned with the tight labor pool and increased wage pressures.
- An actuarial study by Key Benefits Concepts, LLC. Completed an actuarial study of our postretirement benefits and determined the post-retirement benefit liability as of 6/30/2021 to be \$8,573,741. The trust fund was funded at 52% with an actuarial value of assets of \$4,449,788 to offset this liability.
- The existence of COVID-19 continues to significantly impact how we provide education to our students. We anticipate this will create long-term school funding issues.

### **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

**NOTES TO THE BASIC  
FINANCIAL STATEMENTS**

**D.C. EVEREST AREA SCHOOL DISTRICT**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 1 - Summary of Significant Accounting Policies**

The financial statements of the D.C. Everest Area School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

**Reporting Entity** - The D.C. Everest Area School District is organized as a common school district. The District, governed by a seven member elected school board, operates grades K through 12 and is comprised of all or parts of twelve taxing districts.

The District's basic financial statements do not include any components units, as defined in GASB 14 and amended by GASB 39 and GASB 61, as there are no organizations which meet the criterion. The criterion for including a legally separate organization as a component unit is the degree of financial accountability the District has with the organization. A financial benefit or burden relationship needs to be present between the primary government and that organization for it to be included in the reporting entity as a component unit.

The following circumstances set forth the District's financial accountability for a legally separate organization: the District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the District. The District may be financially accountable if an organization is fiscally dependent on the District regardless of whether the organization has (1) a separately-elected governing body, (2) a governing body appointed by a higher level of government, or (3) a jointly-appointed governing body. In addition, the primary government may determine, through exercise of management's professional judgment, that the inclusion of an organization that does not meet the financial accountability criteria is necessary in order to prevent the reporting entity's financial statements from being misleading.

**Basis Of Presentation**

**District-Wide Statements**

The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**D.C. EVEREST AREA SCHOOL DISTRICT**  
NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued  
JUNE 30, 2022

**NOTE 1 - Summary of Significant Accounting Policies - Continued**

Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds; each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following major governmental funds:

General Fund - is used for all financial activity that is not required to be accounted for in another fund. This is the District's primary operating fund.

Long-Term Capital Improvement Trust Fund - is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Other Capital Projects Fund - is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

The District has two fiduciary funds which account for scholarships and an employee benefit trust.

**Measurement Focus and Basis of Accounting**

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**D.C. EVEREST AREA SCHOOL DISTRICT**  
NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued  
JUNE 30, 2022

**NOTE 1 - Summary of Significant Accounting Policies - Continued**

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

The fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

**Cash and Investments** - The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. All funds share common (pooled) checking and investment accounts unless regulations require separate investment accounts, such as the debt service fund.

Investments are stated at fair value, if applicable, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average investment balances.

**Property Tax Levy** - Under Wisconsin law, personal property taxes and first and second installment real estate taxes are collected by municipal treasurers who then make proportional settlement with the District and county treasurer for those taxes collected on their behalf. Third installment real estate taxes and delinquent taxes are collected by the county treasurer who then makes settlement with the city, town, village, and the District before retaining any for county purposes. Taxes collected by the township are made in two installments, the first by the town, and the second by the county treasurer.

The District's property taxes are levied on or before November 1 on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31, and a final payment no later than the following July 31. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15, and by the 20 of each subsequent month thereafter. On or before August 20, the county treasurer makes full settlement to the District for any remaining balance. The county assumes all responsibility for delinquent real estate property taxes.

Property taxes are recognized as revenue in the period for which the taxes are levied. The 2021 tax levy is used to finance operations of the District's fiscal year ended June 30, 2022. All property taxes are considered due on January 1, when an enforceable lien may be assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30 and are available to pay current liabilities.

**D.C. EVEREST AREA SCHOOL DISTRICT**  
NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued  
JUNE 30, 2022

**NOTE 1 - Summary of Significant Accounting Policies - Continued**

**Accounts Receivable** - Accounts receivable are recorded at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that the amount of such allowance would not be material.

