SENIOR SPOTLIGHT

Taylor Nguyen

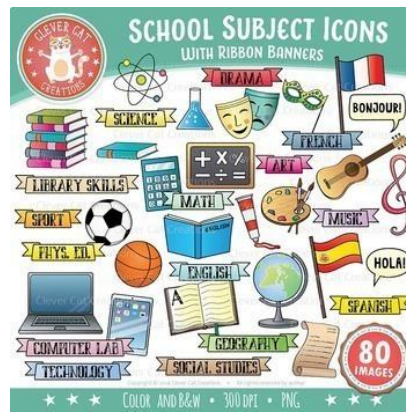

What are your plans after high school? If going to college, what college (if you know) and what do you want to study there?

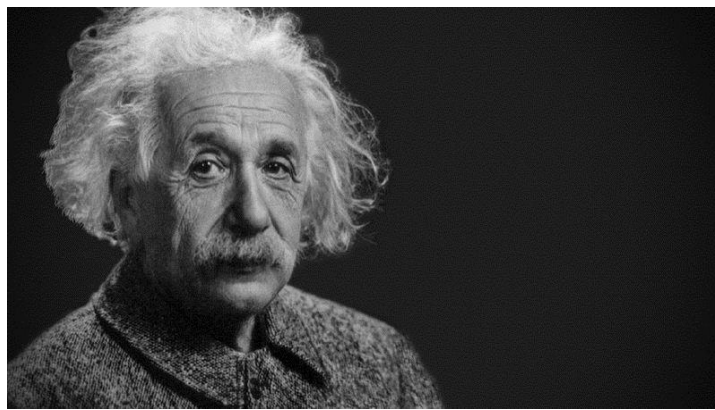

After high school, I'm planning on going to college fairly close by to see my family often, and quite frankly, I'm still not certain on what subject I want to commit to.

What is your favorite school subject?

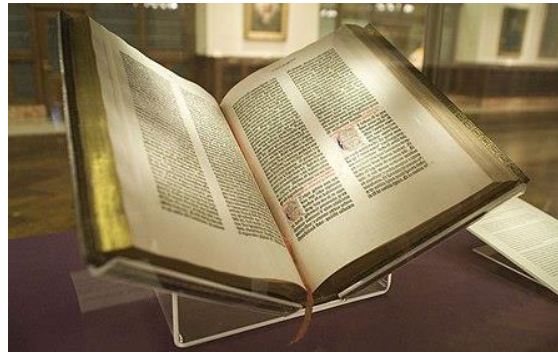

My favorite school subjects for this year would be either psychology or physics. I've always had a bias toward the sciences, and what I'm learning in these classes is only enforcing that.

What person (other than your parents, you can talk about your parents in a later question) has had the greatest influence on you and why?

Aside from my parents, the people who motivate me the most would actually be my friends. We all expect a lot from each other and push to do our best.

What is your favorite book?

My favorite book is "The Lost Boy", by Dave Pelzer, which details the author's painful childhood as a foster care child.

What kind of music do you like to listen to?

I listen to a lot of different genres, but right now I'm leaning towards R&B.

What is your favorite food?

My favorite food would either be sushi or pizza.

How many siblings do you have and their names?

I have just one sister, Quynh-Nhu, who used to attend Elsie.

What is one thing you cannot live without?

If I lost my glasses, I'd be really similar to Velma from Scooby Doo, so I'll say that's the one thing I can't live without.
