It's a Test Thing... Summary of Services

ACT Classes

ACT Classes include 15 hours of instruction, two full-length real practice tests, two individual assessments, and all practice and instructional materials. I have been teaching ACT classes for over a decade, having had over 1,000 students pass through my classrooms. Over the years, my students have maintained an average increase of 2-3 points. All of my classes are capped at 10 students and include fun learning activities like ACT Jeopardy to make preparing for the ACT both educational and fun.

Individual Tutoring

Individual Tutoring provides the ultimate in test prep as I am able to work with a student individually. This allows me to see the exact areas where a students is struggling and identify specific strategies that will work for that student going forward. It also allows me to gear the sessions toward that student's specific needs.

Group Tutoring

Group Tutoring is a more affordable option that allows a student to receive the same instruction that they would receive from one of my classes or from individual tutoring only in a group setting of 2-10 students. While students may not receive the same attention that they would receive with individual tutoring, great effort is made to make sure that each student is provided with the strategies and necessary feedback to hone their ACT skills on the test, and all students that sign up for 8 or more hours of group tutoring are given a chance to take a free practice test and get a free individual assessment to accompany their instruction.

Written Assessments

Written Assessments are reports provided to students that include their scores from an administered practice test or Score Report (if it is a real ACT) along with written feedback and suggestions regarding what areas he or she will need focus to focus on and implement going forward to maximize his or her score.

Individual Assessments

Individual Assessments are 30 minute sessions where I meet with a student individually to discuss and show him or her what areas they will need to focus on and what strategies are going to be best suited for them going forward. Individual Assessments are conducted based on the results of an actual ACT (if students order and receive their test booklet and answer sheet) or on one our administered tests which I hand grade and analyze.

Practice Tests/Score Report

Practice Tests are an opportunity for students to see how they perform on an actual ACT (created by ACT). The tests are administered just like the actual test and are hand graded by myself. Students will receive a Score Report with the Practice Test which provides their scores on each section of the test as well as a break down of how they performed on specific areas within each section of the test.

It's a Test Thing... Summary of Services

Comprehensive Math Workshop
The Comprehensive Math Workshop is an ideal opportunity for students struggling with the Math section of the ACT to get 8 hours of instruction targeted just on Math. Students will be given daily practice and homework with all materials being provided. All students who sign up for any of the Math workshops will also be provided a free refresher session to be conducted within a week of the September test.

Algebra Workshop
The Comprehensive Math Workshop is an ideal opportunity for students struggling with the Math section of the ACT to get 8 hours of instruction targeting just the algebra concepts of the Math section of the ACT.

Geometry/Trig. Workshop
The Comprehensive Math Workshop is an ideal opportunity for students struggling with the Math section of the ACT to get 8 hours of instruction targeting just the geometry and trigonometry concepts of the Math section of the ACT.

Advanced Math Workshop
The advanced Math Workshop is designed for students who have already achieved a Math score in the 26-30 range and are trying to get their math score into the 30's. This workshop deals with time management and the more difficult math concepts presented on the ACT.

English Workshop
The Comprehensive English Workshop is an ideal opportunity for students struggling with the English section of the ACT to get 8 hours of instruction targeted just on English. Students will be given daily practice and homework with all materials being provided.

Reading Workshop
The Comprehensive Reading Workshop is an ideal opportunity for students struggling with the Reading section of the ACT to get 8 hours of instruction targeted just on Reading. Students will be given daily practice and homework with all materials being provided.

Science Workshop
The Comprehensive Science Workshop is an ideal opportunity for students struggling with the Science section of the ACT to get 8 hours of instruction targeted just on Science. Students will be given daily practice and homework with all materials being provided.