**Due To/From Other Funds** - During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as due to and from other funds. The amounts reported on the statement of net position for receivable/payable from external parties represents amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type.

**Interfund Transactions** - Non-exchange transactions which are not borrowing/lending (will not be repaid) are recorded as transfers, and exchange transactions are recorded as revenues and expenses.

**Prepaids** - Prepaid items represent payments for goods or services for which benefits extend beyond June 30.

A nonspendable fund balance has been recognized in governmental funds for these non-liquid assets to signify a portion of fund balance is not available for other subsequent expenditures.

**Capital Assets** - Capital assets are reported at actual cost or estimated historical costs, based on appraisals conducted by an independent third-party professional appraisal firm. Donated assets are reported at estimated acquisition value at the date of donation.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the district-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings	\$5,000	Straight-line	20-70 years
Land improvements	\$5,000	Straight-line	20 years
Furniture and equipment	\$5,000	Straight-line	5-20 years

**Debt Premiums and Discounts** - In the government-wide financial statements, debt premiums and discounts are amortized over the life of the debt. Long-term debt is reported net of the applicable debt premium or discount.

In the fund financial statements, premiums and discounts are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

**Compensated Absences** - The District's policy permits employees to accumulate earned, but unused vacation benefits, which are eligible for payment upon separation from government

service. The liability for such leave is reported as incurred in the government-wide statements. A liability for those amounts is recorded in the government funds only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary related benefits where applicable.

Accumulated sick leave lapses upon separation from government service therefore no monetary obligation exists.

**Pensions** - For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Other Post-Employment Benefits (OPEB)** - The fiduciary net position of the local retiree life insurance fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to other post-employment benefits, OPEB expense (revenue), and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIFs fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Deferred Outflows and Inflows of Resources** - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expenditure) until then. The District has three items that qualify for reporting in this category. They are the Wisconsin Retirement System pension, Wisconsin Retirement System local retiree life insurance fund (LRLIF), and OPEB healthcare reported in the government-wide statement of net position. The Wisconsin Retirement System pension, Wisconsin Retirement System LRLIF, and OPEB healthcare result from changes in their actuarial studies and are amortized over the average of the expected remaining service lives of participants.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position which applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The District has four items that qualify for reporting in this category. They are revenue on refunding, Wisconsin Retirement System pension, Wisconsin Retirement System LRLIF, and OPEB healthcare. Revenue on refunding arises under the accrual basis of accounting. The Wisconsin Retirement System pension, Wisconsin Retirement System LRLIF, and OPEB healthcare result from changes in their actuarial studies and are amortized over the average of the expected remaining service lives of participants.

**Estimates** - The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the

amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Net Position Classifications** - Net position represents the difference between the total assets and deferred outflows of resources and the total liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement for those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**Fund Balance Classification** - The District classifies its fund equity as follows: 1) nonspendable fund balance consists of equity that is not in a spendable form or is legally or contractually required to be maintained intact, 2) restricted fund balance consists of equity constrained to specific purposes by their providers, externally imposed by creditors, constitutional provisions or by enabling legislation, 3) committed fund balance consists of equity constrained to specific purposes by the District itself, using its highest level of decision making authority - Board of Education policies, 4) assigned fund balance consists of equity the governing body intends to use for a specific purpose, intent can be expressed by the governing body. The Board of Education has authorized the assistant superintendent to assign fund balances through its Fund Balance policy and 5) unassigned fund balance consists of equity available for any purpose.

When net losses occur, it is the District's policy to record the net loss against committed fund balance, then assigned fund balance and lastly to unassigned fund balance (GASB 54 default for not having a policy). The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

**NOTE 2 - Cash and Investments**

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, state obligations, U.S. Treasury obligations, U.S. agency issues, repurchase agreements and other investments secured by federal securities, high grade commercial paper, and the local government investment pool administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund. No significant violations of these restrictions occurred during the year.

