SPORTS CONCUSSION TESTING PROGRAM CONSENT AND RELEASE FORM

I understand that pre-concussion baseline testing and post-concussion testing will be administered at my son/daughter's high school, and is part of the procedure for guiding their return to sports participation after injury. This testing is only one part of the criteria that will be used to determine the student's ability to return to play.

Procedures

- There is no charge for the Immediate Post Concussion Assessment and Cognitive Testing (ImPACT) to be conducted at the school. (More information is available at impacttest.com.)
- If my son/daughter sustains a concussion, the post-injury test will be administered by a qualified staff member when my son/daughter is asymptomatic. This post-injury test result will be compared with the baseline test.
- The post-injury test results will be reviewed by the District's authorized Health Care Provider to provide input regarding the next course of action.
- A copy of the post-injury test results will be sent to me.
- On behalf of my child, I will consult with a concussion specialist outside of the school system at my own cost to evaluate my child's health and whether my son/daughter should be allowed to return to play.
- Santa Rosa City Schools (SRCS) is not providing medical coverage or reimbursement for any testing, assessment, follow-up, or rehabilitation beyond the initial test and any post-injury concussion test.

Limitations on Use of Information

- I understand that the concussion baseline is designed only as a tool for concussion management and not as an IQ test and will not be used for educational planning or placement decisions.
- Blows to the head may cause a variety of injuries other than concussions (e.g., neck injuries, more serious brain injuries). The sports concussion program is designed for concussions only. Your child must see his/her doctor as soon as possible to address all medical concerns.

Release of Liability

- To the fullest extent permitted by law, I hereby waive all claims against and release from liability the Santa Rosa City Schools, Santa Rosa Junior College and North Coast Concussion Management, their Governing Boards, officers, agents, volunteers and employees for any negligent acts or omissions arising from the concussion testing activities.

Storage, Use of Information, Persons Authorized Access, and Confidentiality

- Santa Rosa City Schools (SRCS) will appropriately safeguard protected individually identifiable health information made available to or obtained by SRCS from its students. SRCS will comply with applicable legal requirements relating to protected Health Information.
- Test results will be stored confidentially on a password protected secure website.
- Only the following individuals will have access to the test results: District Coordinator of Athletic Directors; Director of Curriculum & Instruction, 7-12; School athletic trainer; consulting medical professional, and any physician designated by parent/guardian.
- Information about the student's recovery may be provided to the school nurse, guidance counselor, school psychologist, and/or teachers to provide temporary health or academic support.
- A copy of the post-injury test results will be sent to me in writing and, if I request, to my designated physician.

Acknowledgement and Consent

I have read this document completely and I understand the terms and conditions set forth above. I understand that this testing program is a requirement for sports participation. I consent to the administration of the concussion testing of my child under this program and to the release of my child's testing information and related protected health information to the individuals specified in this form.
