The Frederick Gunn School, founded in 1850, is a co-ed boarding and day school for students in grades 9-12 as well as a post-graduate year. Mr. Gunn had a deep appreciation for the natural world, believing that in nature students understand themselves as humans and their place in the world. He took a principled stand against slavery and spurred students (and the town at large) to examine their beliefs. In addition to the habits and skills students will need in college and life beyond, we teach them to follow Mr. Gunn's example: to cultivate wisdom, to be trailblazers, to act with conviction, and to value character as highly as intellect and achievement.

Our continuous focus on moral character development intentionally engages all members of our school in the work of creating an inclusive and equitable living and learning ecosystem. Community and citizenship are at the heart of our aspiration to both social justice and academic excellence, with individual diversity integral to the strength of that community. When we embrace difference and pursue school life with respect, equity, and compassion, we build a foundation for engaged citizens.

In keeping with the tenets of our founder Frederick Gunn, who was himself a prominent abolitionist and progressive educator, The Frederick Gunn School seeks to provide a pluralistic learning environment for all inclusive of (but not limited to): culture, ethnicity, gender identity or expression, national origin, learning differences, physical difference, political affiliation, race, religion, sex, sexual orientation, and socioeconomic differences.

We invite applicants who resonate with our mission and who will foster an environment of cultural and intellectual richness and an active participant in advancing equity and inclusion.

Core Values

Integrated Humans

Thriving people learn to integrate the intellectual, the physical, the spiritual, and the emotional through an examination of the place of each, discernment about their relative role, and a commitment to balance and flourishing.

Hopeful Faculty

We prize faculty who believe resiliently, optimistically and with good humor in the students' and faculty's collective ability to grow and learn; know their discipline and practice, and understand character development. A faculty oriented around these principles will earn the confidence of students and create a place of purpose and fun where faculty and students want to be.

Learning Ecosystem

Thriving communities recognize the interdependent nature of their parts. Therefore, The Frederick Gunn School is a school that champions the interdisciplinary and inter-experiential nature of life and learning - one that incorporates the outdoors, athletics, and arts, as well as academics, into everyday life.

Moral Character Development

We are a school that nurtures Mr. Gunn's belief in character as the driving force in a life well-lived, and that character emerges through the intentional pursuit—in knowledge and practice—of what is good, right, true, sustainable, and beautiful.

Engaged Citizens

The Frederick Gunn School is a school that, despite growing cultural apathy, cynicism, consumerism and distraction, produces people who care deeply - who become wise, engaged, active citizens.