As of June 30, 2022, the District had the following investment:

<u>Investment</u>	<u>Weighted Average Maturities</u>	<u>Fair Value</u>
Wisconsin Investment Series Cooperative	Less than one year	\$ 1,333,512
Certificates of deposit	Less than one year	1,519,626
Certificates of deposit	More than one year	<u>2,735,859</u>
Total		<u>\$ 5,588,997</u>

**NOTE 2 - Cash and Investments - Continued**

**Investment Pool Information** - Participation in the State of Wisconsin Local Government Investment Pool is voluntary. The Pool's regulatory oversight is provided by state statutes and its investment board. The fair value of the District's position in the Pool is the same as the value of the Pool shares. At June 30, 2022, the Pool's fair value was 100 percent of book value.

**Determining Fair Value** - The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets; level 2 inputs are significant other observable inputs; level 3 inputs are significant unobservable inputs. The District has the following recurring fair value measurements:

- 1) State of Wisconsin Local Government Investment Pool fair value is determined monthly by the Pool's investment board based on published market quotations (level 2 inputs).
- 2) Wisconsin Investment Trust is determined based on published market quotations (level 1 inputs).

**Income Allocation** - Interest income is generally allocated to the fund that owns the certificate of deposit, money market account, savings account, and investment.

**Interest Rate Risk** - State statutes limit investments in commercial paper, corporate bonds, and mutual bond funds to those which mature or may be tendered for purchase at the option of the holder within not more than 7 years of the date acquired. The District does not have an investment policy that would further limit investment maturities as a means of further managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk** - State statutes limit investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The District does not have an investment policy that would further limit its investment choices. The State of Wisconsin Local Government Investment Pool and Wisconsin Investment Series Cooperative are not rated.

**Custodial Credit Risk** - Custodial credit is the risk that, in the event of a financial institution failure, the District's deposits may not be returned. The District does not have a policy in place for custodial credit risk. The State of Wisconsin's Public Deposit Guarantee Fund created under Chapter 34 of the Wisconsin Statutes protects the municipality's designated public depositories against any losses of public funds up to \$400,000 subject to the total amount of the Guarantee Fund available. As of June 30, 2022, none of the District's bank balance of \$37,047,606 was exposed to custodial credit risk as uninsured, pledged collateral, collateralized by U.S. Government or municipal securities held by the bank in the bank's name. None was uninsured and uncollateralized.

**Defeased Debt** - The District defeased general obligation debt by depositing money in an irrevocable trust account for future debt service payments of the old debt. Accordingly, the trust account assets and the liability for the defeased debt are not included in the District's financial statements. At June 30, 2022, there is \$5,210,000 of defeased debt remaining.

**NOTE 5 - Wisconsin Retirement System**

**General Information about the Pension Plan**

**Plan Description** - The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

**Vesting** - For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011 must have five years of creditable service to be vested.

**Benefits Provided** - Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

**D.C. EVEREST AREA SCHOOL DISTRICT**  
NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued  
JUNE 30, 2022

**NOTE 5 - Wisconsin Retirement System - Continued**

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupations) and receive an actuarial-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments** - The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment (%)	Variable Fund Adjustment (%)
2012	(7)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2
2016	.5	(5)
2017	2	4
2018	2.4	17
2019	-	(10)
2020	1.7	21
2021	5.1	13

**Contributions** - Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$2,781,411 in contributions from the employer.

**Pension Liabilities, Pension Expense (Revenue), Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022, the District reported a liability (asset) of (\$19,884,326) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2020, rolled forward to December 31, 2021. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2021, the District's proportion was 0.24669817% which was a decrease of 0.00044847% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the District recognized pension expense (revenue) of (\$1,718,847).

At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 32,122,124	\$ 2,316,352
Net differences between projected and actual earnings on pension plan investments	-	44,482,892
Changes in assumptions	3,709,735	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	27,818	18,915
Employer contributions subsequent to the measurement date	1,298,504	-
Total	\$ 37,158,181	\$ 46,818,159

\$1,298,504 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (revenue) as follows:

**Actuarial Assumptions** - The total pension liability in the December 31, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2020
Measurement Date of Net Pension Liability (Asset)	December 31, 2021
Experience Study:	January 1, 2018 - December 31, 2020. Published November 19, 2021

Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Wage Inflation	3%
Seniority/Merit	.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table
Post-retirement Adjustments:*	1.7%

*\* No post-retirement adjustment is guaranteed - Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including the discount rate, long-term expected rate of return, post retirement adjustment, price inflation, mortality and separation rates. The total pension liability for December 31, 2021 is based upon a roll-forward of the liability calculated from the December 31, 2020 actuarial valuation.

**Long-Term Expected Return on Plan Assets** - The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target

New England Pension Consultants Long-Term US CPI (Inflation) Forecast 2.5%

The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

**Single Discount Rate** - A single discount rate of 6.8% was used to measure the total pension liability, as opposed to a discount rate of 7% for the prior year. This single discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 1.84% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2021. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**General Information about the Other Post Employment Benefits**

**Plan Description** - The LRLIF is a multiple-employer defined-benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post employment life insurance benefits for all eligible employees.

**OPEB Plan Fiduciary Net Position** - ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Retiree Life Insurance Financial Report, which can also be found using the link above.

**Benefits Provided** - The LRLIF plan provides fully paid life insurance benefits for post age 64 retired employees and pre-65 retirees who pay for coverage.

**Contributions** - The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post retirement benefit.

Employers are required to pay the following contributions based on employee contributions for active members to provide them with basic coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65,

they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of June 30, 2022 are:

Coverage Type	Employer Contribution
50% post retirement coverage	40% of employee contribution
25% post retirement coverage	20% of employee contribution

Employee contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2021 are as listed below:

Attained Age	Basic	Supplemental
Under 30	\$.05	\$.05
30-34	.06	.06
35-39	.07	.07
40-44	.08	.08

50-54	.22	.22
55-59	.39	.39
60-64	.49	.49
65-69	.57	.57
*Disabled members under age 70 receive a waiver-of-premium benefit.		

During the reporting period, the LRLIF recognized \$16,681 in contributions from the employer.

**OPEB Liabilities, OPEB Expense (Revenue), Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEBs**

At June 30, 2022, the District reported a liability (asset) of \$4,326,024 for its proportionate share of the net OPEB liability (asset). The net OPEB liability (asset) was measured as of December 31, 2021, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of January 1, 2021 rolled forward to December 31, 2021. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2021, the District's proportion was 0.731938%, which was an increase of .015281% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the District recognized OPEB expense (revenue) of \$566,331.

At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

\$7,678 reported as deferred outflows related to OPEB resulting from the LRLIF Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (revenue) as follows:

**Actuarial Assumptions** - The total OPEB liability in the January 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	January 1, 2021
Measurement Date of Net OPEB Liability (Asset)	December 31, 2021
Experience Study:	January 1, 2018 – December 31, 2020, Published November 19, 2021

**D.C. EVEREST AREA SCHOOL DISTRICT**  
NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued  
JUNE 30, 2022

**NOTE 6 - Wisconsin Retirement System Local Retirement Life Insurance Fund - Continued**

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. Based on this experience study, actual assumptions used to measure the Total OPEB Liability changed from the prior year, including the price inflation, mortality and separation rates. The total OPEB liability for December 31, 2021 is based upon a roll-forward of the liability calculated from the January 1, 2021 actuarial valuation.

**Long-Term Expected Return on Plan Assets** - The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

Asset Class	Index	Target Allocation %	Long-Term Expected Geometric Real Rate of Return %
US Intermediate Credit Bonds	Bloomberg US Interm Credit	45	1.68
US Long Credit Bonds	Bloomberg US Long Credit	5	1.82
US Mortgages	Bloomberg US MBS	50	1.94
Inflation			2.3
Long-term Expected Rate of Return			4.25

The long-term expected rate of return remained unchanged from the prior year at 4.25%. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The expected inflation rate increased from 2.20% as of December 31, 2020 to 2.30% as of December 31, 2021.

**Single Discount Rate** - A single discount rate of 2.17% was used to measure the total OPEB liability for the current year, as opposed to a discount rate of 2.25% for the prior year. The significant change in the discount rate was primarily caused by the decrease in the municipal bond rate from 2.12% as of December 31, 2020 to 2.06% as of December 31, 2021. The plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payments to the extent that the plan's

fiduciary net position is projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

**Sensitivity of the District's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate** - The following presents the District's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 2.17 percent, as well as what the District's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (1.17 percent) or 1-percentage-point higher (3.17 percent) than the current rate:

	1% Decrease to Discount Rate (1.17%)	Current Discount Rate (2.17%)	1% Increase to Discount Rate (3.17%)
District's proportionate share of the net OPEB liability (asset)	\$ 5,868,855	\$ 4,326,024	\$ 3,165,107

**Payables to the Pension Plan** - The District reported a payable of zero for the outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2022.

**NOTE 7 - Interfund Balance and Activity**

Interfund receivable and payable balances on June 30, 2022, are as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Community service	Capital Projects	\$ 6,758

The above balance resulted from the timing differences between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made. All amounts are due within one year. For the statement of net position, interfund balances which are owed within the governmental activities are netted and eliminated.

**NOTE 8 - Post Employment Benefits Other Than Pensions**

**General Information about the Post Employment Benefits Other Than Pensions**

**Plan Description** - The other post employment benefits (OPEB) other than pensions is a single-employer defined benefit OPEB plan. Benefit terms are established by employee handbooks and may be modified by the Board of Education. The plan is administered by the District and included in the District's financial statements.

**Benefits Provided** - Current benefits apply to administrators, teachers, and support staff who retired prior to 7/1/14. Eligible retirees receive grandfathered benefits that are no longer provided which are premium contributions towards health insurance for up to seven years as of

the retirement date. Note – Only 2 employees are still receiving the contribution through the District health plan, all will be off by 5/31/2022.

Administrators hired on or after July 1, 2014 and at least age 55 with 15 years of service in the District will receive \$60,000 deposited into a HRA account if they retire prior to age 65 and are salaried. If salaried administrators retire after the age 65, they will receive \$30,000 deposited into a HRA account.

Teachers, at-will salaried, and hourly employees hired prior to July 1, 2014 benefits range depending on the length of service and if the retiree retired prior to 65 or subsequent to age 65. If retired prior to age 65, they will receive \$30,000 to \$60,000 deposited into a HRA account with the service length ranging from 15 to 35 years. If retired after the age 65, they will receive \$15,000 to \$30,000 deposited into a HRA account with the service length ranging from 15 to 35 years of service.

**Employees Covered** - As of the June 30, 2021 measurement date, the following employees were covered by the benefit terms. The plan is closed to new entrants, with the exception of administrators.

Inactive employees or beneficiaries currently receiving benefits	26
Inactive employees entitled to but not yet receiving benefits	-
Active employees	<u>616</u>
Total	<u>642</u>

**Contributions** - The Board of Education has the authority to establish the contribution requirements for the plan. The Board establishes contribution rates based on premiums and an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the unfunded accrued liability. For the year ended June 30, 2022, contribution rates for Plan members were \$47-\$276 per participant per month and \$376 from the District, depending on the type of retiree plan. Plan members receiving benefits contributed \$4,508 and the District contributed \$745,801 to the plan.

**Actuarial Assumptions** - The net OPEB healthcare liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

**D.C. EVEREST AREA SCHOOL DISTRICT**  
NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued

**NOTE 8 - Post Employment Benefits Other Than Pensions - Continued**

Actuarial Valuation Date:	June 30, 2021
Measurement Date:	June 30, 2021
Actuarial Cost Method:	Entry Age Normal

Medical Care Cost Trend:	6.5% decreasing by .1% per year down to 5.0%, and level thereafter

The actuarial valuation was based upon the data provided by the District and utilized the premium rate history of the District's medical plans as well as the trends used in the prior valuation and projected a stream of expected premium rates for each year in the future based on the data as of June 30, 2021.

**Discount Rate** - A discount rate of 2.25% was used to measure the total OPEB healthcare liability. This discount rate was based on the expected rate of return on plan investments of 2.25%. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB healthcare liability. The discount rate did incorporate a municipal bond rate.

The District has adopted a minimum fund balance policy with a goal of 15% of general fund expenditures to be maintained for working capital purposes.

**NOTE 10 - Risk Management**

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee health and accident claims; and natural disasters. For all risks of loss, the District's policy is to purchase commercial insurance, except for self-insured dental benefits as described in Note 13. Settled claims have not exceeded

commercial coverage in any of the past three years and there has been no significant reduction in insurance coverage from coverage in the prior year.

**NOTE 11 - Commitments and Contingencies**

The District has a service agreement with Cooperative Education Service Agency #9 for services to be provided to the District in 2022-2023. Expected costs are \$79,303.

The District has a transportation agreement with estimated costs for the following school years:

2022-2023	\$2,649,203
2023-2024	2,708,810
2024-2025	<u>2,769,758</u>
	<u>\$8,127,771</u>

The District is aware some older buildings contain some level of asbestos in which they will incur removal costs upon remodeling, selling, or abandoning these buildings at some future date. However, at this point, the District does not feel they have enough information to reasonably estimate the fair value of the asset retirement obligation and have not recorded a liability.

From time to time, the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District's attorney that the likelihood is remote that any such claims or proceedings will have a material effect on the District's financial position or results of operations.

**NOTE 12 - Limitation of School District Revenue**

Wisconsin statutes limit the amount of revenue school districts may derive from general school aids and property taxes. This limitation does not apply to revenue needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following: (a) a resolution of the school board or by a referendum prior to August 12, 1993 and (b) a referendum on or after August 12, 1993.

**NOTE 13 - Self-Funded Insurance**

The District established a self-funded dental benefit plan for its employees. The Plan administrators are responsible for the approval, processing, and payment of claims, after which they bill the District for reimbursement. The District is also responsible for an administrative fee. The Plan reports on a fiscal year ending June 30, 2022.

Accounting and budgeting requirements for the Plan are established by the Wisconsin Department of Public Instruction. Currently, the Plan is accounted for in the General Fund and other funds of the District.

The District has no stop-loss coverage for dental care coverage of the Plan.

Claim payments are principally funded through charges to employees, which are paid through payroll deductions, and employer contributions to the dental plan.

The District did not receive an actuarial certification for the self-insured dental plan related to the adequacy of reserves, rates, or financial soundness of the plan.

**NOTE 14 - Change in Accounting Principle**

The change in accounting principle adjustment of \$3,329,588 on the statement of activities is due to the adoption of Governmental Accounting Standards Statement No. 87 *Leases*.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
**ON BUDGETARY ACCOUNTING AND CONTROL**  
**JUNE 30, 2022**

**NOTE 1 - Budgetary Information** - Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The legally adopted budget and budgetary expenditure control is exercised at the function level. Reported budget amounts are as originally adopted or as amended by a Board of Education resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Based upon requests from District staff, the District Administration recommends budget proposals to the Board of Education.
2. The Board of Education prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
3. A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
4. Pursuant to the budget hearing, the Board of Education may make alterations to the proposed budget.
5. After the Board of Education (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire Board of Education.
6. Appropriations lapse at year end unless authorized as a carryover by the Board of Education. The portion of fund balance representing carryover appropriations is reported as a committed or assigned fund balance.
7. Encumbrance accounting is not used.
8. Budgets are adopted on a basis consistent with generally accepted accounting principles.

**NOTE 2 - Excess of Actual Expenditure Over Budget** - The following expenditure classifications were in excess of \$1,000 over budget.

Changes of benefit terms - there were no changes of benefit terms for any participating employer in WRS.

Changes of assumptions - Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- \* Lowering the long-term expected rate of return from 7% to 6.8%
- \* Lowering the discount rate from 7% to 6.8%
- \* Lowering the price inflation rate from 2.5% to 2.4%
- \* Lowering the post-retirement adjustments from 1.9% to 1.7%

\* Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Changes of benefit terms - there were no recent changes in benefit terms.

Changes of assumptions - in addition to the rate changes detailed in the tables above, the State of Wisconsin Employee Trust fund Board adopted economic and demographic assumption changes based on a three year experience study performed for the Wisconsin Retirement System. These assumptions are used in the actuarial valuations of OPEB liabilities (assets) for the retiree life insurance programs and are summarized below.

The assumption changes that were used to measure the December 31, 2021 total OPEB liabilities, including the following:

\* Lowering the price inflation rate from 2.5% to 2.4%

\* Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality table.

**OTHER REPORTS**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Education  
D.C. Everest Area School District  
Schofield, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the D.C. Everest Area School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the D.C. Everest Area School District's basic financial statements and have issued our report thereon dated October 21, 2022.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the D.C. Everest Area School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the D.C. Everest Area School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the D.C. Everest Area School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency. We consider the 2022-001 deficiency described in the accompanying schedule of findings and questioned costs to be a significant deficiency.

## ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the D.C. Everest Area School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

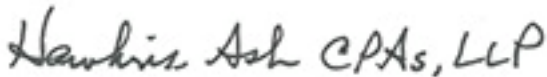

### **D.C. Everest Area School District's Response to Finding**

D.C. Everest Area School District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. D.C. Everest Area School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal and State Program**

***Opinion on Each Major Federal and State Program***

We have audited D.C. Everest Area School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of D.C. Everest Area School District's major federal and state programs for the year ended June 30, 2022. D.C. Everest Area School District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, D.C. Everest Area School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2022.

***Basis for Opinion on Each Major Federal and State Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and *State Single Audit Guidelines*. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of D.C. Everest Area School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of D.C. Everest Area School District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the

requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to D.C. Everest Area School District's federal and state programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on D.C. Everest Area School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and *State Single Audit Guidelines* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about D.C. Everest Area School District's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and *State Single Audit Guidelines*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding D.C. Everest Area School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of D.C. Everest Area School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of D.C. Everest Area School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

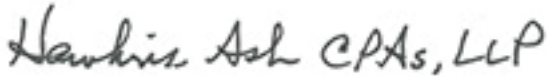

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

**Section II - Financial Statement Findings and Questioned Costs**

**2022-001 - Preparation of Financial Statements**

Program: District-Wide

Criteria: Adequate internal controls necessitate personnel to have knowledge and training which would enable them to prepare financial statements (and footnotes) in accordance with generally accepted accounting principles (GAAP).

Condition: Personnel cannot prepare GAAP basis financial statements.

Questioned Costs: Not applicable.

Context: Personnel have adequate knowledge and experience in governmental accounting and interim reporting requirements; however, their limited knowledge and lack of training limits their ability to prepare GAAP basis financial statements.

Effect: This weakness could result in the possibility of undetected errors and irregularities.

Information: Isolated instance.

Prior Year Finding: This was a prior year audit finding numbered 2021-001.

Recommendation: Obtain adequate training or continue to hire a certified public accounting (CPA) firm to prepare GAAP basis financial statements.

Management's Response: Due to the complexities involved with preparing GAAP basis financial statements, management has weighed the cost-benefit of training personnel or hiring a CPA firm. Management has concluded to hire a CPA firm.

## **SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS AND CORRECTIVE ACTION PLAN** JUNE 30, 2022

### **Summary Schedule of Prior Audit Findings**

2021-001 - Preparation of Financial Statements - Repeat. Initially occurred 6/30/13.

### **Corrective Action Plan**

2022-001 - Preparation of Financial Statements - Contact: Gary Gadke, Accounting Supervisor. Completion date: N/A. Due to the complexities of governmental reporting in accordance with GAAP, i.e. financial statements and related disclosure reporting, District management has weighed the cost benefit of training current staff or hiring a Certified Public Accountant on staff for the purposes of preparing the external financial statements in accordance with GAAP. District management has concluded to outsource the preparation of the external financial statements and related disclosures to their certified public accounting firm, which is an acceptable practice according to *Government Auditing Standards*. District management will review and approve the externally prepared financial statements.
